television news Marvin Kalb the award winning journalist who has written extensively about the world he reported on during his long career now turns his eye on the young man who became that journalist Chosen by legendary broadcaster Edward R Murrow to become one of what came to be known as the Murrow Boys Kalb in this newest volume of his memoirs takes readers back to his first days as a journalist and what also were the first days of broadcast news Kalb captures the excitement of being present at the creation of a whole new way of bringing news immediately to the public And what news Cold War tensions were high between Eisenhower s America and Khrushchev s Soviet Union Kalb is at the center occupying a unique spot as a student of Russia tasked with explaining Moscow to Washington and the American public He joins a cast of legendary figures along the way from Murrow himself to Eric Severeid Howard K Smith Richard Hottelet Charles Kuralt and Daniel Schorr among many others He finds himself assigned as Moscow correspondent of CBS News just as the U2 incident the downing of a US spy plane over Russian territory is unfolding As readers of his first volume *The Year I Was Peter the Great* will recall being the right person in the right place at the right time found Kalb face to face with Khrushchev

Assignment Russia sees Kalb once again an eyewitness to history and a writer and analyst who has helped shape the first draft of that history *Alexander Medvedkin* Emma Widdis,2004-11-26 This first introduction to Medvedkin s film making career traces his process of developing a unique brand of cinematic satire throughout the period of the Soviet revolutionary experiment Using original archival material and Medvedkin s writings towards his unfinished autobiography Widdis explores his films from the 1936 *The Miracle Worker* through the unreleased *New Moscow* of 1938 and the experimental film train or kinopoezd up to the rediscovery of his 1934 film *Happiness* in the 1960s **Soviet Military Power , Late Stalinist Russia** Juliane Fürst,2006-09-27 The late Stalinist period long neglected by researchers more interested in the high profile events of the 1930s has recently become the focus of much new research by people keen to understand the enormous impact of the war on Soviet society and to understand Soviet life under mature socialism Written by top scholars from high profile universities this impressive work brings together much new cutting edge research on a wide range of aspects of late Stalinist society Filling a gap in the literature it focuses above all on the experience of the Soviet people and their interaction with ideology state policy and national and international politics **Green Wedge Urbanism** Fabiano Lemes de Oliveira,2017-02-23 As towns and cities worldwide deal with fast increasing land pressures while also trying to promote more sustainable connected communities the creation of green spaces within urban areas is receiving greater attention than ever before At the same time the value of the green belt as the most prominent model of green space planning is being widely questioned and an array of alternative models are being proposed This book explores one of those alternative models the green wedge showing how this offers a successful model for integrating urban development and nature in existing and new towns and cities around the world Green wedges considered here as ducts of green space running from the countryside into the centre of a city or town are not only making a comeback in urban planning but they have a deeper history in the

twentieth century than many expect a history that provides valuable insight and lessons in the employment of networked green spaces in city design and regional planning today Part history and part contemporary argument this book first examines the emergence and global diffusion of the green wedge in town planning in the late 19th and early 20th centuries placing it in the broader historic context of debates and ideas for urban planning with nature before going on to explore its use in contemporary urban practice Examining their relation to green infrastructures landscape ecology and landscape urbanism and their potential for sustainable cities it highlights the continued relevance of a historic idea in an era of rapid climate change

Russia Richard Anderson,2015-11-15 This book offers a comprehensive account of Russia s architectural production from the late nineteenth century to the present explaining how its architecture was both shaped by and came to embody Russia s rapid cultural economic and social revolutions over the past century Richard Anderson looks at Russia s complex relationship to global architectural culture exploring the country s central presence in the Rationalism and Constructivism movements of the 1920s as well as its role as a key protagonist during the Cold War Looking deeply at Soviet Russia he brings the relationship between architecture and socialism into focus through detailed case studies that situate buildings and architectural concepts within the socialist milieu of Soviet society He tracks the way Russian architectural institutions departed from the course of modernism being developed in capitalist countries and he reappraises the architecture of the Stalin era and the final decades of the USSR Finally he traces the influence of Soviet conventions on contemporary Russian architecture which is now a more heterogeneous mix of approaches and styles and how it made a lasting and little known impact on territories extending from the Middle East to Central Asia and into China A bold new assessment of Russia s architectural legacy and contemporary contributions this book is a fascinating exploration of a tumultuous place and the creativity that has come from it

Transport Systems of Russian Cities

as policy makers and those working in the field of urban and transport planning **Contemporary Russian Cinema** Vlad Strukov, 2016-04-12 Analysing films by established directors such as Sokurov and Zeldovich as well as lesser known filmmakers like Balabanov and Kalatozishvili this book explores the particular style of film presentation that has emerged in Russia since 2000 characterised by its use of highly abstract concepts and visual language Celebrity and Glamour in Contemporary Russia Helena Goscilo, Vlad Strukov, 2010-10-04 This is the first book to explore the phenomenon of glamour and celebrity in contemporary Russian culture ranging across media forms disciplinary boundaries and modes of inquiry with particular emphasis on the media personality Considering both general tendencies and individual celebrities it examines the internal dynamics of the institutions involved in the production marketing and maintenance of celebrities and the context and imperatives which drive Russian society's fascination with glamour and celebrity In the Studio Brian R. Jacobson, 2020-07-21 Studios are at once material environments and symbolic forms sites of artistic creation and physical labor and nodes in networks of resource circulation They are architectural places that generate virtual spaces worlds built to build worlds Yet despite being icons of corporate identity studios have faded into the background of critical discourse and into the margins of film and media history In response In the Studio demonstrates that when we foreground these worlds we gain new insights into moving image culture and the dynamics that quietly mark the worlds on our screens Spanning the twentieth century and moving globally this unique collection tells new stories about studio icons Pinewood Cinecitt Churubusco and CBS as well as about the experimental workplaces of filmmakers and artists from Aleksandr Medvedkin to Charles and Ray Eames and Hollis Frampton **Official Register** United States Civil Service Commission, 1881
