Celebrity Gods Benjamin Dorman, 2012-02-29

Celebrity Gods explores the interaction of new religions and the media in postwar Japan. It focuses on the leaders and founders of Jiu and Tensh K tai Jing Ky, two new religions of Japan's immediate postwar period that received substantial press attention. Jiu was linked to the popular prewar group motoky and its activities were based on the millennial visions of its leader, a woman called Jik son. When Jiu attracted the legendary sumo champion Futabayama to its cause, Jik son and her activities became a widely covered cause célèbre in the press. Tensh K tai Jing Ky, labeled odoroshi by the press, was led by a farmer's wife, Kitamura Sayo. Her uncompromising vision and actions toward creating a new society, one that was far removed from what she described as the maggot world of postwar Japan, drew harsh and often mocking criticism from the print media. Looking back for precursors to the postwar relationship of new religions and media, Benjamin Dorman explores the significant role that the Japanese media traditionally played in defining appropriate and acceptable social behavior, acting at times as mouthpieces for government and religious authorities. Using the cases of Renmonky in the Meiji era and motoky in the Taishō and Shōwa eras, Dorman shows how accumulated images of new religions in pre-1945 Japan became absorbed into those of the immediate postwar period. Given the lack of formal religious education in Japan, the media played an important role in transmitting notions of acceptable behavior to the public. He goes on to characterize the leaders of these groups as celebrity gods, demonstrating that the media, which were generally untrained in religious history or ideas, chose to fashion them as celebrities whose antics deserved derision. While the prewar media had presented other groups as the antithesis of decent moral citizens who stood in opposition to the aims of the state, postwar media reports presented them primarily as unfit for democratic society. *Celebrity Gods* delves into an understudied era of religious history: the Allied Occupation and the postwar period up to the early 1950s. It is an important interdisciplinary work that considers relations between Japanese and Occupation bureaucracies and the groups in question and uses primary source documents from Occupation archives and interviews with media workers and members of religious groups. For observers of postwar Japan, this research provides a roadmap to help understand issues relating to the Aum Shinrikyō affair of the 1990s.

Religion and Society in Modern Japan Mark Mullins, Susumu Shimazono, Paul Loren Swanson, 1993. Designed for classroom study, this anthology provides the students with interpretations and perspectives on the significance of religion in modern Japan. Emphasis is placed on the sociocultural expressions of religion in everyday life rather than on religious texts or traditions. A particular strength of this collection is the combination of current Japanese and Western scholarship.

Deus in Machina Jeremy Stolow, 2012-11-05. The essays in this volume explore how two domains of human experience and action, religion and technology, are implicated in each other. Contrary to commonsense understandings of both religion as an otherworldly orientation and technology as the name for tools, techniques, and expert knowledges oriented to this world, the contributors to

this volume challenge the grounds on which this division has been erected in the first place What sorts of things come to light when one allows religion and technology to mingle freely In an effort to answer that question Deus in Machina embarks upon an interdisciplinary voyage across diverse traditions and contexts where religion and technology meet from the design of clocks in medieval Christian Europe to the healing power of prayer in premodern Buddhist Japan to 19th century Spiritualist devices for communicating with the dead to Islamic debates about kidney dialysis in contemporary Egypt to the work of disability activists using documentary film to reimagine Jewish kinship to the representation of Haitian Vodou on the Internet among other case studies Combining rich historical and ethnographic detail with extended theoretical reflection Deus in Machina outlines new directions for the study of religion and as technology that will resonate across the human sciences including religious studies science and technology studies communication studies history anthropology and philosophy

Prophet Motive Nancy K. Stalker, 2007-10-31 From the 1910s to the mid 1930s the flamboyant and gifted spiritualist Deguchi Onisabur 1871 1948 transformed his mother in law s small rural religious following into a massive movement eclectic in content and international in scope Through a potent blend of traditional folk beliefs and practices like divination exorcism and millenarianism an ambitious political agenda and skillful use of new forms of visual and mass media he attracted millions to Oomoto his Shintoist new religion Despite its condemnation as a heterodox sect by state authorities and the mainstream media Oomoto quickly became the fastest growing religion in Japan of the time In telling the story of Onisabur and Oomoto Nancy Stalker not only gives us the first full account in English of the rise of a heterodox movement in imperial Japan but also provides new perspectives on the importance of charismatic entrepreneurship in the success of new religions around the world She makes the case that these religions often respond to global developments and tensions imperialism urbanization consumerism the diffusion of mass media in similar ways They require entrepreneurial marketing and management skills alongside their spiritual authority if their groups are to survive encroachments by the state and achieve national international stature Their drive to realize and extend their religious view of the world ideally stems from a prophet rather than profit motive but their activity nevertheless relies on success in the modern capitalist commercial world Unlike many studies of Japanese religion during this period Prophet Motive works to dispel the notion that prewar Shinto was monolithically supportive of state initiatives and ideology
