Sambo Sahib Elizabeth Hay,1981-01-01

Sambo Joseph Boskin,1988-09-08

Before the tumultuous events of the 1960 s ended his long life Sambo prevailed in American culture as the cheerful and comical entertainer This stereotypical image of the black male which developed during the Colonial period extended into all regions and classes pervading all levels of popular culture for over two centuries It stands as an outstanding example of how American society has used humor oppressively Joseph Boskin s *Sambo* provides a comprehensive history of this American icon s rise and decline tracing the image of Sambo in circuses and minstrel shows in comic strips and novels in children s stories in advertisements and illustrations in films and slides in magazines and newspapers and in knick knacks found throughout the house He demonstrates how the stereotype began to unravel in the 1930s with several radio series specifically the Jack Benny show which undercut and altered the Sambo image Finally the democratic thrust of World War II coupled with the advent of the Civil Rights movement and growing national recognition of prominent black comedians in the 1950 s and 60 s laid Sambo to rest

Voices of the Other Roderick McGillis,2013-05-13 This book offers a variety of approaches to children s literature from a postcolonial perspective that includes discussions of cultural appropriation race theory pedagogy as a colonialist activity and multiculturalism The eighteen essays divide into three sections Theory Colonialism Postcolonialism The first section sets the theoretical framework for postcolonial studies essays here deal with issues of otherness and cultural difference as well as the colonialist implications of pedagogic practice These essays confront our relationships with the child and childhood as sites for the exertion of our authority and control Section 2 presents discussions of the colonialist mind set in children s and young adult texts from the turn of the century Here works by writers of animal stories in Canada the U S and Britain works of early Australian colonialist literature and Frances Hodgson Burnett s *A Little Princess* come under the scrutiny of our postmodern reading practices Section 3 deals directly with contemporary texts for children that manifest both a postcolonial and a neo colonial content In this section the longest in the book we have studies of children s literature from Canada Australia Africa the Caribbean and the United States

The Book Hunters of Katpadi Pradeep Sebastian,2017-10-20 Neelambari Adigal and her young associate Kayal together run Biblio a one of a kind store of rare books in Chennai specializing in modern Indian first editions The lives of these passionate bookwomen revolve around curious browsers eccentric book collectors private press printers and the occasional thrill of unexpected discoveries of the antiquarian kind On a book collecting trip to Ooty Kayal stumbles upon an incendiary manuscript long thought to be a myth purportedly authored by explorer and translator Sir Richard Francis Burton Almost simultaneously a cache of priceless editions that looks like it could be from the 300 year old library of one of the greatest book collectors the world has ever known turns up at the bookshop When it falls upon the two women to authenticate their finds Neela and Kayal discover quite suddenly that their lives are more full of bibliographic intrigue than they could ever have imagined India s first ever biblio

mystery The Book Hunters of Katpadi is the book every lover of the written word has been waiting for In the tradition of the greatest in the genre it holds within its pages adventure action suspense and the sheer thrill of close encounters with prized print on paper *The Pictus Orbis® Sambo* Phyllis Settecase Barton,1998 *Empire Families* Elizabeth Buettner,2004-07-01 What was life like for the British men women and children who lived in late imperial India while serving the Raj *Empire Families* treats the Raj as a family affair and examines how and why many remained linked with India over several generations Due to the fact that India was never meant for permanent European settlement many families developed deep rooted ties with India while never formally emigrating Their lives were dominated by long periods of residence abroad punctuated by repeated travels between Britain and India childhood overseas followed by separation from parents and education in Britain adult returns to India through careers or marriage furloughs and ultimately retirement in Britain As a result many Britons neither felt themselves to be rooted in India nor felt completely at home when back in Britain Their permanent impermanence led to the creation of distinct social realities and cultural identities *Empire Families* sets out to recreate this society by looking at a series of families their lives in India and their travels back to Britain Focusing for the first time on the experiences of parents and children alike and including the Beveridge Butler Orwell and Kipling families Elizabeth Buettner uncovers the meanings of growing up in the Raj and an itinerant imperial lifestyle *Brown Gold* Michelle Martin,2004-03-01 *Brown Gold* is a compelling history and analysis of African American children s picturebooks from the mid nineteenth century to the present At the turn of the nineteenth century good children s books about black life were hard to find if indeed young black readers and their parents could even gain entry into the bookstores and libraries But today in the Golden Age of African American children s picturebooks one can find a wealth of titles ranging from Happy to be Nappy to Black is Brown is Tan In this book Michelle Martin explores how the genre has evolved from problematic early works such as *Epaminondas* that were rooted in minstrelsy and stereotype through the civil rights movement and onward to contemporary celebrations of blackness She demonstrates the cultural importance of contemporary favorites through keen historical analysis scrutinizing the longevity and proliferation of the *Coontown* series and *Ten Little Niggers* books for example that makes clear how few picturebooks existed in which black children could see themselves and their people positively represented even up until the 1960s Martin also explores how children s authors and illustrators have addressed major issues in black life and history including racism the civil rights movement black feminism major historical figures religion and slavery *Brown Gold* adds new depth to the reader s understanding of African American literature and culture and illuminates how the round dynamic characters in these children s novels novellas and picturebooks can put a face on the past a face with which many contemporary readers can identify ***Black Children in Hollywood Cinema*** Debbie Olson,2017-03-14 This book explores cultural conceptions of the child and the cinematic absence of black children from contemporary Hollywood film Debbie Olson argues that within the discourse of children s studies and film scholarship in

