New Parliaments Of Central And Eastern Europe:

The New Parliaments of Central and Eastern Europe Philip Norton, David M. Olson, 2013-11-05 What role have parliaments played in the dramatic changes occurring in Eastern and Central Europe Adopting a common research framework the contributors analyse in detail the role and operations of parliaments in ten of the new democracies They focus on what determines their capacity to have some impact on public policy They identify the significance of parliaments operating in often hybrid systems of government with the relationship between the executive and legislature not well defined and with an absence of constraining influence that typify western political systems *Developments in Central and East*

European Politics 3 Stephen White, Judy Batt, Paul G. Lewis, 2003 **Developments in Central and East European Politics** 2 Stephen White, Judy Batt, Paul G. Lewis, 1998 **Parliamentary Elites in Central and Eastern Europe** Elena

Semenova, Michael Edinger, Heinrich Best, 2013-12-13 Legislators are entrusted with key parliamentary functions and are important figures in the decision making process Their behaviour as political elites is as much responsible for the failures and successes of the new democracies as their institutional designs and constitutional reforms This book provides a comparative examination of representative elites and their role in democratic development in post communist Central and Eastern Europe CEE It argues that as the drivers of the transformation process in CEE individual and collective parliamentary actors matter The authors provide an in depth analysis of representatives from eleven national parliaments and explore country specific features of recruitment and representation They draw on an integrated dataset of parliamentary elites for individual party family and parliamentary variables over the 20 years following the collapse of Communism and develop a common framework for the analysis of variations in democratisation and political professionalisation between parliaments and political parties party families across CEE This unique volume will be of interest to students and scholars of comparative politics elite research post communist politics democratisation legislative studies and parliamentary representation *Developments in Central and East European Politics* 5 Stephen White, Judy Batt, 2013-08-30 The new

Parliaments David M. Olson,Gabriella Ilonszki,2013-10-18 At the end of the founding or initial decade the new parliaments of post Communist Europe had developed two distinct types democratic and presidentially dominated Whilst in the early years they had been characterised as parliaments in adolescence they have through the second decade continued to improvise but also elaborate their working relationships with both their chief executives and electorates This book examines these adaptations in seven parliaments comparing both among them and with parliaments of west Europe Their changes are traced through four distinct sets in context members internal structure and working relationship with the executive This research develops a common perspective for our understanding of both new and developed legislatures by tracing the steps through which new parliaments begin adapt and become established This book was published as a special issue of Journal of Legislative Studies *Comparing and Classifying Legislatures* David Arter,2013-09-13 Recent years have witnessed

substantial work in the legislative studies field But what do we know about legislatures today and are there clear criteria for comparing and classifying them This is a new review of the state of our knowledge of parliament and tackles key questions Do legislatures matter in legislative terms and if so how much What is the extent of the legislature s control of the legislative process How can we classify legislatures on the basis of their relative legislative performance Five measures of the policy power of parliaments are applied in the country region chapters This book was previously published as a special issue of the leading Journal of Legislative Studies **Parliaments in the Modern World** Gary W. Copeland,Samuel C. Patterson,1994

A cross national survey of how parliaments adapt to change **Executive Leadership and Legislative Assemblies**

Nicholas D. J. Baldwin,2014-01-02 The relationship between a head of government head of the executive branch and a nation s parliament or legislative assembly the legislative branch has long been the focus for comment and analysis for example has the prime minister in the United Kingdom come to a position of dominance at the expense of the power of parliament Does the American president stand head and shoulders above Congress Is a French president master of the system Need the Russian president pay attention to the Duma What of the position in other parliamentary and presidential systems In this book Baldwin seeks to provide answers and does so by drawing upon the knowledge and expertise of an international group of scholars whose essays advance our knowledge of the subject This book was previously published as a special issue of the Journal of Legislative Studies **Post-Communist and Post-Soviet Parliaments** Philip Norton,David M. Olson,2013-09-13

