New Poems 1908 The Other Part:

Neuen Gedichte Anderer Teil Rainer Maria Rilke, 1987 Rilke's association with Rodin in 1902 inspired in him a new poetic method Somehow he wrote I too must come to make things realities that emerge from handiwork Somehow I too must discover the smallest basic element the cell of my art the tangible immaterial means of representation for everything Until this work Rilke's voice had come from the interior expressing feelings and moods New Poems represented a turning point an intoxication with the materiality of the world American Women Poets in the 21st Century Claudia Rankine, Juliana Spahr, 2013-10-01 Poetry in America is flourishing in this new millennium and asking serious questions of itself Is writing marked by gender and if so how What does it mean to be experimental How can lyric forms be authentic This volume builds on the energetic tensions inherent in these questions focusing on ten major American women poets whose collective work shows an incredible range of poetic practice Each section of the book is devoted to a single poet and contains new poems a brief statement of poetics by the poet herself in which she explores the forces personal aesthetic political informing her creative work a critical essay on the poet's work a biographical statement and a bibliography listing works by and about the poet Underscoring the dynamic give and take between poets and the culture at large this anthology is indispensable for anyone interested in poetry gender and the creative process CONTRIBUTORS Rae Armantrout Mei mei Berssenbrugge Lucie Brock Broido Jorie Graham Barbara Guest Lyn Hejinian Brenda Hillman Susan Howe Ann Lauterbach Harryette Mullen

Once upon a Time in the West Jan Zwicky, 2023-05-15 Western civilization is over So begins Jan Zwicky's trenchant exploration of the root of global cultural and ecological collapse a way of thinking that is also linked to some of the West's most noted achievements The Renaissance merged imperial enterprise with Islamic algebra and recently recovered Greek mathematics to precipitate mechanized industry and resource extraction these in turn made possible the growth of capitalism the military industrial complex and Big Technology Despite its self image as objective Zwicky argues the West's style of thought is not politically neutral but intensely anthropocentric It has led those who adopt it to regard the more than human world as nothing more than timber licences and drilling sites where value is not recognized unless it is monetized Oblivious to context and blind to big picture thinking it analyzes mechanizes digitizes and systematizes while rejecting empathy and compassion as distorting influences Lyric comprehension in Zwicky's view offers an alternative to this way of thinking and she provides a wide range of examples *Once upon a Time in the West* documents how a narrow epistemological style has left Western thought blind to critical features of reality and how the terrifying consequences of that blinkered vision are now beginning to unfold **Cézanne's Gravity** Carol Armstrong, 2018-11-13 A transformative study freeing the artist from outdated art historical narratives and revealing his work as newly strange again Cézanne's Gravity is an ambitious reassessment of the paintings of Paul Cézanne 1839-1906 Whereas previous studies have often looked at the artist's work for its influence on his successors and on the development of abstraction Carol Armstrong untethers it from this timeline

examining C zanne s painting as a phenomenological and intellectual endeavor Armstrong uses an interdisciplinary approach to analyze C zanne s work pairing the painter with artists and thinkers who came after him including Roger Fry Virginia Woolf Albert Einstein Maurice Merleau Ponty Rainer Maria Rilke R D Laing and Helen Frankenthaler Through these pairings Armstrong addresses diverse subjects that illuminate C zanne s painting from the nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind C zanne s Gravity attends to both the physicality of the artist s works and the weight they bear on the history of art This distinctive study not only invites its readers to view C zanne s paintings with fresh eyes but also offers a new methodology for art historical inquiry outside linear narratives one truly fitting for our time *Poetry's Touch* William Waters,2018-05-31 To whom does a poem speak Do poems really communicate with those they address Is reading poems like overhearing Like intimate conversation Like performing a script William Waters pursues these questions by closely reading a selection of poems that say you to a human being to the reader to the beloved or to the dead In any account of reading lyric poetry Waters argues there will be places where the participant roles of speaker intended hearer and bystander melt together or away these are moments of wonder Looking both at poetry s you and at how readers encounter it Waters asserts that poetic address shows literature pressing for a close relation with those into whose hands it may fall What is at stake for us as readers and critics is our ability to acknowledge the claims made on us by the works of art with which we engage In second person poems in a poem s touch we may come to see why poetry matters to us and how we in turn come to feel answerable to it Poetry s Touch takes as a central thread the poetry of Rainer Maria Rilke a writer whose work is unusually self conscious about poetic address The book also draws examples from a gamut of European and American poems ranging from archaic Greek inscriptions to Keats Dickinson and Ashbery **Brill's Companion to Classical Reception and Modern World Poetry** ,2022-12-28 Brill s Companion to Classical Reception and Modern World Poetry explores the relations between antiquity and modernity from the angle of the reception of Graeco Roman antiquity in modern world poetry In an innovative combination of the fields of Classical Reception and World Literature it tackles ever challenging questions which are central to both fields such as the questions of literature and identity specificity and universality Eurocentrism poetics and translation Leading experts from both Classics and Modern Languages contribute 11 chapters on modern poetry and poets from different linguistic and cultural traditions from around the world Reading Rilke William H. Gass,2013-08-07 The greatly admired essayist novelist and philosopher author of Cartesian Sonata Finding a Form and The Tunnel reflects on the art of translation and on Rainer Maria Rilke s Duino Elegies and gives us his own translation of Rilke s masterwork After nearly a lifetime of reading Rilke in English William Gass undertook the task of translating Rilke s writing in order to see if he could in that way get closer to the work he so deeply admired With Gass s own background in philosophy it seemed natural to begin with the Duino Elegies the poems in which Rilke s ideas are most fully expressed and which as a group are important not only as one of the

