undergraduate and added to it throughout his life The Somnium fuses supernatural and scientific models of the cosmos through a satirical defense of Copernicanism that features witches lunar inhabitants and a daemon who speaks in the empirical language of modern science Swinford s looks at the ways that Kepler s Somnium is influenced by the cosmic dream a literary genre that enjoyed considerable popularity among medieval authors including Geoffrey Chaucer Dante John of Salisbury Macrobius and Alan of Lille He examines the generic conventions of the cosmic dream also studying the poetic and theological sensibilities underlying the categories of dreams formulated by Macrobius and Artemidorus that were widely used to interpret specific symbols in dreams and to assess their overall reliability Swinford develops a key claim about the form of the Somnium as it relates to early science Kepler relies on a genre that is closely connected to a Ptolemaic or earth centered model of the cosmos as a way of explaining and justifying a model of the cosmos that does not posit the same connections between the individual and the divine that are so important for the Ptolemaic model In effect Kepler uses the cosmic dream to describe a universe that cannot lay claim to the same correspondences between an individual s dream and the order of the cosmos understood within the rules of the genre itself To that end Kepler s Somnium is the first example of science fiction but the last example of Neoplatonic allegory **Holonomy** Jeffrey Stamps,1980

focuses on the underlying root causes that drive destructive patterns while providing clear steps for letting go of core false beliefs that lead to addictive tendencies Whether it is unresolved trauma spiritual disconnection or toxic shame these challenges need to be addressed in order to achieve true and permanent freedom Conscious Recovery offers a pathway toward liberation that can assist you in creating a life filled with love and connection It explores methods for changing the ways of thinking that keep you stuck in a pattern of hopelessness so you can come into alignment with an existence overflowing with compassion and purpose TJ Woodward calls this the great remembering reclaiming the truth of who and what you essentially are

Criminological Theory Anthony Walsh, 2014-09-19 Criminologists can benefit from questioning the underlying assumptions upon which they rest their work Philosophy has the ability to clarify our thoughts inform us of why we think about things the way we do solve contradictions in our thinking we never knew existed and even dissolve some dichotomies we thought were cast in stone One of those dichotomies is free will vs determinism Criminology must reckon with both free will and agency as posited by some theories and determinism as posited by others including the ever more influential fields of genetics and biosocial criminology *Criminological Theory Assessing Philosophical Assumptions* examines philosophical concepts such as these in the context of important criminological theories or issues that are foundational but not generally considered in the literature on this topic The uniqueness of this treatment of criminological theory is that rather than reporting what this person or that has said about a particular theory Walsh exposes the philosophical assumptions underlying the theory Students and scholars learn to clarify their own biases and better analyze the implications of a broad range of theories of crime and justice

Achieving Extraordinary Ends: An Essay on Creativity S.

Bailin, 2012-12-06 CREATIVITY HAS become a popular slogan in contemporary education and society We are urged continually to be creative with respect to all our endeavours to be creative writers creative cooks creative teachers creative

thinkers creative lovers Ascribing creativity has become one of the principal means of praising approving and commending Yet in the process of becoming a universal term of positive evaluation the concept of creativity has tended to lose its connection with its origins We have forgotten that creativity has to do with creating that it is connected with great achievements and quality productions And as a consequence of this lapse of memory most attempts to foster creativity in educational practice have been misleading at best and dangerous at worst We have come to settle for the encouragement of certain personality traits at the expense of the encouragement of significant achievement and this in the name of creativity If we are not clear about what is meant by creativity we may end up sacrificing creativity precisely in the process of trying to foster it This book is an attempt to be clear about creativity The Context For the poet is an airy thing a winged and a holy thing and he cannot make poetry until he becomes inspired and goes out of his senses and no mind is left in him I Plato If creativity and its growth are to be viewed scientifically creativity must be defined in a way that permits objective observation and measurement **Integrity, Courage and Soul** Alvin W. Holst, 2012-08 Aristotle is quoted as saying A man could not claim to know a subject unless he was capable of transmitting his knowledge to others and he regarded teaching as the proper manifestation of knowledge A person is a reflection of his or her learning experiences with others since birth Many feel trapped in a world where they have no control but feel others control them Feeling trapped and not in control is at the base of all negative life experiences that is continually reinforced in every new generation often in a more severe form Recognition and acceptance of this negative acculturation is the first step of rebuilding one's life to live positively and successfully in a negative world A life where others apply negative control tactics in rearing and educating others makes things worse over time Positive life skills can be learned where helping others to be free of another's control and in charge of their own destiny can be learned at any age Your life will change when you can imagine a world where bullying is replaced by helping others to be independent as you have become
