**Ritual Violence and the Maternal in the British Novel, 1740-1820** Raymond F. Hilliard, 2010 This challenging book brings to light a mythic dimension of seventeen important eighteenth and early nineteenth century narratives that revolve around the persecution of one or more important female characters and offers original reading of novels by Richardson Fielding Burney Radcliffe Godwin Austen Scott and others The myth in question which Raymond Hilliard calls the myth of persecution and reparation serves as a major vehicle for the early novel's preoccupation with the mother a mythic figure distinct from the historical mother or from the mother as she is represented in eighteenth and early nineteenth century maternal ideology Hilliard argues that the myth of persecution and reparation derives from the topos of female sacrifice in the romance tradition and shows that this topos is central to several kinds of novels realist Gothic Jacobin feminist and historical Hilliard contends that the narrative of persecution and reparation anticipates the twentieth century maternal myth associated with the work of Melanie Klein and other relational model psychoanalytic theorists and he thus also examines the psychosexual significance of the mother Hilliard explores the relation of psychosexual themes to social representations and delineates a

Wallace, 2023-12-15 In this timely collection teacher scholars of the long eighteenth century a Eurocentric time frame from about 1680 to 1832 consider what teaching means in this historical moment one of attacks on education a global contagion and a reckoning with centuries of trauma experienced by Black Indigenous and immigrant peoples Taking up this challenge each essay highlights the intellectual labor of the classroom linking textual and cultural materials that fascinate us as researchers with pedagogical approaches that engage contemporary students Some essays offer practical models for teaching through editing sensory experience dialogue or collaborative projects Others reframe familiar texts and topics through contemporary approaches such as the health humanities disability studies and decolonial teaching Throughout authors reflect on what it is that we do when we teach how our pedagogies can be more meaningful more impactful and more relevant Published by Bucknell University Press Distributed worldwide by Rutgers University Press **Writing the Reader** Dorothee Birke, 2016-08-08 The history of the novel is also a history of shifting views of the value of novel reading This study investigates how novels themselves participate in this development by featuring reading as a multidimensional cultural practice English novels about obsessive reading written in times of medial transition serve as test cases for a model that brings together analyses of form and content

*Anti-Pamela and Shamela* Eliza Haywood, Henry Fielding, 2004-01-29 Published together for the first time Eliza Haywood's *Anti Pamela* and Henry Fielding's *An Apology for the Life of Mrs Shamela Andrews* are the two most important responses to Samuel Richardson's novel *Pamela* *Anti Pamela* comments on Richardson's representations of work virtue and gender while also questioning the generic expectations of the novel that *Pamela* establishes and it provides a vivid portrayal of the material realities of life for a woman in eighteenth century London Fielding's *Shamela* punctures both the figure Richardson established for himself as an author and *Pamela*'s preoccupation with virtue This Broadview edition also includes a rich selection of historical materials including writings from the period on sexuality women's work *Pamela* and the print trade and education and conduct **The Oxford Handbook of the Victorian Novel** Lisa Rodensky, 2013-07-11 Much has been written about the Victorian novel and for good reason The cultural power it exerted and to some extent still exerts is beyond question The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics the novel and science the Victorian Bildungsroman as well as essays on topics often overlooked the novel and classics the novel and the OED the novel and allusion Manifesting the increasing interdisciplinarity of Victorian studies its essays situate the novel within a complex network of relations among for instance readers editors reviewers and the novelists themselves or among different cultural pressures the religious the commercial the legal The handbook's essays also build on recent bibliographic work of remarkable scope and detail responding to the growing attention to print culture

With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars beginning with Peter Garside's examination of the early nineteenth century novel and ending with two essays proposing the last Victorian novel the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research. Balancing breadth and depth the clearly written nonjargon laden essays provide readers with overviews as well as original scholarship an approach which will serve advanced undergraduates graduate students and established scholars. As the Victorians get further away from us our versions of their culture and its novel inevitably change this Handbook offers fresh explorations of the novel that teach us about this genre its culture and by extension our own.

**A Natural History of the Romance Novel** Pamela Regis, 2013-08-31 The romance novel has the strange distinction of being the most popular but least respected of literary genres. While it remains consistently dominant in bookstores and on best seller lists it is also widely dismissed by the critical community. Scholars have alleged that romance novels help create subservient readers who are largely women by confining heroines to stories that ignore issues other than love and marriage. Pamela Regis argues that such critical studies fail to take into consideration the personal choice of readers offer any true definition of the romance novel or discuss the nature and scope of the genre. Presenting the counterclaim that the romance novel does not enslave women but on the contrary is about celebrating freedom and joy Regis offers a definition that provides critics with an expanded vocabulary for discussing a genre that is both classic and contemporary sexy and entertaining. Taking the stance that the popular romance novel is a work of literature with a brilliant pedigree Regis asserts that it is also a very old stable form. She traces the literary history of the romance novel from canonical works such as Richardson's *Pamela* through Austen's *Pride and Prejudice* Brontë's *Jane Eyre* and E. M. Hull's *The Sheik* and then turns to more contemporary works such as the novels of Georgette Heyer Mary Stewart Janet Dailey Jayne Ann Krentz and Nora Roberts.

**City and State** Herbert Welsh, 1901

**Novel Relations** Ruth Perry, 2004-08-05 Ruth Perry describes the transformation of the English family as a function of several major social changes taking place in the eighteenth century including the development of a market economy and waged labor enclosure and the redistribution of land urbanization the rise of the middle class and the development of print culture. In particular Perry traces the shift from a kinship orientation based on blood relations to a kinship axis constituted by conjugal ties as it is revealed in popular literature of the second half of the eighteenth century. Perry focuses particularly on the effect these changes had on women's position in families. She uses social history literary analysis and anthropological kinship theory to examine texts by Samuel Richardson Charlotte Lennox Henry MacKenzie Frances Burney Jane Austen and many others. This important study by a leading eighteenth century scholar will be of interest to social and literary historians.
