**The City: The city in global context** Michael Pacione,2002      *Capital City* Samuel Stein,2019-03-05 This superbly succinct and incisive book on urban planning and real estate argues gentrification isn't driven by latte sipping hipsters but is engineered by the capitalist state Michael Sorkin author of *All Over the Map* Our cities are changing Around the world more and more money is being invested in buildings and land Real estate is now a 217 trillion dollar industry worth thirty six times the value of all the gold ever mined It forms sixty percent of global assets and one of the most powerful people in the world the former president of the United States made his name as a landlord and developer Samuel Stein shows that this explosive transformation of urban life and politics has been driven not only by the tastes of wealthy newcomers but by the state driven process of urban planning Planning agencies provide a unique window into the ways the state uses and is used by capital and the means by which urban renovations are translated into rising real estate values and rising rents *Capital City* explains the role of planners in the real estate state as well as the remarkable power of planning to reclaim urban life

*Gentrification Is Inevitable and Other Lies* Leslie Kern,2022-09-06 From the author of the best selling *Feminist City* this urbanite's guide to gentrification knocks down the myths and exposes the forces behind the most urgent housing crisis of our time Gentrification is no longer a phenomenon to be debated by geographers or downplayed by urban planners it's an experience lived and felt by working class people everywhere Leslie Kern travels to Toronto Vancouver New York London and Paris to look beyond the familiar and false stories we tell ourselves about class money and taste What she brings back is an accessible radical guide on the often invisible forces that shape urban neighbourhoods settler colonialism racism sexism ageism ableism and more Gentrification is not inevitable if city lovers work together to turn the tide Kern examines resistance strategies from around the world and calls for everyday actions that

empower everyone from displaced peoples to long time settlers We can mobilize demand reparations and rewrite the story from the ground up *Queer Premises* Ben Campkin,2023-06-01 Queer premises provide vital social and cultural infrastructure a queer infrastructure connecting different generations and locations facilitating the movement of resources across and beyond the city Queer Premises offers evidence for how London s diverse LGBTQ populations have embedded themselves into urban space systems and resources It sets out to understand how across their different material dimensions bars caf s nightclubs pubs community centres and hybrids of these typologies have been imagined created and sustained From the 1980s to the present Campkin asks how where and why these venues have been established how they operate and the purposes they serve what challenges they face and why they close down *In Search of Paradise* Li Zhang,2012-08-17 A new revolution in homeownership and living has been sweeping the booming cities of China This time the main actors on the social stage are not peasants migrants or working class proletariats but middle class professionals and entrepreneurs in search of a private paradise in a society now dominated by consumerism No longer seeking happiness and fulfillment through collective sacrifice and socialist ideals they hope to find material comfort and social distinction in newly constructed gated communities This quest for the good life is profoundly transforming the physical and social landscapes of urban China Li Zhang who is from Kunming the capital of Yunnan province turns a keen ethnographic eye on her hometown She combines her analysis of larger political and social issues with fine grained details about the profound spatial cultural and political effects of the shift in the way Chinese urban residents live their lives and think about themselves *In Search of Paradise* is a deeply informed account of how the rise of private homeownership is reconfiguring urban space class subjects gender selfhood and ways of life in the reform era New seemingly individualistic lifestyles mark a dramatic move away from yearning for a social utopia under Maoist socialism Yet the privatization of property and urban living have engendered a simultaneous movement of public engagement among homeowners as they confront the encroaching power of the developers This double movement of privatized living and public sphere activism Zhang finds is a distinctive feature of the cultural politics of the middle classes in contemporary China Theoretically sophisticated and highly accessible Zhang s account will appeal not only to those interested in China but also to anyone interested in spatial politics middle class culture and postsocialist governing in a globalizing world **Artistic Enclaves in the Post-Industrial City** Geoffrey Moss,2017-03-20 This SpringerBriefs presents a case study and theoretical analysis of an artistic enclave that emerged within Lawrenceville Pittsburgh It briefly describes the history of greater Pittsburgh and Lawrenceville s transition from thriving blue collar community to depopulated low income neighborhood to gentrifying site of artistic and creative culture It draws on multiple methods e g interviews observations and survey data to discuss the advantages and disadvantages associated with being a Pittsburgh artist and offer a detailed description of the origins and ongoing development of Lawrenceville s artistic enclave It discusses this enclave in the context of sociological historical and interdisciplinary work on urban artistic communities i e bohemian and quasi