relation to the conception of the child there is often little to no distinction among children by race the child is most often discussed as a universal entity as the embodiment of all things not adult not sexually corrupt Discussions about children of color among scholars often take place within contexts such as crime drugs urbanization poverty or lack of education that tend to reinforce historically stereotypical beliefs about African Americans Olson looks at historical conceptions of childhood within scholarly discourse the child character in popular film and what space the black child both African and African American occupies within that ideal

The Absent-minded Imperialists Bernard Porter, 2004 The British empire was a huge enterprise To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries Its repercussions in the wider world are still with us today It also had a great impact on Britain herself for example on her economy security population and eating habits One might expect this to have been reflected in her society and culture Indeed this has now become the conventional wisdom that Britain was steeped in imperialism domestically which affected or infected almost everything Britons thought felt and did This is the first book to examine this assumption critically against the broader background of contemporary British society Bernard Porter a leading imperial historian argues that the empire had a far lower profile in Britain than it did abroad Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it Between these extremes opinions differed widely over what was even meant by the empire This depended largely on class and even when people were aware of the empire it had no appreciable impact on their thinking about anything else Indeed the influence far more often went the other way with perceptions of the empire being affected or distorted by more powerful domestic discourses Although Britain was an imperial nation in this period she was never a genuine imperial society As well as showing how this was possible Porter also discusses the implications of this attitude for Britain and her empire and for the relationship between culture and imperialism more generally bringing his study up to date by including the case of the present day USA Max Reinhardt J.

Adamson, 2015-12-11 Reinhardt owned The Bodley Head from 1957 to 1987 and smaller publishers like The Nonesuch Press and Reinhardt Books This account of his life contains stories about his authors among them Graham Greene G B Shaw Charlie Chaplin and his actor friends illuminating the trajectory of British publishing in the second half of the twentieth century

The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. VII Marcus Garvey, 1983 Africa for the Africans was the name given in Africa to the extraordinary black social protest movement led by Jamaican Marcus Mosiah Garvey 1887 1940 Volumes I VII of the Marcus Garvey and Universal Negro Improvement Association Papers chronicled the Garvey movement that flourished in the United States during the 1920s Now the long awaited African volumes of this edition Volumes VIII and IX and a forthcoming Volume X demonstrate clearly the central role Africans played in the development of the Garvey phenomenon The African volumes provide the first authoritative account of how Africans transformed Garveyism from an external stimulus into an African social movement They also represent the most extensive

collection of documents ever gathered on the early African nationalism of the inter war period Here is a detailed chronicle of the spread of Garvey s call for African redemption throughout Africa and the repressive colonial responses it engendered Volume VIII begins in 1917 with the little known story of the Pan African commercial schemes that preceded Garveyism and charts the early African reactions to the UNIA Volume IX continues the story documenting the establishment of UNIA chapters throughout Africa and presenting new evidence linking Garveyism and nascent Namibian nationalism **Teaching Children's Fiction** C. Butler,2006-03-20 This book combines the work of nine leading teachers and scholars of children s literature from Europe and North America They explore the various disciplines and perspectives that have contributed to the study of children s literature giving practical classroom suggestions Contains an up to date resources section *Crossing Textual Boundaries in International Children's Literature* Lance Weldy,2011-01-18 As the first part of the title indicates my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well If we believe that no text is an island then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium Not only am I interested in discussing what these changes across boundaries mean socially historically and culturally but also what they mean geographically which accounts for the second part of my title I am very excited that this book will be placing even more emphasis on children s literature in an international scene than my first book did in the sense that I have added more scholars on an international level I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways by either studying abroad or finding permanent residency in foreign countries Nevertheless the writers have lived extensively in or identify as being from Australia Canada England Finland Germany Greece Iceland Ireland Israel Norway Spain Sweden Turkey the United States of America and Wales Introduction *New Literacies and the English Curriculum* Len Unsworth,2011-11-03 In an age where the use of electronic media is expanding and the nature of traditional texts and text based learning is changing new literacies are becoming increasingly important in the school classroom This volume examines how new literacies can be used in the English curriculum and presents a series of research based studies applied to every level of school age education The chapters examine early literacy picture books the internet secondary school English and the problems of assessment in the new literacy age This forward thinking volume will be of interest to teachers and academics researching education literacy applied linguistics and social semiotic theory *When We Were Strolling Players in the East* Louise Jordan Miln,1894 Goodly is Our Heritage Rashna B. Singh,2004 Patterns of sublimation begin in childhood So does binary and hierarchical thinking The child must be trained to see in oppositions and on a scale of order So the story of nation and people race and culture begins as the bedtime story The author How else asks Rashna Singh do we explain the uncanny physical resemblance

