Robinson, 2015-03-31 Essays that highlight the published in one volume pervasive role of Romantic poetry and poetics on modern and contemporary innovative poetry Romantic Poetry Karl Kroeber, Gene W. Ruoff, 1993 This anthology fills the need for a comprehensive up to date collection of the most important contemporary writings on the English romantic poets During the 1980s many theoretical innovations in literary study swept academic criticism Many of these approaches from deconstructive new historicist and feminist perspectives used romantic texts as primary examples and altered radically the ways in which we read Other major changes have occurred in textual studies dramatically transforming the works of these poets The world of English romantic poetry has certainly changed and Romantic Poetry keeps pace with those changes Karl Kroeber and Gene W Ruoff have organized the book by poet Blake Wordsworth Coleridge Byron Shelly and Keats and have included essays representative of key critical approaches to each poet s work In addition to their excellent general introduction the editors have provided brief helpful forewords to each essay showing how it reflects current approaches to its subject The book also has an extensive bibliography sure to serve as an important research aid Students on all levels will find this book invaluable Teaching Romanticism D. Higgins, S. Ruston, 2010-01-13 Romanticism is taught at universities across the globe and is considered integral to the study of British and European literature This book written by leading academics presents innovative practical approaches to teaching traditional and newer aspects of the curriculum and is essential to anyone teaching Romanticism at university level The Romantic Rhetoric of Accumulation Lenora Hanson, 2022-11-22 The Romantic Rhetoric of Accumulation provides an account of the long arc of dispossession from the British Romantic period to today Lenora Hanson glimpses histories of subsistence such as reproductive labor vagrancy and criminality and unwaged labor as figural ways of living that are superfluous simultaneously more than enough to live and less than what is necessary for capitalism Hanson treats rhetorical language as an archive of capital s accumulation through dispossession in works by S T Coleridge Edmund Burke Mary Robinson William Wordsworth Benjamin Moseley Joseph Priestley and Alexander von Humboldt as well as in contemporary film and critical theory Reading riots through apostrophe enclosure through anachronism superstition and witchcraft through tautology and the paradoxical coincidence of subsistence living with industrialization Hanson shows the figural to be a

material record of the survival of non capitalist forms of life within capitalism But this survival is not always already resistant to capitalism nor are the origins of capital accumulation confined to the Romantic past Hanson reveals rhetorical figure as entwined in deeply ambivalent ways with the circuitous ongoing process of dispossession Reading both historically and rhetorically Hanson argues that rhetorical language records histories of dispossession and the racialized gendered distribution of the labor of subsistence Romanticism they show is more contemporary than ever Romantic Poetry Charles Mahoney, 2010-12-21 Through a series of 34 essays by leading and emerging scholars A Companion to Romantic Poetry reveals the rich diversity of Romantic poetry and shows why it continues to hold such a vital and indispensable place in the history of English literature Breaking free from the boundaries of the traditionally studied authors the collection takes a revitalized approach to the field and brings together some of the most exciting work being done at the present time Emphasizes poetic form and technique rather than a biographical approach Features essays on production and distribution and the different schools and movements of Romantic Poetry Introduces contemporary contexts and perspectives as well as the issues and debates that continue to drive scholarship in the field Presents the most comprehensive and compelling collection of essays on British Romantic poetry currently available Louis Markos, 2013-05-17 For thousands of years philosophers theologians and poets have tried to pierce through the veil of death to gaze with wonder fear and awe on the final and eternal state of the soul Indeed the four great epic poets of the Western tradition Homer Virgil Dante and Milton structured their epics in part around a descent into the underworld that is both spiritual and physical both allegorical and geographical This book not only considers closely these epic journeys to the other side but explores the chain of influences that connects the poets to such writers as Plato Cicero St John St Paul Bunyan Blake and C S Lewis Written in a narrative man of letters style and complete with an annotated bibliography a timeline a who s who and an extensive glossary of Jewish Christian and mythological terms this user friendly book will help readers understand how heaven and hell have been depicted for the last 3 000 years **Romanticism Gendered** Andrea Fischerová, 2020-11-09 This study focuses on the six writing men who have been throughout decades regarded as the alpha and omega of British Romanticism Byron Coleridge Keats Scott Shelley and Wordsworth It sees these men as a representative cohort of their time and examines their letters as results of a reading process Although letters are usually seen as additional sources of reference in literary studies in this book they are treated as the dominant information material correspondence enables to reconsider British Romanticism on the basis of the epistolary communication of the first half of the nineteenth century The target information from the letters are references to women writers and to their writings A detailed analysis of the correspondence manages to answer the question whether male Romantics regarded writing women as provoking from time to time as Duncan Wu assumes and whether the gender identity of the woman author influenced the way male readers read her literary works The examination of the correspondence thus takes a gendered perspective on

