Douglas D. Evanoff, George G. Kaufman, A. G. Malliaris, 2012-02-08 This volume critically re-examines the profession's understanding of asset bubbles in light of the global financial crisis of 2007-09. It is well known that bubbles have occurred in the past with the October 1929 crash as the most demonstrative example. However, the remarkably well-behaved performance of the US economy from 1945 to 2006 and in particular during the Great Moderation period of 1984 to 2006 assured the economics profession and monetary policymakers that asset bubbles could be effectively managed with little or no real economic impact. The recent financial crisis has now triggered a debate about the emergence of a sequence of repeated bubbles in the Nasdaq market, housing market, credit market, and commodity markets. The realities of the crisis have intensified theoretical modeling, empirical methodologies, and debate on policy issues surrounding asset price bubbles and their potentially adverse economic impact if poorly managed. Taking a novel approach, the editors of this book present five classic papers that represent accepted thinking about asset bubbles prior to the financial crisis. They also include original papers challenging orthodox thinking and presenting new insights. A summary essay highlights the lessons learned and experiences gained since the crisis.

Малый бизнес в России, 1998 **The Growth of Firms in Less-Developed Countries**

Fadil Sahiti, 2019-03-16 This book contributes to the microeconomics of growth among SMEs in less developed countries. It begins with an overview of the Kosovo economy and takes the case of Kosovo to explore the dynamics and determinants of firm growth. The author does this by exploring dynamics of firms' creation, survival, and exit; organisational capabilities of firms; and looks at how external environmental factors affect firms' growth. The author pays special attention to innovation capabilities. This study makes a major contribution to European Studies by dealing for the first time with economic development in Kosovo. This book will be of relevance to development specialists including policy makers, researchers, consultants, students, and field staff of donor organisations active in Kosovo, the wider Balkan region, and other low-income countries. It will also be of value to policy makers working in fields of economic development, entrepreneurship, industrial policy, and innovation policy, and European and EU studies.

Competition and Corporate Governance in Korea Sung-Hee Jwa, In Kwon Lee, 2004-01-01 This informative book will appeal to academics and researchers of industrial organization, economics, and corporate reform, as well as those involved in Asian studies.