The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their

respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies **Parliaments in the Czech and Slovak Republics** Petr Kopecký,2017-11-22 This title was first published in 2001 Based on a unique set of structured interviews with parliamentarians and additional interviews with party leaders and activists this significant volume provides an illuminating account of the formation of the new democracies in Czechoslovakia and later the Czech Republic and Slovakia Examining efforts to construct stable democratic parliamentary regimes in the wake of communist breakdown it provides a rigorous analysis of parliaments relations with the electorate and the executive as well as their internal working Richly detailed and clearly written this original study is an invaluable addition to the collection of anyone interested in post communist Europe or parliamentary studies **Parliaments and Governments in Western Europe** Philip Norton,1998 Draws together a team of nine country specialists to analyze parliamentary government in Western Europe The contributors explore the parliaments of Britain Germany Italy Belgium Ireland Portugal and the EU Concludes with a chapter that examines the volume s two theses that the type of legislature in each country is determined by institutional environment and that members of the legislature can make some difference to the capacity of the institution to constrain the executive Distributed by ISBS Annotation copyrighted by Book News Inc Portland OR Redeeming the Communist Past Anna M. Grzymala-Busse,2002-02-18 This major study examines the regeneration of the former communist parties in East Central Europe after 1989 **Who Guards the Guardians and How** Thomas C. Bruneau,Scott D. Tollefson,2009-06-03 The continued spread of democracy into the twenty first century has seen two thirds of the almost two hundred independent countries of the world adopting this model In these newer democracies one of the biggest challenges has been to establish the proper balance between the civilian and military sectors A fundamental question of power must be addressed who guards the guardians and how In this volume of essays contributors associated with the Center for Civil Military Relations in Monterey California offer firsthand observations about civil military relations in a broad range of regions including Latin America Africa Asia and Eastern Europe Despite diversity among the consolidating democracies of the world their civil military problems and solutions are similar soldiers and statesmen must achieve a deeper understanding of one another and be motivated to interact in a mutually beneficial way The unifying theme of this collection is the creation and development of the institutions whereby democratically elected civilians achieve and exercise power over those who hold a monopoly on the use of force within a society while ensuring that the state has sufficient and qualified armed forces to defend itself against internal and external aggressors Although these essays address a wide variety of institutions and situations they each stress a necessity for balance between democratic civilian control and military effectiveness Parliaments in Asia Nizam

Ahmed, Philip Norton, 2013-09-13 This is a description and assessment of Asian parliaments It looks at the parliaments of India Bangladesh Korea Japan China Mongolia and Nepal and assesses key variables that determine the impact of parliaments

From Legislation to Legitimation Cristina Leston-Bandeira, 2004-08-02 This book is unique as the only book on the Portuguese parliament in English The Portuguese parliament is a valuable case study to understand the different stages of development of a newly democratic parliament From Legislation to Legitimation shows that as democracy developed the role of the Portuguese parliament changed considerably Whereas in the first years of democracy the Assembleia da Republica was centred on its legislative role during the second decade its legitimation role expanded making scrutiny parliament's main function

Parliamentary Oversight Tools Riccardo Pelizzo, Frederick Staphenurst, 2013-06-17 This book investigates Parliaments capacity to oversee government activities policies and expenditures Utilising a comparative approach the book presents a new examination of oversight tools and discusses the conditions under which such tools are employed effectively The result of a 9 year collaboration between the authors this book draws from the findings of survey data collected by the World Bank Institute and the Inter Parliamentary Union analysing information from 120 parliaments The book represents a rigorous attempt to test whether international organizations are correct in claiming that the quality of democracy and good governance can be improved by strengthening the oversight capacity of legislatures It discusses the tools available to parliaments worldwide and taking a comparative approach considers which tools are more or less common how oversight capacity can be estimated how oversight capacity is related to other institutional and constitutional factors and above all what ensures that oversight tools are used effectively This analysis reveals that while the quality of democracy and good governance benefit from effective oversight oversight effectiveness cannot be reduced to oversight capacity The book urges policy makers and reformers to change their approach from strengthening capacity to securing that the capacity is put to good use Parliamentary Oversight Tools will be of interest to students scholars and practitioners of legislative politics and governance
