The Chalet School Books and the Twentieth Century Miles Booy, 2025-06-17 The first full length study of this beloved children's series The Chalet School in the Twentieth Century moves beyond the largely generic analysis within which it has previously been discussed Published between 1925 and 1970 the series moves from European reconciliation after the Great War through a second global conflict to a post war world increasingly defined by increased secularity and emerging consumerism Reproducing cover illustrations Miles Booy's book examines both those issues which author Elinor M Brent Dyer consciously explored such as the exceptional The Chalet School in Exile which she sought to explain the Nazi occupation of Austria to her young readers and those aspects of the text which must be read symptomatically This is a book which will engage students with historical and cultural interests beyond children's literature With barely a midnight feast in sight but much anxiety about social change it's a familiar genre but not as you think you know it Hurry up new girls class is about to begin