supreme poetic achievements of the West but also because of the way in which they came to be written in a storm of inspiration Gass examines the genesis of the ideas that inform the Elegies and discusses previous translations He writes as well about Rilke the man his character his relationships his life Finally his extraordinary translation of the Duino Elegies offers us the experience of reading Rilke with a new and fuller understanding

The Book of Images Rainer Maria Rilke, 2014-06-03 Now substantially revised by Edward Snow whom Denise Levertov once called far and away Rilke's best translator this bilingual edition of The Book of Images contains a number of the great poet's previously untranslated pieces Also included are several of Rilke's best loved lyrics such as Autumn Childhood Lament Evening and Entrance

Duino Elegies Rainer Maria Rilke, 2014-06-03 Who if I cried out would hear me among the angelic orders and even if one of them pressed me suddenly to his heart I'd be consumed in that overwhelming existence For beauty is nothing but the beginning of terror which we can just barely endure and we stand in awe of it as it coolly disdains to destroy us Every angel is terrifying from The First Elegy Over the last fifteen years in his two volumes of New Poems as well as in The Book of Images and Uncollected Poems Edward Snow has emerged as one of Rainer Maria Rilke's most able English language interpreters In his translations Snow adheres faithfully to the intent of Rilke's German while constructing nuanced colloquial poems in English Written in a period of spiritual crisis between 1912 and 1922 the poems that compose the Duino Elegies are the ones most frequently identified with the Rilkean sensibility With their symbolic landscapes prophetic proclamations and unsettling intensity these complex and haunting poems rank among the outstanding visionary works of the century

literary representations of woman man family and society This final volume in Gilbert and Gubar's landmark three part *No Man's Land: The Place of the Woman Writer in the Twentieth Century* argues that throughout the twentieth century women of letters have found themselves on a confusing cultural front and that most increasingly aware of the artifice of gender have dispatched missives recording some form of the future shock associated with profound changes in the roles and rules governing sexuality Divided into two parts *Letters from the Front* is chronological in organization with the first section focusing on such writers of the modernist period as Virginia Woolf Zora Neale Hurston Edna St Vincent Millay Marianne Moore and H D and the second devoted to authors who came to prominence after the Second World War including Gwendolyn Brooks Sylvia Plath Margaret Atwood Toni Morrison and A S Byatt Embroiled in the sex antagonism that Gilbert and Gubar traced in *The War of the Words* and in the sexual experimentations that they studied in *Sexchanges* all these artists struggled to envision the inscription of hitherto untold stories on what H D called the blank pages of the unwritten volume of the new Through the works of the first group Gilbert and Gubar focus in particular on the demise of any single normative definition of the feminine and the rise of masquerades of femininity amounting to female female impersonation In the writings of the second group the critics pay special attention to proliferating revisions of the family romance revisions significantly inflected by differences in race class and ethnicity and to the rise of masquerades of masculinity or male male impersonation Throughout Gilbert and Gubar discuss the impact on literature of such crucial historical events as the Harlem Renaissance the Second World War and the sexual revolution of the sixties What kind of future might such a past engender Their book concludes with a fantasia on *The Further Adventures of Snow White* in which their bravura retellings of the Grimm fairy tale illustrate ways in which future writing about gender might develop
