New Spring in China? Leslie T. Lyall, 1979-01-01      Handbook on Religion in China Stephan Feuchtwang, 2020-02-28

Informative and eye opening the Handbook on Religion in China provides a uniquely broad insight into the contemporary Chinese variations of Buddhism Islam and Christianity In turn China s own religions and transmissions of rites and systems of divination have spread beyond China a progression that is explored in detail across 19 chapters written by leading experts in the field      Christianity in America G. Wright Doyle, 2013-07-17 Was America founded as a Christian nation What role has the Christian faith of many of its leaders played in the course of its history How has Christianity affected American culture and society This trenchant critique of the role of Christianity in American history highlights both the ways in which Christians have made many valuable contributions as salt and light and how they have caused a great deal of damage by trying to be savior and lord Believers in Christ have built one of the most Christianized countries in the world with benefits for millions They have also nurtured messianic aspirations that have spawned disasters for themselves and other countries Generous in praise for dedicated believers who have reflected the character of Christ the book is also unsparing in criticism of Christians who have sometimes with the best intentions failed to act wisely In short the reader will be encouraged by the many triumphs of Christianity in America and sobered by its tragedy      World Christian Encyclopedia David B. Barrett, George Thomas Kurian, Todd M. Johnson, 2001 The expanded updated edition of a classic reference source the comprehensive survey of the status of thje world s largest religion in 238 countries Many tables charts diagrams maps photographs and a rich text present a unmatched look at 33 800 Christian denominations 12 000 dioceses 5 000 missions and other groups all set against a detailed historical political social cultural demographic background      **Commonwealth Journal** , 1979      Seeking the Common Ground Philip L. Wickeri, 2011-08-05 This is the most comprehensive treatment ever written of the history of the Protestant Church in China over the last forty years Philip Wickeri takes an unprecedented look at one of the most turbulent periods in Chinese history the years from 1949 to the present Wickeri explicates what Chinese Protestants have been saying about themselves in historical and theological perspective His interpretation is based on one particular dynamic how Chinese Protestants have sought to situate themselves in a socialist society within the unifying framework of the united front After an overview of church Marxism and Christianity in China Wickeri discusses the united front He focuses on ideology organization and religious policy Wickeri then explores the Three Self Movement as both a Chinese and a Christian movement His conclusion the Three Self Movement despite problems has made Christianity more accessible to the average Chinese and the church more acceptable to Chinese society      The British Library General Catalogue of Printed Books 1976 to 1982 British Library, 1983      **Christian Women and Modern China** Li Ma, 2021-01-28 Christian Women and Modern China presents a social history of women pioneers in Chinese Protestantism from the 1880s to the 2010s The author interrupts a hegemonic framework of historical narratives by exploring formal institutions and rules as well as social networks and social norms that

shape the lived experiences of women This book achieves a more nuanced understanding about the interplays of Christianity gender power and modern Chinese history It reintroduces Chinese Christian women pioneers not only to women s history and the history of Chinese Christianity but also to the history of global Christian mission and the global history of many modern professions such as medicine education literature music charity journalism and literature *China Notes* ,1975
