New Strategy Through Space:

Space Strategy in the 21st Century Eligar Sadeh, 2013 This book offers an overview of space strategy in the 21st century The purpose of space strategy is to coordinate integrate and prioritize space activities across security commercial and civil sectors Without strategy space activities continue to provide value but it becomes difficult to identify and execute long term programs and projects and to optimize the use of space for security economic civil and environmental ends Strategy is essential for all these ends since dependence on and use of space is accelerating globally and space is integrated in the fabric of activities across all sectors and uses This volume identifies a number of areas of concern pertinent to the development of national space strategy including intellectual foundations political challenges international cooperation and space governance space assurance and political organizational and management aspects specific to security space strategy The contributing authors expand their focus beyond that of the United States and explore and analyse the international developments and implications of national space strategies of Russia China Europe Japan India Israel and Brazil This book will be of much interest to students of space power and politics strategic studies foreign policy and International Relations in general Global Instability and Strategic Crisis Neville Brown, 2004-08-02 This review of the new situation proposes a broader remit for strategic studies than ever before A prime concern is that Space not be weaponised in pursuance of missile defence The interventions in Afghanistan and Iraq are assessed The Holy Land Southern Africa Indonesia China and the Arctic are also foci of special concern Other themes include terror redefined lethal lasers internal arms control regional pacts Marshall Plans climate change instabilities in advanced societies a two tier EU pre-emption doctrine and Space exploration

The 1994 Goddard Conference on Space Applications of Artificial Intelligence Carl F. Hostetter, 1994 *Space Strategy* Jean-Luc Lefebvre, 2017-05-08 Strategy is the art of thinking about war before it occurs Noting that space already plays a role in all of today's wars Space Strategy studies how conflicts are extending into this new domain The book defines extra atmospheric space and focuses on its varying features and constraints By exploring the opportunities for action provided by different strategic positions the book analyzes the most plausible combat scenarios from against and within space It explains the concepts of militarization weaponization and martialization of space and shows how space systems constitute an essential component of information literacy the key to power in the 21st Century Space Strategy then demonstrates why our society having become space dependent must take appropriate measures to develop its spatioresilience Finally the author summarizes his reflections in the form of a mnemonic listing twelve principles of space strategy Completed by educational appendices and a glossary containing one thousand entries Space Strategy meets the needs of students researchers or any other reader curious about expanding their knowledge of strategy **Military Review**, 1992 **Strategic Modernization Issues** United States. Congress. House. Committee on Armed Services. Procurement and Military Nuclear Systems Subcommittee, 1993 **Air University Library Index to Military Periodicals**, 1970 **U.S. Civilian Space Policy**

United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space, 1979 Space Operations: Contributions from the Global Community Craig Cruzen, Michael Schmidhuber, Young H. Lee, Bangyeop Kim, 2017-03-30 This book includes a selection of 30 reviewed and enhanced manuscripts published during the 14th SpaceOps Conference held in May 2016 in Daejeon South Korea The selection was driven by their quality and relevance to the space operations community The papers represent a cross section of three main subject areas Mission Management management tasks for designing preparing and operating a particular mission Spacecraft Operations preparation and implementation of all activities to operate a space vehicle crewed and uncrewed under all conditions Ground Operations preparation qualification and operations of a mission dedicated ground segment and appropriate infrastructure including antennas control centers and communication means and interfaces This book promotes the SpaceOps Committee's mission to foster the technical interchange on all aspects of space mission operations and ground data systems while promoting and maintaining an international community of space operations experts *War and Peace in Outer Space* Cassandra Steer, Matthew Hersch, 2020-11-20 This book delves into legal and ethical concerns over the increased weaponization of outer space and the potential for space based conflict in the very near future Unique to this collection is the emphasis on questions of ethical conduct and legal standards applicable to military uses of outer space No other existing publication takes this perspective nor includes such a range of interdisciplinary expertise The essays included in this volume explore the moral and legal issues of space security in four sections Part I provides a general legal framework for the law of war and peace in space Part II tackles ethical issues Part III looks at specific threats to space security Part IV proposes possible legal and diplomatic solutions With an expert author team from North American and Europe the volume brings together academics military lawyers military space operators aerospace industry representatives diplomats and national security and policy experts The experience of this team provides a collection unmatched in any academic publication broaching even some of these issues and will be required reading for anyone interested in war and peace in outer space

