**The New Politics of Crime and Punishment** Roger Matthews, Jock Young, 2013-01-11 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation This book will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political agenda

The Making of Criminal Justice Policy Sue Hobbs, Christopher Hamerton, 2014-10-24 This new textbook will provide students of criminology with a better understanding of criminal justice policy and in doing so offers a framework for analysing the social economic and political processes that shape its creation The book adopts a policy oriented approach to criminal justice connecting the study of criminology to the wider study of British government public administration and politics Throughout the book the focus is on key debates and competing perspectives on how policy decisions are made Recognising that

contemporary criminal justice policymakers operate in a highly politicised public arena under the gaze of an ever increasing variety of groups organisations and individuals who have a stake in a particular policy issue the book explores how and why these people seek to influence policymaking It also recognises that criminal policy differs from other areas of public policy as policy decisions affect the liberty and freedoms of citizens Throughout key ideas and debates are linked to wider sociology criminology and social policy theory Key features include a foreword by Tim Newburn leading criminologist and author of *Criminology* 2nd Edition 2013 a critical and informed analysis of the concepts ideas and institutional practices that shape criminal justice policy making an exploration of the relationship between criminal justice and wider social policy a critical analysis of the debate about how and why behaviour becomes defined as requiring a criminal justice solution a range of case studies tasks seminar questions and suggested further readings to keep the student engaged This text is perfect for students taking modules in criminology criminal justice and social and public policy as well as those taking courses on criminal and administrative law
