Sane Living in the Modern World Robert David Rodale, 1973-03-06 **Modern World**, 1926 *The Church and Modern Life* Washington Gladden, 2020-07-17 Reproduction of the original *The Church and Modern Life* by Washington Gladden *A Life of Walt Whitman*, **Living Like A Lamb Among 21st Century Wolves** Paul Estabrooks, 2023-02-17
Paul Estabrooks *Living Like A Lamb Among 21st Century Wolves* Balancing Grace and Truth in a day when the polar opposite world views are endlessly hostile confrontational and seemingly intent on eliminating each other from public dialogue and discourse of each s particular views of life this is a book on how we Christians should respond to our current world dilemmas as well as to each other with grace and truth Carefully and skillfully handling Scripture culture and history Paul Estabrooks lays out a map for all Christians on how to maintain a grace filled approach to what are clearly wolves intent on Christian destruction and silence while sharing the stories of persecuted Christians elsewhere who exemplify being overcomers

Making Marriage Modern Christina Simmons, 2009-04-10 The nineteenth century middle class ideal of the married woman was of a chaste and diligent wife focused on being a loving mother with few needs or rights of her own The modern woman by contrast was partner to a new model of marriage one in which she and her husband formed a relationship based on greater sexual and psychological equality In *Making Marriage Modern* Christina Simmons narrates the development of this new companionate marriage ideal which took hold in the early twentieth century and prevailed in American society by the 1940s The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers who advocated for a scientific but conservative sex education to combat prostitution and venereal disease A more radical group of feminists anarchists and bohemians opposed the Victorian model of marriage and even the institution of marriage Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women s rights to acquire and use effective contraception The companionate marriage emerged from these efforts This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women use of birth control to create smaller families and destigmatization of divorce in cases of failed unions Simmons examines what she calls the flapper marriage in which free spirited young wives enjoyed the early years of marriage postponing children and domesticity She looks at the feminist marriage in which women imagined greater equality between the sexes in domestic and paid work and sex And she explores the African American partnership marriage which often included wives employment and drew more heavily on the involvement of the community and extended family Finally she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period Though male dominance persisted in companionate marriages Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality By raising women s expectations of marriage the companionate ideal also contained within it the seeds of second wave feminists demands for transforming the institution into one of true equality between the sexes **A Life of**

Walt Whitman Henry Bryan Binns,1905 Nietzsche in the Nineteenth Century Robert C. Holub,2018-06-15 Friedrich Nietzsche is often depicted in popular and scholarly discourse as a lonely philosopher dealing with abstract concerns unconnected to the intellectual debates of his time and place Robert C Holub counters this narrative arguing that Nietzsche was very well attuned to the events and issues of his era and responded to them frequently in his writings Organized around nine important questions circulating in Europe at the time in the realms of politics society and science Nietzsche in the Nineteenth Century presents a thorough investigation of Nietzsche s familiarity with contemporary life his contact with and comments on these various questions and the sources from which he gathered his knowledge Holub begins his analysis with Nietzsche s views on education nationhood and the working class movement turns to questions of women and women s emancipation colonialism and Jews and Judaism and looks at Nietzsche s dealings with evolutionary biology cosmological theories and the new science of eugenics He shows how Nietzsche although infrequently read during his lifetime formulated his thought in an ongoing dialogue with the concerns of his contemporaries and how his philosophy can be conceived as a contribution to the debates taking place in the nineteenth century Throughout his examination Holub finds that against conventional wisdom Nietzsche was only indirectly in conversation with the modern philosophical tradition from Descartes through German idealism and that the books and individuals central to his development were more obscure writers most of whom have long since been forgotten This book thus sheds light on Nietzsche s thought as enmeshed in a web of nineteenth century discourses and offers new insights into his interactive method of engaging with the philosophical universe of his time