Space Strategy and Military Doctrine Bert Chapman, 2025-07-24 Examining open access civilian and military space policy strategy and doctrine documents this book highlights emerging trends and developments in military space strategy Bert Chapman collects public documents from Australia Canada the European Union NATO the United States and the United Kingdom from 2017 onward to illustrate space's critical importance to national and international security and to multiple areas of civilian economic and personal use including climate change food security personal and global communications and the potential for expanded space exploration In light of recent revelations that Russia may be capable and desirous of exploding nuclear weapons in space to damage civilian and military space based infrastructures of the U S and other countries and China's increasing space assertiveness and capabilities it is more important than ever that civilian readers have the access and background knowledge necessary to parse publicly available documents relating to space strategy so

that they may effectively participate in the legislative and regulatory policymaking processes of their governments **NASA Strategic Plan** United States. National Aeronautics and Space Administration, 1994 **Department of Defense Authorization for Appropriations for Fiscal Year 2013 and the Future Years Defense Program: Military posture** United States. Congress. Senate. Committee on Armed Services, 2012 **The View from Space** Richard Leshner, Thor Hogan, 2019-10-25 In 1990 NASA began developing Mission to Planet Earth MTPE an initiative aimed at using satellites to study the planet's environment from space With the Earth Observing System EOS as its technological cornerstone MTPE's main goal was to better understand fundamental processes such as climate change The View from Space tells the remarkable story of this unprecedented convergence of science technology and policy in one of the most significant Big Science programs in human history Richard B Leshner and Thor Hogan offer an engrossing behind the scenes look at how and why NASA managed to make an aggressive earth science research program part of the national agenda an accomplishment made possible by the pragmatic and assertive efforts of the earth science community This is the first book to focus on describing and analyzing the historical evolution of the MPTE EOS initiative from its formative years in the 1980s to its political and technical struggles in the 1990s to its scientific successes in the 2000s Though detailed in its coverage of science and technology The View from Space is primarily concerned with questions of policy specifically how MTPE EOS came to be how it developed and how its proponents navigated the fraught politics of the time Compelling in its own right this in depth history of the initiative is also a valuable object lesson in how political technical and scientific infighting can shape a project of such national and global consequence particularly in the age of climate change **Assured Access to Space** United States. Congress. House. Committee on Science and Technology. Subcommittee on Space Science and Applications, 1987 Yearbook on Space Policy 2007/2008 Kai-Uwe Schrogl, Charlotte Mathieu, Nicolas Peter, 2010-07-19 At the time of finalising this second volume of the Yearbook on Space Policy which covers the period mid 2007 to mid 2008 Europe is as visible and strong in the area of space activities as never before Its space probes are present on the Moon around Mars and on Saturn's Moon Titan and are chasing asteroids and comets Ariane V is the most successful commercial launch vehicle and more and more European space applications satellites are in operation Finally with the successful launch of the Columbus Orbital Facility COF the most prominent highlight of this period which is also depicted on the cover of this Yearbook and the first Automated Transfer Vehicle ATV Europe has become a decisive player in human space flight This is accompanied by new policy initiatives on the ministerial level which have been bringing the European Space Agency and the European Union steadily closer Europe's outstanding development and positioning in the space field is based not only on Europe's successful engineering and scientific capabilities and capacities but also on the forceful political determination of all European actors to maintain and even further their engagement in the use of outer space And it is this political determination which provides the focus for this Yearbook on Space Policy The Yearbook describes and analyses the contexts and contents of space policy Its

primary field of investigation is Europe but it also covers the whole range of global space activities and their influence on European endeavours

The United States Space Force Lamont C. Colucci, 2022-12-01 The United States Space Force the sixth branch of the armed forces will soon play a leading role in American foreign policy and will be necessary to protect its economic political and social interests at home and abroad This book argues that America's newest branch of the armed forces the United States Space Force will soon play a key strategic role in American foreign policy military and economic expansion and technological innovation Written by a leading expert on and member of the Space Force the book offers an introduction to the Space Force explains the urgent need for it and walks readers through what exactly the Space Force is and is not Drawing on dozens of interviews with high ranking members of the armed forces the author claims that in the future space will be the geopolitical center of world politics as such countries as the U S Russia and China jockey for control of it America must therefore set aside partisan politics to make space a top priority as a failure to do so will leave the U S and its citizens in a dangerous and vulnerable position on the world stage
