Media and Food Industries Michelle Phillipov, 2017-09-20 This volume is the first to combine textual analysis of food media texts with interviews with media production staff reality TV contestants celebrity chefs and food producers and retailers across the artisan conventional spectrum Intensified media interest in food has seen food politics become a dominant feature of popular media from television and social media to cookbooks and advertising This is often thought to be driven by consumers and by new ethics of consumption but Media and Food Industries reveals how contemporary food politics is also being shaped by political and economic imperatives within the media and food industries It explores the behind the scenes production dynamics of contemporary food media to assess the roles of and relationships between media and food industries in shaping new concerns and meanings with respect to food *Feeding Frenzy* Paul McMahon, 2014-06-07 Feeding Frenzy traces the history of the global food system and reveals the underlying causes of recent turmoil in food markets Supplies are running short prices keep spiking and the media is full of talk of a world food crisis The turmoil has unleashed some dangerous forces Food producing countries are banning exports even if this means starving their neighbors Governments and corporations are scrambling to secure control of food supply chains Powerful groups from the Middle East and Asia are acquiring farmland in poor countries to grow food for export what some call land grabs This raises some big questions Can we continue to feed a burgeoning population Are we running out of land and water Can we rely on free markets to provide This book reveals trends that could lead to more hunger and conflict But Paul McMahon also outlines actions that can be taken to shape a sustainable and just food system Alternative Food Politics Michelle Phillipov, Katherine Kirkwood, 2018-12-07 Media interest in food has intensified in recent years leading to a contemporary food landscape where alternative food practices are increasingly visible Concerns that were once exclusively the domain of activist movements motivated by environmental animal rights health and anti corporate agendas are now central to primetime television cooking shows mobile apps and social media This book is the first to explore the impact of popular media and culture on contemporary food politics Through examination of a range of media and cultural texts including news digital media advertising and food labelling it brings together leading and emerging scholars in food studies media and communications sociology law policy studies business and geography The book explores the practices of alternative food movements the marketing techniques of conventional and alternative food producers and the relationships between food industries media and the public Covering topics ranging from agtech start ups and social justice projects to new ways of mediating food waste celebrity and ethical foods Alternative Food Politics reveals the importance of media as a driver of food system transformation This is a pivotal time for media and food industries and this book is essential reading for scholars and students seeking to better understand the futures possibilities and limits of food politics today Food for the Future John Brueggemann, 2023-07-03 Food for the Future Stories from the Alternative Agro food Movement is about

different foods the stories they contain and most of all the people in the stories John Brueggemann interviewed dozens of farmers chefs non profit managers consumers teachers and healthcare providers He argues that their individual stories point towards larger patterns that have shaped the alternative agro food movement and that other factors including the environmental movement farms lifestyle movements and consumers have all played a crucial role in its rise The author concludes that the alternative agro food movement is providing a countervailing force relative to mainstream market culture and that instead of efficiency profit consumption individualism and short term thinking the alternative agro food movement emphasizes meaning need creation community and long term thinking **The New Politics of Food** Lyle P. Schertz,1975

Digital Food TV Michelle Phillipov,2022-11-01 This book explores the new theoretical and political questions raised by food TV s digital transformation Bringing together analyses of food media texts and platform infrastructures from streaming and catch up TV to YouTube and Facebook food videos it shows how new textual conventions algorithmic practices and market logics have redrawn the boundaries of food TV and altered the cultural place of food and food media in a digital era With case studies of new and rerun television and emerging online genres Digital Food TV considers what food television means at the current moment a time when on screen digital content is rapidly proliferating and televisual platforms and technologies are undergoing significant change This book will appeal to students and scholars of food studies television studies and digital media studies *Food* Jennifer Clapp,2013-05-08 Food is one of the most basic resources that humans need for daily survival Forty percent of the world s population gains a livelihood from agriculture and we all consume food Yet control over this fundamental resource is concentrated in relatively few hands The 2008 food price crisis illustrated both the volatility and vulnerability built into the current global food system at the height of the crisis the number of hungry people on the planet climbed to over 1 billion At the same time there are serious ecological consequences that stem from an increasingly industrial model of agriculture that has spread worldwide This book aims to contribute to a fuller understanding of the forces that influence and shape the current global food system Author Jennifer Clapp explores how corporate control inequitable international agricultural trade rules and the financialization of farm commodities have each had a fundamental influence on the practices that dominate today s global food system By contrast farmers and consumers particularly in the developing world have had little voice to change the rules of the game But movements are emerging to challenge the dominant global system The extent to which these alternative movements can displace it however remains to be seen **The Handbook of Food Research** Anne Murcott,Warren Belasco,Peter Jackson,2013-08-15 The last 20 years have seen a burgeoning of social scientific and historical research on food The field has drawn in experts to investigate topics such as the way globalisation affects the food supply what cookery books can and cannot tell us changing understandings of famine the social meanings of meals and many more Now sufficiently extensive to require a critical overview this is the first handbook of specially commissioned essays to provide a tour d horizon of this broad range of topics and disciplines The editors have

enlisted eminent researchers across the social sciences to illustrate the debates concepts and analytic approaches of this widely diverse and dynamic field This volume will be essential reading a ready to hand reference book surveying the state of the art for anyone involved in and actively concerned about research on the social political economic psychological geographic and historical aspects of food It will cater for all who need to be informed of research that has been done and that is being done **Catalog** Food and Nutrition Information Center (U.S.),1974 The New Politics of North Carolina

