Recent Advances in Indian Medical Anthropology P.C. Joshi, Chakraverti Mahajan, 2021-01-01 Medical Anthropology is one of the fastest growing sub disciplines of anthropology At a time when traditional medicines and alternative and complementary medicines are creating an important space within the domain of health care medical anthropology with its specialized methodology and holistic perspective is becoming crucial subject In Indian context the creation of separate Ministry of AYUSH and importance given to traditional knowledge in the field of medicines has necessitated that the scattered knowledge located in the remote tribal and isolated rural areas be compiled and consolidated This volume provides multifaceted insights into the current research in Medical Anthropology in India Providing inputs from seasoned as well as budding anthropologists it discusses the issues of disciplinary discourses healing strategies mental health and well being gender and health and health policy in diverse contexts **Multiple Medical Realities** Helle Johannessen, Imre Lazar, 2006 Nowadays a plethora of treatment technologies is available to the consumer each employing a variety of concepts of the body self sickness and healing This volume explores the options strategies and consequences that are both relevant and necessary for patients and practitioners who are manoeuvring this medical plurality Although wideranging in scope and covering areas as diverse as India Ecuador Ghana and Norway central to all contributions is the observation that technologies of healing are founded on socially learned and to some extent fluid experiences of body and self *Perspectives on Complementary and Alternative Medicines* Ian N. Olver, 2012 Would you use complementary and alternative medicines CAMS Well research has shown that up to three quarters of patients with cancer may at least supplement their treatment with such therapies spending as much on CAMS as conventional drugs How do you decide This book provides a full range of perspectives on CAMS from patients and CAMS practitioners to conventional doctors who oppose the use of these alternative treatments because of the lack of evidence of efficacy and safety Then there are the CAMS researchers educators and regulators who view CAMS from different perspectives The broad array of opinions build a complete picture of the issues for discerning readers to be adequately informed to make up their minds and draw their own conclusions **Acupuncture** Marcelo

Saad,2011-10-10 Acupuncture and related techniques are useful tools for treating a spectrum of diseases However there are still many areas of controversy surrounding it We hope this book can contribute to guide the advance of this ancient medical art In the present work the reader will find texts written by authors from different parts of the world The chapters cover strategic areas to collaborate with the consolidation of the knowledge in acupuncture The book doesn t intend to solve all the questions regarding this issue but the main objective is to share elements to make acupuncture more and better understood at health systems worldwide *Complementary and Alternative Medicine* Caragh Brosnan,Pia Vuolanto,Jenny-Ann Brodin

Danell,2018-03-26 This book examines how complementary and alternative medicine CAM as knowledge philosophy and practice is constituted by and transformed through broader social developments Shifting the sociological focus away from CAM as a stable entity that elicits perceptions and experiences chapters explore the forms that CAM takes in different settings how global social transformations elicit varieties of CAM and how CAM philosophies and practices are co produced in the context of social change Through engagement with frameworks from Science and Technology Studies STS CAM is reconceptualised as a set of practices and knowledge making processes and opened up to new forms of analysis Part 1 of the book explores how and why boundaries within CAM and between CAM and other health practices are being constructed challenged and changed Part 2 asks how CAM as material practice is shaped by politics and regulation in a range of national settings Part 3 examines how evidence is being produced and used in CAM research and practice Including studies of CAM in Eastern and Western Europe Asia and North and South America the volume will appeal to postgraduate students researchers and health practitioners *Ethnomedicinal Matrix* Pulucheru Vishnu Dev, While examining the relationship between health

culture and medicine in post colonial India the dominant perspective in sociological and anthropological literature conceptualizes medicine and culture as autonomous domains and views the relationship between the two in oppositional terms where culture lay persons beliefs and practices is seen largely as impeding the progress of biomedicine allopathic modern medicine In this conceptual scheme all medical knowledge systems other than biomedicine is denied any valid medical status clubbed as culture devoid of any cognitive content and is seen as coterminous with religion and superstition This perspective largely ignores the ground reality of the existence of ethno medicine among Tribal communities Tribal contributed tremendously to the development of indigenous medical systems in India However their contributions have not been documented and studied properly This book makes a modest attempt to bridge this gap and offers a platform for debate and discussion towards safeguarding and development of Tribal medicine in India **The Power of the Media in Health**

Communication Valentina Marinescu,Bianca Mitu,2016-04-20 Health is a contested concept that has been defined in numerous ways The media is extremely powerful in promoting health beliefs and in creating role models for contemporary people The ways in which health is defined or understood can have wide ranging implications and can have an impact on issues such as health promotion or health literacy Health presentation in the media has a significant social impact because

this type of message is important in changing people's beliefs attitudes and behaviours relating to health and in promoting health related knowledge among the target audience The present volume provides an interdisciplinary and multicultural contemporary approach to the controversial link between medicine and media The authors that have contributed to this volume analyse the media and medicine from different perspectives and different countries USA UK Portugal Turkey Taiwan Mexico Estonia Romania thus offering a re positioning of the study of media and medicine The new perspectives offered by this volume will be of interest to any health communication or media studies student or academic since they bring to light new ideas new methodologies and new results

Rethinking professional governance Kuhlmann, Ellen, Saks, Mike, 2008-04-09 This original and innovative book opens up new perspectives in health policy debate examining the emerging international trends in the governance of health professions and the significance of national contexts for the changing health workforce In bringing together research from a wide range of continental European countries as well as the United Kingdom Canada and Australia the contributors highlight different arenas of governance as well as the various players involved in the policy process They expand the public debate on professional governance hitherto mainly limited to medical self regulation to encompass a broad span of health care providers from nurses and midwives to alternative therapists and health support workers The book provides new data and geopolitical perspectives in the debate over how to govern health care It helps to better understand both the enabling conditions for and the barriers to making professionals more accountable to the interests of a changing public This book will be a valuable resource for students at an undergraduate and postgraduate level particularly for health programmes sociology of professions and comparative health policy but also for academics researchers and managers working in health care
