Tennessee Samplers Jennifer Core, Janet S. Hasson, 2025-07-29 This extensive study nearly twenty years in the making is a major contribution to the understanding of American textile material culture Candace J Adelson Senior Curator of Fashion and Textiles Emeritus Tennessee State Museum Containing dozens of beautiful full color photographs Jennifer C Core and Janet S Hasson s study of samplers embroideries that are first attempts at a new technique color combination or unusual material provides vivid descriptions of this nineteenth century Tennessee art form in its many varieties The authors not only catalogue and describe samplers from each of Tennessee s major regions West Middle and East but also incorporate research on the sampler makers and their families This research provides fascinating insight into the stitchers their teachers and their academies Including a chapter on female education on the Tennessee frontier and another on embroideries and needlework focused on mourning the volume draws on oral histories of the embroiderers descendants family Bibles diaries scrapbooks cemetery records and other primary sources Photos of the samplers are accompanied by detailed descriptions of styles thread count materials used frames and motifs Ultimately the study provides a glimpse of the lives of girls and young women in nineteenth century Tennessee including the role of this ornamental art in their education Providing important historical context on Tennessee education economy and domestic life Core and Hasson describe how embroidery came to be a crucial primary source in revealing the lives of girls and young women during a time when little was recorded about them This book is an authoritative record of the material culture produced in the daily routine of school rooms It is for all who see beauty in sometimes overlooked handiwork and understand the importance of curating preserving and analyzing it A

Stitch in Time Aimee E. Newell, 2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785 1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was w rough t on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women s history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these

samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Quilters Guild of Dallas Helena Hibbs Endowment Fund **Piecework** ,2000 Stitching the World: Embroidered Maps and Women's Geographical Education Judith A. Tyner,2016-12-05 From the late eighteenth century until about 1840 schoolgirls in the British Isles and the United States created embroidered map samplers and even silk globes Hundreds of British maps were made and although American examples are more rare they form a significant collection of artefacts Descriptions of these samplers stated that they were designed to teach needlework and geography The focus of this book is not on stitches and techniques used in drafting the maps but rather why they were developed how they diffused from the British Isles to the United States and why they were made for such a brief time The events of the late eighteenth and early nineteenth centuries stimulated an explosion of interest in geography The American and French Revolutions the wars between France and England the War of 1812 Captain Cook's voyages and the explorations of Lewis and Clark made the study of places exciting and important Geography was the first science taught to girls in school This period also coincided with major changes in educational theories and practices especially for girls and this book uses needlework maps and globes to chart a broader discussion of women's geographic education In this light map samplers and embroidered globes represent a transition in women's education from accomplishments in the eighteenth century to challenging geographic education and conventional map drawing in schools and academies of the second half of the nineteenth century There has been little serious study of these maps by cartographers and moreover historians of cartography have largely neglected the role of women in mapping Children's maps have not been studied although they might have much to offer about geographical teaching and perceptions of a period and map samplers have been dismissed because they are the work of schoolgirls Needlework historians likewise have not done in depth studies of map samplers until recently Stitching the World is an interdisciplinary work drawing on cartography needlework and material culture This book for the first time provides a critical analysis of these artefacts showing that they offer significant insights into both eighteenth and nineteenth century geographic thought and cartography in the USA and the UK and into the development of female education **Subject Guide to Books in Print** ,1996 **Sampler and Antique Needlework** Darlene O'Steen,1996-06-01 **The Pocket** Barbara Burman,Ariane Fennetaux,2020-04-24 A New York Times Best Art Book of 2019 A riveting book few stones are left unturned Roberta Smith's Top Art Books of 2019 The New York Times This fascinating and enlightening study of the tie on pocket combines materiality and gender to provide new insight into the social history of women's everyday lives from duchesses and country gentry to prostitutes and washerwomen and to explore their consumption practices sociability mobility privacy and identity A wealth of evidence reveals unexpected facets of the past bringing women's stories into intimate focus What particularly interests

Dress Culture in Late Victorian Women's Fiction Christine Bayles Kortsch,2016-05-13 In her immensely readable and richly documented book Christine Bayles Kortsch asks us to shift our understanding of late Victorian literary culture by examining its inextricable relationship with the material culture of dress and sewing Even as the Education Acts of 1870 1880 and 1891 extended the privilege of print literacy to greater numbers of the populace stitching samplers continued to be a way of acculturating girls in both print literacy and what Kortsch terms dress culture Kortsch explores nineteenth century women s education sewing and needlework mainstream fashion alternative dress movements working class labor in the

textile industry and forms of social activism showing how dual literacy in dress and print cultures linked women writers with their readers Focusing on Victorian novels written between 1870 and 1900 Kortsch examines fiction by writers such as Olive Schreiner Ella Hepworth Dixon Margaret Oliphant Sarah Grand and Gertrude Dix with attention to influential predecessors like Elizabeth Gaskell Charlotte Bront and George Eliot Periodicals with their juxtaposition of journalism fiction and articles on dress and sewing are particularly fertile sites for exploring the close linkages between print and dress cultures Informed by her examinations of costume collections in British and American museums Kortsch's book broadens our view of New Woman fiction and its relationship both to dress culture and to contemporary women's fiction [Cross Stitch Collection January 2015](#) Magazines Global, Cross Stitch Collection January 2015
