Contemporary Varieties of Religious Experience Lynn Bridgers, 2005 First published in 1902 William James's *Varieties of Religious Experience* is considered a classic in religious studies and the psychology of religion But how has James's classic study weathered decades of development in psychology

and behavioral sciences Do the assertions about religious experience in the Varieties still ring true in light of neuro cognitive and neuro hormonal research resiliency studies studies of temperament and traumatic studies By extending William James s own research throughout the century since its publication this volume seeks to answer those questions In doing so it revolutionizes our understanding of James s own view of psychology and reveals the extraordinary value of James s perspective for religion psychology and spirituality today In doing so it offers vital insights for pastoral care and faith development at both the individual and congregational level From the Introduction by James Fowler Drawing on the authenticity of her own experience Bridgers carries us into a remarkably clear and well documented account that traces William James s evolution as a psychologist philosopher and a deeply engaged inquirer into the dynamics of spiritual development and transformation This book has a major contribution to make Bridgers s study illumines the horizons of contemporary research in the study of religious experience in all its varieties and in the context of globalization The Dawning of the Golden Age of Aquarius Albert Amao Ph. D.,2012 We are at the threshold of a transitional period from the Age of Pisces to the Age of Aquarius What should we expect from this coming New Era What are its signs What is the fate of human spirituality What will the new concepts of God and of religion be This book attempts to answer these questions based on well researched sources complemented and endorsed by cosmology archeology psychology religion Near East studies and mythology among other scientific disciplines The book also intends to clarify the confusion created by some Protestant religious leaders and sensationalistic writers who have misinterpreted the signs of the transitional period as the end of the world The truth is that we are witnessing a shift of ages that is the slow evolution from the Piscean Era to the commencing of a new worldwide social order a new chapter in human history called the Aquarian dispensation The huge conspiracy propounded by false prophets and some New Age writers whether overtly or covertly feeds the fear and anxiety of ordinary people with unfounded apocalyptic propaganda This book attempts to give the reader an accurate perspective regarding the planetary transformations that are taking place it offers hope and inspiration as we approach the Golden Age **Awaken the Power Within** Albert Amao,2018-06-05 The 12 billion self help industry is under constant attack for pedaling false miracles to duped believers But sociologist Albert Amao demonstrates that Americans eagerly support self help books seminars and programs because under the right conditions these things work Sociologist Albert Amao analyzes the accuracy of self help and positive thinking claims in this groundbreaking and wholly unexpected exploration of what works what doesn t and why Regarding my personal experience Amao writes I can testify that positive thinking and positive action have worked wonderfully for me Born in a poor Latin American country into a very impoverished family with both parents practically illiterate I was the oldest of five children I started working when I was six years old shining shoes and selling newspapers to help my family Nobody then would have believed that I would be able to finish high school Nevertheless I was able to do it going to night school which allowed me to be admitted at the San Marcos University in Lima to get my Ph D in sociology All

these things were possible because when I was teenager I had access to New Thought or positive thinking philosophy Contrary to the critics who blithely dismiss self help methods or the New Age gurus who sell it them as miracles Amao writing with sobriety scholarship and drawing on deep personal experience explores the conditions under which self help is authentic

Smith, 2014-10-02 What theologies are popular and formative of Christian thinking in the present day How should they be assessed by those Christians who want to be in the world without being of the world *Theologies of the 21st Century* begins with an overview of the historical roots from which current theological thinking has developed and then moves on to a detailed evaluation of the chief doctrinal and practical emphases taking an evangelical biblical perspective that seeks to be at once both critical and irenic

Importing Faith Glyn J. Ackerley, 2016-07-28 Many twenty first century evangelical charismatics in Britain are looking for a faith that works They want to experience the miraculous in terms of healings and Godsent financial provision Many have left the mainstream churches to join independent charismatic churches led by those who are perceived to have special insights and to teach principles that will help believers experience the miraculous But all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith This study discovers the origin of the principles that are taught by some charismatic leaders Glyn Ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the United States The origins of the ideas are traced back to New Thought

metaphysics and its background philosophies of subjective idealism and pragmatism These principles were imported into the UK through contact between British leaders and those influenced by American word of faith teachers Glyn Ackerley explains the persuasiveness of such teachers by examining case studies suggesting their miracles may well have social and psychological explanations rather than divine origins

A Solution to a Pointless Life Albert Amao Soria Ph.D., 2023-04-20

This book empowers the reader to awaken his inner power by providing psychological and metaphysical tools for improving their life Humans should undertake the power dwelling in them and become active co creators of their personal and social environment The book is a necessary component in a materialistic post modern consumeristic society It focuses on removing the self loathing ideas imposed by religious organizations and mass media Moreover it offers a plausible and coherent theory that answers the old honored predicament of finding the true purpose of human existence Blending ideas from philosophers with the popular wisdom of native folklore Occidental and Oriental sacred scriptures sociology metaphysics philosophy existentialism and modern quantum physics this book reveals that humans should actively participate in the awakening of their consciousness Having no purpose in life can lead people to a deep psychological depression called existential anxiety Thus ignoring the role of man s importance in the drama of the universe the lack of a myth or meaning could be tragic and detrimental Since the dawn of civilization humans have taken for granted or assumed that they had an inherent purpose in life by being born which turned out to be a big fallacy In addition humans have been brainwashed and domesticated by false ideas creating a herd mentality by the ruling elite Under these circumstances how do we humans find authentic meaning in what seems to be a senseless life Modern philosophy has become increasingly abstract and separate from human beings unable to offer positive guidance to ordinary people Finding a purpose in human existence is the primary motivational force for human existence The ultimate purpose of human existence is to become a conscious god
