The Identity Of The New Testament Text Iv Wilbur N Pickering Phd, 2022-06-19 There are over 5 000 known Greek manuscripts of the New Testament over half of which are continuous text copies the rest being lectionaries They range in size from a scrap with parts of two verses to complete New Testaments They

range in date from the second century to the sixteenth They come from all over the Mediterranean world They contain several hundred thousand variant readings differences in the text The vast majority of these are misspellings or other obvious errors due to carelessness or ignorance on the part of the copyists such are not proper variant readings and may be ignored However many thousands of variants remain which need to be evaluated as we seek to identify the precise original wording of the Text How best to go about such a project This book seeks to provide an answer *THE P52 PROJECT* Edward D. Andrews, 2020-05-26 What are the churchgoers the Bible college students and seminary students to do when one Bible scholar says one thing and another Bible scholar says something quite different or worse still as is the case with P52 several Bible scholars are saying different dates for the time when the Greek New Testament fragment P52 was written P Papyrus a plant in Egypt the material that was used to make sheets of papyrus paper that were written on by scribes to make copies of Bible books 52 the number assigned to that discovered manuscript What makes it even more unnerving is when one is not an expert in the field of study only having basic knowledge How can they possibly know who is correct Worse still the Christian is put in the embarrassing position on social media of telling an atheist that P52 is dated to 100 150 C E and then the atheist responds to the Christian with no your evidence from 1935 is outdated as recent research points to a date of 200 C E or later What is the Christian to do What will be accomplished here in THE P52 PROJECT can be used at other times when the Christian is faced with two scholars or more offering conflicting conclusions We are going to use the common sense that God gave us and weigh the evidence from both sides We are going to treat THE P52 PROJECT like a criminal trial with P52 being on trial What the churchgoer serious Bible students and seminary students and hopefully all Christians will learn in this short publication concerning P52 will help them in their approach when Bible scholars are offering conflicting information on other issues as well The tiny Greek New Testament manuscript P52 is an invaluable artefact of early Christianity Andrews has made every effort to make this subject easier to understand THE P52 PROJECT is too important to leave it in the hands of textual scholars paleographers and papyrologists **The Text of the New Testament** J. Harold Greenlee, 2008-06-01 The Text of the New Testament is a brief introduction for the lay person into the process whereby the New Testament came to be It describes the basics of ancient writing tools manuscripts the work of scribes and how to think about differences in what the various manuscripts say This is a revised and expanded edition with a completely new chapter on how contemporary English translations fit in with our understanding of the New Testament text Geared to the lay person who is uninformed or confused about textual criticism Greenlee begins this volume by explaining the production of ancient manuscripts He then traces the history of the development of the New Testament text Readers are next introduced to the basic principles of textual criticism the concept of variant readings and how to determine which variant has the greatest likelihood of being the original reading To illustrate the basic principles several sample New Testament texts are examined The book concludes by putting textual criticism in perspective as involving only a minute portion of the entire New Testament text the bulk of which

is indisputably attested by the manuscripts *The Greek Manuscripts of the New Testament at Mount Sinai* Saint Catherine (Monastery : Mount Sinai), William Henry Paine Hatch, 1932 *New Testament Greek manuscripts: Matthew* Reuben J.
