**American Diet Revolution!** Josef Arnould, 2018-11-27 A nutrition expert examines why Americans have been eating poorly and offers easy money saving ways to eat better healthier more nutritious foods Obesity diabetes dementia and related epidemics plaguing Americans today are primarily the result of deceptive dietary advice that began in the 1950s By following that advice faithfully throughout the last half of the twentieth century most Americans became helpless victims of these diseases Now in American Diet Revolution Dr Josef Arnould reveals how Americans can throw off the chains of that 1950s dietary advice overcome these epidemics and regain the personal freedom of good health He conveys why Americans must

eliminate the fattening inflaming toxic industrial foodstuffs that have dominated their diets for decades and how they can easily do so Additionally American Diet Revolution shares simple and economical strategies to purchase and prepare nutritious foods to replace the toxic ones of the past Then in an empowering finale Dr Arnould takes the genre of dietary advice to a new place and demonstrates that by rejecting the deceitful dietary advice of yesteryear Americans are inciting a second American Revolution In the process of creating new diets and new food economics based upon honest nutritional research Americans are revolting peacefully but powerfully against all individuals and organizations that previously maximized their power and profits by colonizing Americans with toxic information toxic foods and toxic drugs

*Soda Science* Susan Greenhalgh, 2024-08-21 Takes readers deep inside the secret world of corporate science where powerful companies and allied academic scientists mold research to meet industry needs The 1990s were tough times for the soda industry In the United States obesity rates were exploding Public health critics pointed to sugary soda as a main culprit and advocated for soda taxes that might decrease the consumption of sweetened beverages and threaten the revenues of the giant soda companies Soda Science tells the story of how industry leader Coca Cola mobilized allies in academia to create a soda defense science that would protect profits by advocating exercise not dietary restraint as the priority solution to obesity a view few experts accept Anthropologist and science studies specialist Susan Greenhalgh discovers a hidden world of science making with distinctive organizations social networks knowledge making practices and ethical claims dedicated to creating industry friendly science and keeping it under wraps By tracing the birth maturation death and afterlife of the science they made Greenhalgh shows how corporate science has managed to gain such a hold over our lives Spanning twenty years her investigation takes her from the US where the science was made to China a key market for sugary soda In the US soda science was a critical force in the making of today's society of step counting fitness tracking weight obsessed citizens In China this distorted science has left its mark not just on national obesity policies but on the apparatus for managing chronic disease generally By following the scientists and their ambitious schemes to make the world safe for Coke Greenhalgh offers an account that is more global and yet more human than the story that dominates public understanding today Coke's research isn't fake science Greenhalgh argues it was real science conducted by real and eminent scientists but distorted by its aim Her gripping book raises crucial questions about conflicts of interest in scientific research the funding behind familiar messages about health and the cunning ways giant corporations come to shape our diets lifestyles and health to their own needs

*Grassland: a global resource* D.A. McGilloway, 2023-08-28 The concept of grasslands as a global resource is not new Indeed many recognised authorities have been canvassing for a global approach to understanding managing and exploiting this resource for many years This is the first book that gathers together leading experts from around the world to outline our current understanding of this complex ecosystem the ways in which it can be enhanced and utilised and where the research challenges are for the future The following themes unite the book Efficient production from grassland Grassland and the environment Delivering the benefits from grassland The reader is given an in depth understanding of the biology of the system and how grasslands are crucial for soil stabilisation and water quality Secondly much attention is given to how grasslands offer the possibility of increasing food supply and income generation which is a hugely important but often ignored facet in today's climate of extensification and

biodiversity Current advances in the grassland sciences have a proven potential to promote the economic development and environmental stability of regions nations and peoples particularly in some of the most resource limited areas of the world Approaches for achieving the most effective development and adoption of new technology are reviewed *Dr. Atkins' Vita-nutrient Solution* Robert C. Atkins,1998 A guide to the medical benefits of vitamins and minerals includes a section on medical conditions that can be healed or improved through nutritional therapy **The Evolution Delusion** Kenneth Lawrence,2008-05 DEBUNKING THE EVIDENCE BEHIND THE EVOLUTIONIST WORLDVIEW Throughout the last half of the twentieth century and now into the new millennium the public has been fed a steady diet of anti Biblical propaganda by an increasingly determined cadre of evolutionist scientists educators and media outlets The result of this concerted effort has been a shifting of public consciousness away from Biblical truth and into a new paradigm in which belief in some form of Darwinian evolution has become a Litmus test of acceptability in our society But is this paradigm shift founded on legitimate scientific evidence The answer to this question is a resounding NO Over the last several decades scientists in widely varied disciplines have refuted much of the evidence behind today s various competing evolution theories The time has finally come to expose evolution for what it is delusion Kenneth Lawrence was born in British Columbia Canada where he currently resides He has had an intense interest in science most of his life A believer in Darwinian evolution for many years Ken became a Christian at the age of twenty three but had difficulty accepting a straightforward reading of the Bible s account of origins for many years In his late forties Ken began to seriously investigate the scientific claims of evolution theory Nearly a decade of personal research has resulted in an invigorated faith in the God of the Bible and in the writing of this book
