Samyutta Nikaya Vol 1 New Ed:

Healing with Death Imagery Anees Ahmad Sheikh, Katharina Sheikh, 2018-10-26 Sages of various traditions and ages have reiterated that we must incorporate the inevitability of death into the fabric of life to experience life's breadth and beauty. Imagery is an important tool in dealing with death, and this book is devoted to exploring many facets of this fascinating issue. It begins with an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes, including a discussion of its possible benefits. Chapter 2 specifically explores Stephen Levine's contributions in this area, showing that only by opening up to the reality of death can one make living a conscious process of growth. A number of excellent imagery-based experiential exercises are discussed in detail. Chapter 3 demonstrates the significance of confronting death through mental and artistic images, discussing six examples of death-related religious and existential works of art. Recently, there has been an upsurge of interest in near-death experiences and their salutary effects on attitudes, beliefs, and values. Of particular interest here are increases in spirituality, concern for others, an appreciation of life, and an enhanced sense of meaning and purpose in life. Chapter 4 presents a detailed critical overview of this field of investigation, with special emphasis on the transformatory after-effects of near-death experiences. Of all the major religions in the world, Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death. Chapter 5 presents an in-depth treatment of death imagery in Buddhist thought. Exploring the use of hypnosis for death rehearsal, Chapter 6 continues the theme that confrontation with death can lead to healthful consequences. A variation of this technique, hypnotic suicidal rehearsal, is also discussed; it seems to be effective for use with clients who are contemplating suicide. Case examples clarify the details of the process. Over the years, several clinicians have proposed the use of imagery for reconstructing death-related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving. Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving, including a number of case histories. Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death-related topic. Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena. The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence. In Chapter 9, the authors explain how death imagery can be used constructively in death education; they present several practical suggestions and specific guided imagery exercises. The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life. The reader will notice this thread running steadily throughout the book. This comprehensive book, devoted to the role of death imagery in health and growth, perhaps the first of its kind, will be helpful in changing the rather sinister view of death prevalent in our culture to a deeper appreciation for its enhancing potential.

Asceticism and Its Critics Oliver Freiberger, 2006-10-19 Scholars of religion have always been fascinated by asceticism Some have even regarded this radical way of life the withdrawal from the world combined with practices that seriously affect basic bodily needs up to extreme forms of self mortification as the ultimate form of a true religious quest This view is rooted in hagiographic descriptions of prominent ascetics and in other literary accounts that praise the ascetic life style Scholars have often overlooked however that in the history of religions ascetic beliefs and practices have also been strongly criticized by followers of the same religious tradition as well as by outsiders The respective sources provide sufficient evidence of such critical strands but surprisingly as yet no attempt has been made to analyze this criticism of asceticism systematically This book is a first attempt of filling this gap Ten studies present cases from both Asian and European traditions classical and medieval Hinduism early and contemporary Buddhism in South and East Asia European antiquity early and medieval Christianity and 19th 20th century Aryan religion Focusing on the critics of asceticism their motives their arguments and the targets of their critique these studies provide a broad range of issues for comparison They suggest that the critique of asceticism is based on a worldview differing from and competing with the ascetic worldview often in one and the same historical context The book demonstrates that examining the critics of asceticism helps understand better the complexity of religious traditions and their cultural contexts The comparative analysis moreover shows that the criticism of asceticism reflects a religious worldview as significant and widespread in the history of religions as asceticism itself is

Buddhism and International Humanitarian Law Andrew Bartles-Smith, Kate Crosby, Peter Harvey, Asanga Tilakaratne, Daniel

