the dynamics of leadership and management as well as a variety of other characteristics needed in a Head of Reference. It recognizes the increasing need for visionary leaders who can deal with shrinking budgets, soaring costs, expensive electronic resources, and high user expectations and provides you with practical advice on finding training and keeping these individuals. In addition to the training and recruitment techniques documented in this book, you will find extensive information on setting and achieving goals, creating and maintaining a positive work environment, how to deliver quality services, how to improve job satisfaction for library staff, problem solving strategies, the importance of communication, making your reference department task and employee centered, *Managing the Twenty First Century Reference Department: Challenges and Prospects*, also provides an inside look at Oregon State University's Valley Library's new management model. The library's information professionals detail this new model's current function, potential hazards, and multiple advantages. The user-friendly information documented in this chapter and in the book as a whole makes *Managing the Twenty First Century Reference Department: Challenges and Prospects* an essential read for any librarian or student of library studies looking to meet the demands of an increasingly technical field. *New Technologies and Reference Services* William A. Katz, 2000. This comprehensive volume recounts the ways reference librarians have adapted traditional services to deal with the changes in both information technologies and library patrons. *New Technologies and Reference Services* shows how to provide needed services using videoconferencing, interactive classrooms, drop-in seminars, and required courses. It also discusses the other implications of new technologies, including developing trends in publishing, copyright issues, collection strategies, and decentralizing library reference services. **Evolution in Reference and Information Services** Linda S. Katz, 2013-05-13. Explore ways to bring and keep your library's electronic services up to date. From editor Di Su: Some years ago if you were told that a library's catalog would be available on a 24/7/365 basis, you'd think it was just another fiction. Perhaps as influential as Johannes Gutenberg's invention of movable type printing, the Internet is one of the most significant happenings in the information world in modern times. In addition to showing you how library services have been influenced and enhanced by the advent of the Internet, *Evolution in Reference and Information Services: The Impact of the Internet* will enable you to make the most of the new opportunities that current technologies offer. This valuable book will also help you and your library avoid the pitfalls and new challenges to professional competency that come along with electronic research. *Evolution in Reference and Information Services* gives you a review of the history of electronic reference, looks at the increasing role of librarians as teachers and providers of technical help for users, provides case studies, and ways to evaluate electronic research methods, suggests strategies for providing effective electronic services, examines government Web sites, explores Internet sources of health information, shows you how to establish electronic services through your library's portal site, looks at how to manage a library computer lab, and much more. *Distance Learning* Hemalata Iyer, 2012-10-12. The demand for and technology needed to create effective distance learning programs are increasing at a breakneck pace. Is your
