Ehrman, 2005 This thoroughly revised edition of Bruce M Metzger's classic work is the most up to date manual available for the textual criticism of the New Testament The Text of the New Testament Fourth Edition has been invigorated by the addition of Bart D Ehrman author of numerous best selling books on the New Testament as a coauthor This revision brings the discussion of such important matters as the early Greek manuscripts and methods of textual criticism up to date integrating recent research findings and approaches into the body of the text as opposed to previous revisions which compiled new material and notes into appendices The authors also examine new areas of interest including the use of computers in the collection and evaluation of manuscript evidence and the effects that social and ideological influences had upon the work of scribes The standard text for courses in biblical studies and the history of Christianity since its first publication in 1964 The Text of the New Testament is poised to become a definitive resource for a whole new generation of students      **A Handbook to the Exegesis of the New Testament** Stanley E. Porter, 1997 This handbook provides a substantial theoretical and practical guide to the multi faceted discipline of exegesis of the New Testament It offers succinct and well informed essays with plenty of bibliography written by experts in their respective fields The handbook will serve well as a textbook as well as a reference book to the major tools and topics in the area This publication has also been published in paperback please click here for details      **The Text of the New Testament** Bruce Manning Metzger, 1992 For more than twenty five years the standard account of the compilation and transmission of the New Testament this text offers a comprehensive survey of ancient and newly discovered manuscripts and considers both the science and art of textual criticism as applied to the interpretation of manuscripts Containing references to more than 150 additional books and articles dealing with Greek manuscripts early versions and critical studies of witnesses to the text of the New Testament it covers a variety of textual problems and provides an objective account of the several schools of textual methodology The third edition describes advances in textual criticism of the New Testament since 1964 The Text of the New Testament 3 e remains a definitive resource for courses in biblical studies and the history of Christianity      *New Testament Textual Criticism for the 21st Century* Charles L. Quarles, 2025-05-20 A guide to New Testament textual criticism that introduces students to the methods currently used by the most respected specialists in the field While there are many introductions to twentieth century New Testament textual criticism scholars and students need a twenty first century introduction to the praxis of New Testament textual criticism that refines and replaces some elements of the traditional approach in keeping with recent advancements in the discipline Methodologies known to be deficient are still being taught and even New Testament commentators apply outdated and problematic methods in their evaluation of textual variants This new introduction guides readers in the practice of a more refined reasoned eclecticism to identify the original reading of the New Testament text

Readers will learn to identify variant readings and the witnesses in support of them from the apparatuses in the major editions of the Greek New Testament. New Testament Textual Criticism for the 21st Century includes several examples and exercises that guide students in applying critical thinking skills to specific variant units. The goal throughout is to move from abstract discussion to concrete examples to offer students the picture worth a thousand words. Most importantly, the book demonstrates how new tools and findings generally discussed only in scholarly literature are changing the text of the most respected editions of the Greek New Testament and can aid researchers in their study of manuscripts.

**Changing the Goalpost of New Testament Textual Criticism** Abidan Paul Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a

misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice
