Decker,Mitzi Kirkland-Ives,2021-09-09 Early modern audiences readerships and viewerships were not homogenous Differences in status education language wealth and experience to name only a few variables could influence how a group of people or a particular person received and made sense of sermons public proclamations dramatic and musical performances images objects and spaces The ways in which each of these were framed and executed could have a serious impact on their relevance and effectiveness The chapters in this volume explore the ways in which authors poets artists preachers theologians playwrights and performers took account of and encoded pluriform potential audiences readers and viewers in their works and how these varied parties encountered and responded to these works The contributors here investigate these complex interactions through a variety of critical and methodological lenses *An Elizabethan journal (A second Elizabethan journal, A last Elizabethan journal). Being a record of those things most talked of during the years 1591-1594 (1595-1598, 1599-1603.).* George Bagshawe Harrison,1928 **Investigating Gunpowder Plot** Mark Nicholls,1991 This book takes a fresh look at the most famous treason case in English history a complex tale of treachery suspicion rebellion and retribution The author shows how starting with the most slender of leads the Jacobean government

built up a full picture of the conspiracy and tracked down the guilty men and brought them to justice The story does not end with the bloody executions of Guy Fawkes and his fellow conspirators in 1606 For the first time in a book on the Gunpowder treason the author investigates in depth the role in the plot played by the ninth earl of Northumberland seen by many as the plotters logical choice for a protector of the realm after blast who was imprisoned in the Tower for sixteen years on suspicion of complicity By examining the earl s political career in the years around 1605 the author shows how the government investigations though shedding much light on the plot never revealed the whole truth The author cuts through the distortions of centuries of political and religious propaganda to explain the real motives of the Gunpowder plotters The author disposes of the conspiracy theory which holds that the king s chief minister Robert Cecil Earl of Salisbury framed the conspirators for his own political purposes and sheds considerable light on the workings of early Jacobean government particularly the privy council This book should appeal to anyone interested in English history as well as historians and students of seventeenth century England
