Croteau-Chonka,2019-06-28 Global Health and Volunteering A Guide for Healthcare Professionals is designed to educate volunteers to be effective partners in delivering medical services locally and globally Healthcare professionals are increasingly interested in global health and volunteering in areas of acute need The biggest challenge to health in many locales is the inability to access the health care system When people do connect with medical services medications and

surgical opportunities for chronic disease i e glaucoma diabetes or hypertension are often not affordable or cannot be sustained for a long period of time The contributions in this book focus on a respectful dialog with local people and a willingness to learn from new experiences on the part of the volunteer Skills transfer from visiting personnel to local providers is featured as a means to enhance healthcare sustainability An appreciation of differing cultures an understanding of the local economic conditions and challenges and strategies for collaborating with the existing medical establishment are foundations of successful volunteer experiences as highlighted in this book Dimensions of global health such as professionalism religious beliefs ethical dilemmas traditional medicine and alternative strategies for service are addressed by experts Written and edited by leaders in the field many of whom have more than two decades of experience volunteering abroad **Global Health and Volunteering A Guide for Healthcare Professionals** imparts lessons learned to help the reader avoid initial mistakes while making the global health commitment stronger

The Alternatives to War James Pattison, 2018-06-03 If states are not to go to war what should they do instead In **The Alternatives to War** James Pattison considers the case for the alternatives to military action to address mass atrocities and aggression The volume examines the normative issues raised by measures ranging from comprehensive economic sanctions diplomacy and positive incentives to criminal prosecutions nonviolent resistance accepting refugees and arming rebels For instance given the indiscriminateness of many sanctions regimes are sanctions any better than war Should states avoid megaphone diplomacy and adopt more subtle measures What if anything can nonviolent methods such as civilian defence and civilian peacekeeping do in the face of a ruthless opponent Is it a serious concern that positive incentives can appear to reward aggressors Overall Pattison provides a comprehensive account of the ethics of the alternatives to war In doing so he argues that the case for war is weaker and the case for many of the alternatives is stronger than commonly thought The upshot is that when reacting to mass atrocities and aggression states are generally required to pursue the alternatives to war rather than military action The volume concludes that this has significant implications for pacifism just war theory and the responsibility to protect doctrine

Vigilantes Beyond Borders Mette Eilstrup-Sangiovanni, J. C. Sharman, 2022-04-05 How and why NGOs are increasingly taking independent and direct action in global law enforcement from human rights to the environment Nongovernmental organizations NGOs have generally served as advocates and service providers leaving enforcement to states Now NGOs are increasingly acting as private police prosecutors and intelligence agencies in enforcing international law NGOs today can be found investigating and gathering evidence suing and prosecuting governments companies and individuals and even catching lawbreakers red handed Examining this trend **Vigilantes beyond Borders** considers why some transnational groups have opted to become enforcers of international law regarding such issues as human rights the environment and corruption while others have not

Three factors explain the rise of vigilante enforcement demand supply and competition Governments commit to more international laws but do a poor job of policing them leaving a gap and creating demand Legal and technological changes make it easier for nonstate actors to supply enforcement as in the instances of NGOs that have standing to use domestic and international courts or smaller NGOs that employ satellite imagery big data analysis and forensic computing As the growing number of NGOs vie for limited funding and media attention smaller more marginal groups often adopt radical strategies like enforcement Looking at the workings of major organizations including Amnesty International Greenpeace and Transparency International as well as smaller players such as Global Witness the Sea Shepherd Conservation Society and Bellingcat Vigilantes beyond Borders explores the causes and consequences of a novel provocative approach to global governance
