New Russians Updated To Include The Failed Coup:

The Spiral of "Anti-Other Rhetoric" Elisabeth Le, 2006-08-22 How do media inform our representations of the Other and how does this influence intercultural international relations While officially dialogues between different national societies are conducted by diplomats in bilateral and multilateral settings in practice journalists also participate every day in such dialogues through the phenomenon of the international media echo in which they report on each others societies Until now media have only been investigated for their potential role in the foreign policy of specific states In a case study involving media in three national cultures and languages French American and Russian this book presents an interdisciplinary framework that combines quantitative and qualitative analyses for the study of the international media echo in an intercultural international relations perspective In particular the fundamental functioning of spirals of anti Other rhetoric in media wars is examined in a Critical Discourse Analysis approach completed with Social Identity Theory and International Relations theories Slavic Review ,1992 *Library of Congress Subject Headings* Library of Congress, Library of Congress. Subject Cataloging Division, Library of Congress. Office for Subject Cataloging Policy, 2013 *Russian Pluralism* U. Ra'anan, K. Armes, K. Martin, 2016-04-30 The dissolution of the U S S R marked also the end of the communist system However its replacement by a working democracy is not assured First a civil society built upon a pluralistic infrastructure has to be established This requires the achievement of a law based state pluralism in the political media an unshackled media and freedom of religion The distinguished experts in these fields brought together in this book question whether such an infrastructure is firm enough as yet to preclude reversion to an authoritarian system Current events in Russia form an experiment of incalculable importance to the future of the international system *Russian Pluralism Now Irreversible* offers a lucid stimulating assessment of the experiment's chances for success *Russia* Yegor Gaidar, 2012-11-02 An important Russian economist and politician takes a long view of economic history and Russia's development It is not so easy to take the long view of socioeconomic history when you are participating in a revolution For that reason Russian economist Yegor Gaidar put aside an early version of this work to take up a series of government positions as Minister of Finance and as Boris Yeltsin's acting Prime Minister in the early 1990s In government Gaidar shepherded Russia through its transition to a market economy after years of socialism Once out of government Gaidar turned again to his consideration of Russia's economic history and long term economic and political challenges This book revised and updated shortly before his death in 2009 is the result Gaidar's account of long term socioeconomic trends puts his country in historical context and outlines problems faced by Russia and other developing economies that more developed countries have already encountered aging population migration evolution of the system of social protection changes in the armed forces and balancing stability and flexibility in democratic institutions This is not a memoir but Gaidar points out neither is it written from the position of a man who spent his entire life in a research institute Gaidar's long view is inevitably informed and enriched by his experience in government