Christopher A. Cooper,H. Gibbs Knotts,2012-09-01 Political scientist V O Key in 1949 described North Carolina as a progressive plutocracy He argued that in the areas of industrial development public education and race relations North Carolina appeared progressive when compared to other southern states Reconsidering Key s evaluation nearly sixty years later contributors to this volume find North Carolina losing ground as a progressive leader in the South The new politics of the state involves a combination of new and old new opportunities and challenges have forced the state to change but the old culture still remains a powerful force In the eleven essays collected here leading scholars of North Carolina politics offer a systematic analysis of North Carolina s politics and policy placed in the context of its own history as well as the politics and policies of other states Topics discussed include the evolution of politics and political institutions the roles of governors the judicial branch interest groups and party systems and the part played by economic development and environmental policy Contributors also address how geography affects politics within the state region and nation Designed with students and interested citizens in mind this collection provides an excellent introduction to contemporary North Carolina politics and government Contributors Hunter Bacot Elon University Christopher A Cooper Western Carolina University Thomas F Eamon East Carolina University Jack D Flee Wake Forest University Dennis O Grady Appalachian State University Ferrel Guillory University of North Carolina at Chapel Hill Sean Hildebrand Western Carolina University Jonathan Kanipe Town Manager Catawba North Carolina H Gibbs Knotts Western Carolina University Adam J Newmark Appalachian State University Charles Prysby University of North Carolina at Greensboro Ruth Ann Strickland Appalachian State University James H Svara Arizona State University Timothy Vercellotti Rutgers University New Politics in the Old South David T. Ballantyne,2016-11-15 The first scholarly account of the South Carolina Democrat s career and the transformation of Southern U S politics and society during the civil rights era New Politics in the Old South is the first scholarly biography of Ernest F Fritz Hollings a key figure in South Carolina and national political developments in the second half of the twentieth century Throughout his career Hollings was renowned for his willingness to voice unpleasant truths as when he called for the peaceful acceptance of racial desegregation at Clemson University in 1963 and acknowledged the existence of widespread poverty and malnutrition in South Carolina in 1969 David T Ballantyne uses Hollings s career as a lens for examining the upheaval in southern politics and society after World War II Hollings s political career began in 1948 when he was elected to the South Carolina House of Representatives He served as governor from 1959 to 1963 and then as a U S senator from 1966 until he retired in 2005

Ballantyne illuminates Hollings's role in forging a southern strategy that helped move southern Democrats away from openly endorsing white supremacy and toward acknowledging the interests of racial minorities though this approach was halting and reluctant at times Unlike many southern politicians who emerged as reactionary figures during the civil rights era Hollings adapted to the changing racial politics of the 1960s while pursuing a clear course Vietnam War hawk fiscal conservative regional economic booster and free trade opponent While Hollings was at times an atypical southern senator his behavior in the 1960s and 1970s served as a model for survival as a southern Democrat His approach to voting rights military spending and social and cultural issues was mirrored by many southern Democrats between the 1970s and 1990s Hollings's career demonstrated an alternative to hard edged political conservatism one that was conspicuously successful throughout his Senate tenure

The New Politics of Transnational Labor Marissa Brookes, 2019-03-15 Over the years many transnational labor alliances have succeeded in improving conditions for workers but many more have not In The New Politics of Transnational Labor Marissa Brookes explains why this dichotomy has occurred Using the coordination and context appropriate CCAP theory she assesses this divergence arguing that the success of transnational alliances hinges not only on effective coordination across borders and within workers local organizations but also on their ability to exploit vulnerabilities in global value chains invoke national and international institutions and mobilize networks of stakeholders in ways that threaten employers core material interests Brookes uses six comparative case studies spanning four industries five countries and fifteen years From dockside labor disputes in Britain and Australia to service sector campaigns in the supermarket and private security industries to campaigns aimed at luxury hotels in Southeast Asia Brookes creates her new theoretical framework and speaks to debates in international and comparative political economy on the politics of economic globalization the viability of private governance and the impact of organized labor on economic inequality From this assessment Brookes provides a vital update to the international relations literature on non state actors and transnational activism and shows how we can understand the unique capacities labor has as a transnational actor

The Aesthetics and Politics of Global Hunger Anastasia Ulanowicz, Manisha Basu, 2018-02-14 This collection investigates modern imperialist practices and their management of hunger through its punctuated distribution amongst asymmetrically related marginal populations Drawing on relevant material from Egypt Ireland India Ukraine and other regions of the globe The Aesthetics and Politics of Global Hunger is a rigorously comparative study made up of ten essays by well established scholars from universities around the world Since modernity we have been inhabitants of a globe increasingly connected through discourses of equal access for all humans to the resources of the planet but the volume emphasizes alongside this reality the flagrant politicization of those same resources From this emphasis the essays in the volume place into relief the idea that ideological and aesthetic discourses of hunger could inform ethical thinking and

practices about who or what constitutes the figure of the modern historical human

Edith Wharton's Brave New

Politics Dale M. Bauer, 1994 Most critics claim that Edith Wharton's creative achievement peaked with her novels *The House of Mirth* and *The Age of Innocence* dismissing her later fiction as reactionary sensationalistic and aesthetically inferior In *Edith Wharton's Brave New Politics* Dale M Bauer overturns these traditional conclusions She shows that Wharton's post World War I writings are acutely engaged with the cultural debates of her day from reproductive control to authoritarian politics to mass culture and its ramifications Bauer examines the social and political critique implicit in Wharton's later works from *Summer* 1917 to her last novel *The Buccaneers* published posthumously in 1938 She integrates historical political and feminist concerns to recast Wharton's antimodernism and to recover the novelist's understanding of public life and private morality *Edith Wharton's Brave New Politics* illustrates how literary criticism can change the course of a literary career In her refutation of the dominant interpretations of Wharton's literary work Bauer challenges the prevailing conception of this genteel woman of letters showing that to read Wharton's works in isolation from her complex politics is to misunderstand Wharton's aims and to miss entirely the exhilarating power of these later fictions