British Romanticism This approach to the target research data discloses a long list of almost 120 names of women writers from different periods and of different literary genres Whereas the male readers in question have acquired a well established stable long term position within literary history the women were often marginalized even forgotten. The study presents plentiful examples proving the discrepancies between what the twenty first century reader regards as the core of women s Romantic literary tradition and what the Romantic reader did The following women writers are discussed in the study in detail Susannah Centlivre Anne Finch Lady Winchelsea Ann Radcliffe Mary Robinson Felicia Hemans Mary Shelley Joanna Baillie Maria Edgeworth Maria Jane Jewsbury Catherine Grace Godwin and Emmeline Fisher Love's Virtues Mike W. Martin, 1996 This book brings together a sensitive understanding of love and an unusually careful even painstaking analysis of the enormous but often neglected role of morality and the virtues in love Martin's discussions of such virtues as caring courage fidelity and honesty are superb the examples well chosen the argument personal but nevertheless rigorous the prose accessible and enjoyable to read Teaching British Women Writers, 1750-1900 Jeanne Moskal, Shannon R. Wooden, 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women's writings New curricular inclusion of these sometimes guirky often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes literature This book addresses this radically changed educational landscape offering practical proven teaching strategies for newly recovered writers both in special topics courses and in traditional teaching environments Moreover it addresses the institutional issues confronting feminist scholars who teach women writers in a variety of settings and the kinds of career altering effects the decision to teach this material can have on junior and senior scholars alike Collectively these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole not only by introducing the voices of women writers but by incorporating new genres by asking new questions about readers assumptions and aesthetic values and by altering the power relations between teacher and student for the better Engaged Romanticism Mark Lussier, Bruce Matsunaga, 2009-05-27 In November 2006 the International Conference on Romanticism convened for its annual conference on the campus of Arizona State University and explored a wide range of work identified as engaged romantic as a mode and a practice rather than simply as a literary historical period defined by a specific temporal spectrum c 1750 1850 As the introduction to the volume suggests most writers during the period were actively engaged in the cultural articulation of the aesthetics criticism ethics poetics and politics of the age and a large number of writers deployed their talents to help transform the public sphere whether shaping responses to the practices of slavery or resisting the emergence of a crystallized form of Newtonianism at the foundation of Enlightenment epistemology The intellectual and disciplinary range of the essays included in this volume pay tribute to this often neglected aspect of the revolutionary dictates of what has come to be called Romanticism and the following critical essays offered by both thoroughly established and relatively new voices within Romantic Studies examine virtually every

aspect of this approach to Romantic thought and writing Whether focused on the formal and intellectual practices at the foundation of the novel the philosophical resonance of William Wordsworth within emergent forms of eco criticism the play of the transatlantic Romantic imagination the aesthetic commitments of Romantic art and music or the current process of pedagogical engagements the essays sound the depths of what engaged practice can accomplish both in the age of Romanticism itself as well as our own moment **Urbanization and English Romantic Poetry** Stephen Tedeschi, 2018 This book re orientates the relationship between urbanization and English Romantic poetry by focusing on urban aspects of British Women Poets and the Romantic Writing Community Stephen C. Behrendt, 2009-02-02 Romantic poems Approaching the work of Romantic era British women poets through the lenses of public radicalism war and poetic form This compelling study recovers the lost lives and poems of British women poets of the Romantic era Stephen C Behrendt reveals the range and diversity of their writings offering new perspectives on the work of dozens of women whose poetry has long been ignored or marginalized in traditional literary history British Romanticism was once thought of as a cultural movement defined by a small group of male poets This book grants women poets their proper place in the literary tradition of the time In an approach ripe for classroom teaching Behrendt first reviews the subject thematically exploring the ways in which the poems addressed both public concerns and private experiences He next examines the use of particular genres including the sonnet and various other long and short forms In the concluding chapters Behrendt explores the impact of national identity providing the first extensive study of Romantic era poetry by women from Scotland and Ireland In recovering the lives and work of these women Behrendt reveals their active participation within the rich cultural community of writers and readers throughout the British Isles This study will be a key resource for scholars teachers and students in British literary studies women s studies and cultural history