between Osama bin Laden and the evil Jaffar of Disney's motion picture Aladdin Singh provides a most persuasive argument for why these sentiments are both insidious and compelling and how they resonate to this day While she includes such classic examples as The Secret Garden Robinson Crusoe and the Babar series it is her inclusion of genuinely neglected fictions that lends her analyses a special richness In an engaging narrative style Singh demonstrates how constructions of character evolve into cultural imprints which encourage their young readers to choose the goodly side with little thought of badly repercussions

Karma Of Brown Folk Vijay Prashad, 2001-03-12 Village Voice Favorite Books of 2000 The popular book challenging the idea of a model minority now in paperback How does it feel to be a problem asked W E B Du Bois of black Americans in his classic The Souls of Black Folk A hundred years later Vijay Prashad asks South Asians How does it feel to be a solution In this kaleidoscopic critique Prashad looks into the complexities faced by the members of a model minority one he claims that is consistently deployed as a weapon in the war against black America On a vast canvas The Karma of Brown Folk attacks the two pillars of the model minority image that South Asians are both inherently successful and pliant and analyzes the ways in which U S immigration policy and American Orientalism have perpetuated these stereotypes Prashad uses irony humor razor sharp criticism personal reflections and historical research to challenge the arguments made by Dinesh D Souza who heralds South Asian success in the U S and to question the quiet accommodation to racism made by many South Asians A look at Deepak Chopra and others whom Prashad terms Godmen shows us how some South Asians exploit the stereotype of inherent spirituality much to the chagrin of other South Asians Following the long engagement of American culture with South Asia Prashad traces India's effect on thinkers like Cotton Mather and Henry David Thoreau Ravi Shankar's influence on John Coltrane and such essential issues as race versus caste and the connection between antiracism activism and anticolonial resistance The Karma of Brown Folk locates the birth of the model minority myth placing it firmly in the context of reaction to the struggle for Black Liberation Prashad reclaims the long history of black and South Asian solidarity discussing joint struggles in the U S the Caribbean South Africa and elsewhere and exposes how these powerful moments of alliance faded from historical memory and were replaced by Indian support for antiblack racism Ultimately Prashad writes not just about South Asians in America but about America itself in the tradition of Tocqueville Du Bois Richard Wright and others He explores the place of collective struggle and multiracial alliances in the transformation of self and community in short how Americans define themselves

The Affect of Difference Christopher P. Hanscom, Dennis Washburn, 2016-05-31 The Affect of Difference is a collection of essays offering a new perspective on the history of race and racial ideologies in modern East Asia Contributors approach this subject through the exploration of everyday culture from a range of academic disciplines each working to show how race was made visible and present as a potential means of identification By analyzing artifacts from diverse media including travelogues records of speech photographs radio broadcasts surgical techniques tattoos anthropometric postcards fiction the popular press film and

soundtracks an archive that chronicles the quotidian experiences of the colonized their essays shed light on the politics of inclusion and exclusion that underpinned Japanese empire One way this volume sets itself apart is in its use of affect as a key analytical category Colonial politics depended heavily on the sentiments and moods aroused by media representations of race and authorities promoted strategies that included the colonized as imperial subjects while simultaneously excluding them on the basis of natural differences Chapters demonstrate how this dynamic operated by showing the close attention of empire to intimate matters including language dress sexuality family and hygiene The focus on affect elucidates the representational logic of both imperialist and racist discourses by providing a way to talk about inequalities that are not clear cut to show gradations of power or shifts in definitions of normality that are otherwise difficult to discern and to present a finely grained perspective on everyday life under racist empire It also alerts us to the subtle often unseen ways in which imperial or racist affects may operate beyond the reach of our methodologies Taken together the essays in this volume bring the case of Japanese empire into comparative proximity with other imperial situations and contribute to a deeper more sophisticated understanding of the role that race has played in East Asian empire
