New Testament And Early Christianity:

The Beginnings of Christianity Howard Clark Kee, 2005-11-22 To understand the historical beginnings of Christianity requires one not only to examine the documents that the movement produced but also to scrutinize other evidence historical literary and archaeological that can illumine the socio cultural context in which Christianity began and how it responded to the influences that derived from that setting This involves not only analysis of the readily accessible content of the relevant literary evidence but also attention to the world views and assumptions about reality that are inherent in these documents and other phenomena that have survived from this period Attention to the roles of leadership and the modes of formation of social identity in Judaism and the continuing influence of these developments as Christianity began to take shape is important for historical analysis Distinguished New Testament scholar Kee performs such readings of the texts and communities in this dazzling study of early Christian origins In methodological terms the historical study of Christian Origins in all its diversity must involve three different modes of analysis 1 epistemological 2 sociological and 3 eschatological The first concerns the way in which knowledge and communication of it were perceived The second seeks to discern the way in which the community or tradition preserving and conveying this information defined its group identity and its shared values and aims The third focuses on the way in which the group understood and affirmed its ultimate destiny and that of its members in the purpose of God These factors are interrelated and features of one mode of perception strongly influence details of the others but it is useful to consider each of them in its own category in order to discern with greater precision the specific historical features of the spectrum of facets which appear in the evidence that has survived concerning the origins of Christianity *An Introduction to the New Testament* Helmut Köster, 1983 **Studies on the Text of the New**

Testament and Early Christianity Daniel Gurtner, Juan Hernández, Jr., Paul Foster, 2015-09-29 The collection of essays focuses on the twin areas of research undertaken by Prof Michael W Holmes These are the sub disciplines of textual criticism and the study of the Apostolic Fathers The first part of the volume on textual criticism focuses on issues of method the praxis of editing and collating texts and discussions pertaining to individual variants The second part of the volume assembles essays on the Apostolic Fathers There is a particular focus on the person and writings of Polycarp since this is the area of research where Prof Holmes has worked most intensively *Prophecy and Hermeneutic in Early Christianity* E. Earle Ellis, 2003-06-12 *Prophecy and Hermeneutic in Early Christianity* was written with the conviction that the New Testament presents to its readers not merely the opinions of Christian writers but also the message of God mediated through faithful prophets These prophets initiated and interpreted the first proclamation of the Christian faith a proclamation that continues to enlighten and to guide the church for it provides a key to the church s history and theology The prophets in this study are the pneumatics those early Christians who are characterized by spiritual gifts of inspired speech and discernment who are coworkers of Paul engaged in preaching and teaching While some were perverting their gifts and thereby causing strife in

the church Paul's companions had an active role in its missionary enterprise Dr Ellis examines the dispute between the two parties which threatened to destroy the unity and faith of the church The pneumatists were involved in the formulation of a Christian theology of the Old Testament through their exposition and application of Scripture Dr Ellis describes and elaborates upon the interpretative principles which they used He concludes with a critique of the older form criticism of the gospels and suggests some new directions for understanding the history of the transmission of the teaching of Jesus

New Testament Christianity in the Roman World Harry O. Maier, 2018-09-27 What did it mean to be a Christian in the Roman Empire In one of the inaugural titles of Oxford's new Essentials in Biblical Studies series Harry O Maier considers the multilayered social contexts that shaped the authors and audiences of the New Testament Beginning with the cosmos and the gods Maier presents concentric realms of influence on the new religious movement of Christ followers The next is that of the empire itself and the sway the cult of the emperor held over believers of a single deity Within the empire early Christianity developed mostly in cities the shape of which often influenced the form of belief The family stood as the social unit in which daily expression of belief was most clearly on view and finally Maier examines the role of personal and individual adherence to the religion in the shaping of the Christian experience in the Roman world In all of these various realms concepts of sacrifice belief patronage poverty Jewishness integration into city life and the social constitution of identity are explored as important facets of early Christianity as a lived religion Maier encourages readers to think of early Christianity not simply as an abstract and disconnected set of beliefs and practices but as made up of a host of social interactions and pluralisms Religion thus ceases to exist as a single identity and acts instead as a sphere in which myriad identities co exist