Ratheiser, Noel Maurer Trew, Stefania Travagnin, Elizabeth J. Harris, Mahinda Deegalle, Christina A. Kilby, 2023-09-20 What guidance can Buddhism provide to those involved in armed conflict and to belligerents who must perhaps kill or be killed or defend their families communities or countries from attack How moreover does Buddhism compare with international humanitarian law IHL otherwise known as the law of armed conflict which protects non combatants and restricts the means and methods of warfare to limit the suffering it causes Despite the prevalence of armed conflict in parts of the Buddhist world few contemporary studies have addressed these questions While there is a wealth of material on Buddhist conflict prevention and resolution remarkably little attention has been paid to what Buddhism says about the actual conduct of war IHL is also still relatively little known in the Buddhist world and might not therefore influence the behaviour of belligerents who self identify as Buddhists and are perhaps more likely to be guided by Buddhist principles This ground breaking volume is part of an International Committee of the Red Cross project which seeks to fill this gap by exploring correspondences between Buddhist and IHL principles and by identifying Buddhist resources to improve compliance with IHL and equivalent Buddhist or humanitarian norms This book will be of much interest to students and researchers of International Law Buddhism Ethics as well as War and Conflict studies The chapters in this book were originally published as a special issue of Contemporary Buddhism The Open Access version of this book available at <https://www.taylorfrancis.com/books/oa-edit/10.4324/9781003439820/buddhism-international-humanitarian-law> andrew bartles smith kate crosby peter harvey asanga tilakaratne daniel ratheiser noel maurer trew stefania travagnin elizabeth harris mahinda deegalle christina kilby has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license A version of the open access title is also available on the OAPEN platform <https://library.oapen.org/handle/20.500.12657/75921>

Buddhist Warfare Michael Jerryson, Mark Juergensmeyer, 2010-01-08 Though traditionally regarded as a peaceful religion Buddhism has a dark side On multiple occasions over the past fifteen centuries Buddhist leaders have sanctioned violence and even war The eight essays in this book focus on a variety of Buddhist traditions from antiquity to the present and show that Buddhist organizations have used religious images and rhetoric to support military conquest throughout history Buddhist soldiers in sixth century China were given the illustrious status of Bodhisattva after killing their adversaries In seventeenth century Tibet the Fifth Dalai Lama endorsed a Mongol ruler s killing of his rivals And in modern day Thailand Buddhist soldiers carry out their duties undercover as fully ordained monks armed with guns *Buddhist Warfare* demonstrates that the discourse on religion and violence usually applied to Judaism Islam and Christianity can no longer exclude Buddhist traditions The book examines Buddhist military action in Tibet China Korea Japan Mongolia Sri Lanka and Thailand and shows that even the most unlikely and allegedly pacifist religious traditions are susceptible to the violent tendencies of man

Ties That Bind Reiko Ohnuma, 2012-07-12 Reiko Ohnuma offers a wide ranging exploration of maternal imagery and

discourse in pre modern South Asian Buddhism drawing on textual sources preserved in Pali and Sanskrit She demonstrates that Buddhism in India had a complex and ambivalent relationship with mothers and motherhood symbolically affectively and institutionally Symbolically motherhood was a double edged sword sometimes extolled as the most appropriate symbol for buddhahood itself and sometimes denigrated as the most paradigmatic manifestation possible of attachment and suffering On an affective level too motherhood was viewed with the same ambivalence in Buddhist literature warm feelings of love and gratitude for the mother s nurturance and care frequently mingle with submerged feelings of hostility and resentment for the unbreakable obligations thus created and positive images of self sacrificing mothers are counterbalanced by horrific depictions of mothers who kill and devour Institutionally the formal definition of the Buddhist renunciant as one who has severed all familial ties seems to co exist uneasily with an abundance of historical evidence demonstrating monks and nuns continuing concern for their mothers as well as other familial entanglements Ohnuma s study provides critical insight into Buddhist depictions of maternal love and maternal grief the role played by the Buddha s own mothers Maya and Mahaprajapati the use of pregnancy and gestation as metaphors for the attainment of enlightenment the use of breastfeeding as a metaphor for the compassionate deeds of buddhas and bodhisattvas and the relationship between Buddhism and motherhood as it actually existed in day to day life