bohemian communities and situates it within the larger urban artistic tradition and within its contemporary urban context It maintains that this enclave constitutes a successful i e sustainable example of an artistic creative class enclave a heuristic concept that clarifies and amends Richard Florida s brief commentary on contemporary urban artistic life It concludes by offering policy suggestions for those who wish to promote such enclaves and a preliminary critical appraisal of their potential impact on society     Children, Youth and the City Kathrin Horschelmann,Lorraine van Blerk,2013-06-17 Contrasts experiences of growing up in the city     *Education Policy, Space and the City* Kalervo N. Gulson,2011-10-14 Drawing on three case studies of K 12 public schooling in London Sydney and Vancouver this book examines the geographies of neoliberal education policy in the inner city Gulson uses an innovative and critical spatial approach to explore how the processes and practices of neoliberal education policy specifically those relating to education markets and school choice enable the pervasiveness of a white middle class re imagining of inner city areas and render race in visible With urbanization posited as one of the central concerns for the future of the planet relationships between the city educational policy and social and educational inequality deserve sustained examination Gulson s book is a rich and needed contribution to these areas of study     The City in American Cinema Johan Andersson,Lawrence Webb,2019-06-27 How has American cinema engaged with the rapid transformation of cities and urban culture since the 1960s And what role have films and film industries played in shaping and mediating the postindustrial city This collection argues that cinema and cities have become increasingly intertwined in the era of neoliberalism urban branding and accelerated gentrification Examining a wide range of films from Hollywood blockbusters to indie cinema it considers the complex evolving relationship between moving image cultures and the spaces policies and politics of US cities from New York Los Angeles and Boston to Detroit Oakland and Baltimore The contributors address questions of narrative genre and style alongside the urban contexts of production exhibition and reception discussing films including *The Friends of Eddie Coyle* 1973 *Cruising* 1980 *Desperately Seeking Susan* 1985 *King of New York* 1990 *Inception* 2010 *Frances Ha* 2012 *Fruitvale Station* 2013 *Only Lovers Left Alive* 2013 and *Doctor Strange* 2016     *Olympic Housing* Penny Bernstock,2016-05-13 One of the distinguishing characteristics of London s bid to host the games was its commitment to legacy where it was argued that the legacy would lead to the regeneration of an entire community for the direct benefit of everyone who lives there This book adopts a critical approach to the concept of legacy focussing specifically on housing It argues there will be a range of both intended and unintended legacy outcomes and an urgent need for revised strategies if those original objectives are to be achieved The concept of legacy is explored in a number of ways including an overview of housing legacy in other host cities the experiences and perspectives of those residents decanted to make way for the Olympic Park a critical review of legacy plans a detailed analysis of the conversion of the Athletes Village into housing and a case study of the emerging area Stratford High Street which explores issues of social class change and the limitation of planning policies Whilst taking housing as its focus this book adopts a sociological

perspective by exploring the likelihood of social class change in order to draw conclusions about gentrification social polarisation and the extent to which social inclusion is reflected in housing legacies      Gentrification Loretta Lees, Tom Slater, Elvin Wyly, 2013-10-18 This first textbook on the topic of gentrification is written for upper level undergraduates in geography sociology and planning The gentrification of urban areas has accelerated across the globe to become a central engine of urban development and it is a topic that has attracted a great deal of interest in both academia and the popular press Gentrification presents major theoretical ideas and concepts with case studies and summaries of the ideas in the book as well as offering ideas for future research
