responding to biblical texts the less likely they are to build identity around negative stereotypes which may be perpetuated by commentaries or glosses We know from commentaries such as *A Reply to a Pamphlet Entitled Bondage a Moral Institution Sanctioned by the Scriptures And the Savior* we know that from the ancient commentary the Talmud written before the common era B C E that slavery for one particular race has never been prescribed and from a peer reviewed article in the *Journal of Negro Education* that black slaves were often allowed to read the Bible but were told what to teach from and their sermons usually revolved around keeping the slaves meek This is now considered treachery in the African American community The negative implications of biblical commentaries have been explored but what we do not know is how or if African Americans managed to build positive identity traits through the use of commentaries and glosses A historical chronological approach is used to the thesis so the reader can see the progression of African American identity and analysis of biblical commentaries
