New Reading Of The Wings Of The Dove:

In Darkest James Robin P. Hoople, 2000 In July of 1906 Archibald Henderson could pronounce with perfect confidence that Henry James was a master impressionist But as short a time as six years earlier James's critics lacked this term in their vocabulary and struggled with the sophisticated art of James's developing impressionistic literary technique In *Darkest James* discusses the reviewer's frustrated often irritated and even anguished attempts to render a satisfactory account of the sequence of artifacts in which James moved toward the perfection of his craft **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Twentieth-Century American Fiction Handbook** Christopher MacGowan, 2011-02-21 THE TWENTIETH CENTURY AMERICAN FICTION Accessibly structured with entries on important historical contexts central issues key texts and the major writers this Handbook provides an engaging overview of twentieth century American fiction Featured writers range from Henry James and Theodore Dreiser to contemporary figures such as Joyce Carol Oates Thomas Pynchon and Sherman Alexie and analyses of key works include *The Great Gatsby* *Lolita* *The Color Purple* and *The Joy Luck Club* among others Relevant contexts for these works such as the impact of Hollywood the expatriate scene in the 1920s and the political unrest of the 1960s are also explored and their importance discussed This is a stimulating overview of twentieth century American fiction offering invaluable guidance and essential information for students and general readers [Current Literature](#), 1899 **The Book Lover**, 1903 [Current Literature](#) Edward Jewett Wheeler, 1899 [American Declarations Of Love](#) Ann Massa, 1989-12-11 *The Text and the Voice* Alessandro Portelli, 1994-01-05 *The Text and the Voice* *Understanding James, Understanding Modernism* David H. Evans, 2017-04-20 Psychologist philosopher teacher writer William James stood closer than any other thinker to the center of the confluence of intellectual and artistic forces that defined the culture of modernism The outstanding feature of this volume lies in its intent to investigate James's influence on both American and International Modernism It provides on the one hand a multifaceted introduction to students of history philosophy and culture and on the other a compendium of some of the most up to date thinking on this central figure James's first book *Principles of Psychology* 1890 immediately established James as the leading psychologist of his time at a moment in history when psychology seemed to offer the promise of finding some definitive answers to eternal philosophical conundra James's innovations would register a clear effect on much modernist art most evidently in the stylistic prose experiments of James Joyce Virginia Woolf and their imitators James's tentative skepticism concerning the concept of consciousness as such and the post Cartesian ego that was its foundation also anticipates the questioning of the subject that would be the theme of much modern and indeed postmodern thought The contributors to this volume explore James's most essential texts as well as his influence on contemporary writers artists and thinkers The final section is a glossary of James's key terms with entries written by leading experts **Before Einstein** Elizabeth L. Throesch, 2017-01-02 *Before Einstein* brings together previous scholarship in the field of nineteenth century literature and

science and greatly expands upon it offering the first book length study of not only the scientific and cultural context of the spatial fourth dimension but also the literary value of four dimensional theory In addition to providing close critical analysis of Charles Howard Hinton s *Scientific Romances* 1884 1896 Before Einstein examines the work of H G Wells Henry James and William James through the lens of four dimensional theory The primary value of Hinton s work has always been its literary and philosophical content and influence rather than its scientific authority It is certain that significant late nineteenth century writers and thinkers such as H G Wells William James Olive Schreiner Karl Pearson and W E B Du Bois read Hinton Others including Henry James Joseph Conrad and Ford Madox Ford were familiar with his ideas Hinton s fourth dimension appealed to scientists spiritualists and artists and particularly at the end of the nineteenth century the interests of these different groups often overlapped Truly interdisciplinary in scope Before Einstein breaks new ground by offering an extensive analysis of four dimensional theory s place in the shared history of Modernism
