Samuel Butler An Annotated Secondary Bibliography:

Samuel Butler Hans-Peter Breuer, Roger Parsell, 1990 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company *Annotation in Eighteenth-Century Poetry* Michael Edson, 2017-10-18 Recent years have witnessed a growing fascination with the printed annotations accompanying eighteenth century texts Previous studies of annotation have revealed the margins as dynamic textual spaces both shaping and shaped by diverse aesthetic historical and political sensibilities Yet previous studies have also been restricted to notes by or for canonical figures they have neglected annotation's relation to developments in reading audiences and the book trade and they have overlooked the interaction even tension between prose notes and poetry a tension reflecting eighteenth century views of poetry as aesthetically superior to prose *Annotation in Eighteenth Century Poetry* addresses these oversights through a substantial introduction and eleven essays analyzing the printed endnotes and footnotes accompanying poems written or annotated between 1700 and 1830 Drawing on methods and critical developments in book history and print culture studies this collection explores the functions that annotation performed on and through the printed page By analyzing the annotation specific to poetry these essays clarify the functions of notes among the other paratexts including illustrations by which scholars have mapped poetry's relation to the expanding book trade and the class specific production of different formats Because the reading and writing of poetry boasted social and pedagogical functions that predate the rise of the note as a print technology studying the relation of notes to poetry also reveals how the evolving layout of the eighteenth century book wrought significant changes not only on reading practices and reception but on the techniques that booksellers used to make new poems steady sellers and antiquarian discoveries legible to new readers Above all analyzing notes in poetry volumes contributes to larger inquiries into canon formation and the rise of literary studies as a discipline in the eighteenth century

The Historical Jesus and the Literary Imagination, 1860-1920 Jennifer Stevens, 2010-01-01 A PDF version of this book is available for free in open access via the OAPEN Library platform www.oapen.org Fictional reconstructions of the Gospels continue to find a place in contemporary literature and in the popular imagination Present day writers of New Testament fiction and drama are usually considered as part of a tradition formed by mid to late twentieth century authors such as Robert Graves Nikos Kazantzakis and Anthony Burgess This book looks back further to the late nineteenth and early twentieth centuries when the templates of

the majority of today's Gospel fictions and dramas were set down. In doing so it examines the extent to which significant works of biblical scholarship both influenced and inspired literary works. Focusing on writers such as Oscar Wilde, George Moore and Marie Corelli, this timely new addition to the English Association Monographs series will be essential reading for scholars working at the intersection of literature and theology. *English Fiction in Transition, 1880-1920*, 1960 *Literary Terms* Karl E. Benevolent readers are requested to signal the names of bibliographers and historians from countries not mentioned above who would be willing to co-operate to this scheme of international bibliographic collaboration. The editor will greatly appreciate any communication on this matter. Subject As has been said in the introduction to the previous volumes, this bibliography aims at recording all books and articles of scholarly value which relate to the history of the printed book, to the history of the arts, crafts, techniques and equipment and of the economic, social and cultural environment involved in its production, distribution, conservation and description. Of course the ideal of a complete coverage is nearly impossible to attain.
