The Second Battlefield Angela K. Smith, 2000 This book investigates the connection between women's writing about WWI and the development of literary modernisms focusing on issues of gender which remain topical today Drawing on a wealth of unpublished diaries and letters the book examines the way in which the new roles undertaken by women triggered a search for new forms of expression Blending literary criticism and history the book contributes to the scholarship of women and expands our definition of modernisms

The Second Battlefield Angela K. Smith, 2000 Explores written representations of First World War experience produced by a variety of different women Drawing on a wealth of unpublished material in the form of diaries and letters the book examines the way in which the variety of new roles undertaken by women triggered a search conscious or otherwise for appropriate new forms of expression Through the twin approaches of literary criticism and historical exploration the book contributes an important new strand to the scholarship of women and war Expands current notions of how modernisms should be defined This volume compliments Angela K Smith's 1999 publication Women's writing of the First World War An anthology MUP

The Short Story and the First World War Ann-Marie Einhaus, 2013-07-31 Covering a range of topics settings and styles the book offers the first comprehensive study of short fiction from the First World War

Contact Zones of the First World War Anna Maguire, 2021-08-26 This is the first in depth and comparative study of the experience of colonial encounters for troops from the British Empire during the First World War Drawing on a rich variety of textual and visual material Anna Maguire explores new contact zones that materialised beyond the battlefield on troopships in ports in military camps and hospitals in cafes and city streets She reveals how the colonial mobilisation of troops during the conflict prompted the emergence of spaces for interactions fleeting moments or ongoing relationships Through their personal experiences she uncovers how men from New Zealand South Africa and the West Indies viewed themselves and their identities during a time of global conflict simultaneously asserting the strength of the existing colonial order and challenging its enactment through contact conflict and collaboration In spaces away from the frontlines Maguire uses these cultural encounters of colonial troops to offer a more intricate understanding of imperial power relations

Touch and Intimacy in First World War Literature Santanu Das, 2006-04-06 The First World War ravaged the male body on an unprecedented scale yet fostered moments of physical intimacy and tenderness among the soldiers in the trenches Touch the most elusive and private of the senses became central to war experience War writing is haunted by experiences of physical contact from the muddy realities of the front to the emotional intensity of trench life to the traumatic obsession with the wounded body in nurses memoirs Through extensive archival and historical research analysing previously unknown letters and diaries alongside literary writings by figures such as Owen and Brittain Santanu Das recovers the sensuous world of the First World War trenches and hospitals This original and evocative study alters our understanding of the period as well as of the body at war and illuminates the perilous intimacy between sense experience emotion and

language as we try to make meaning in times of crisis Handbook of British Literature and Culture of the First World War Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War **Words and the First World War** Julian Walker, 2017-12-28 An illustrated analytical study Words and the First World War considers the situation at home at war and under categories such as race gender and class to give a many sided picture of language used during the conflict The Spectator First World War expert Julian Walker looks at how the conflict shaped English and its relationship with other languages He considers language in relation to mediation and authenticity as well as the limitations and potential of different kinds of verbal communication Walker also examines How language changed and why changed language was used in communications Language used at the Front and how the language of the war was commercially exploited on the Home Front The relationship between language soldiers and class The idea of the indescribability of the war and the linguistic codes used to convey the experience Languages of the front became linguistic souvenirs of the war abandoned by soldiers but taken up by academics memoir writers and commentators leaving an indelible mark on the words we use even today *Veiled Warriors* Christine E. Hallett, 2014 The true story of Allied nursing in the First World War offering a compelling account of nurses wartime experiences and a clear appraisal of their work and its contribution to the Allied cause **Philanthropy and Voluntary Action in the First World War** Peter Grant, 2014-02-18 This book challenges scholarship which presents charity and voluntary activity during World War I as marking a downturn from the high point of the late Victorian period Charitable donations rose to an all time peak and the scope and nature of charitable work shifted decisively Far more working class activists especially women became involved although there were significant differences between the suburban south and industrial north of England and Scotland The book also corrects the idea that charitably minded civilians efforts alienated the men at the front in contrast to the degree of negativity that surrounds much previous work on voluntary action in this period Far from there being an unbridgeable gap in understanding or empathy between soldiers and civilians the links were strong and charitable contributions were enormously important in maintaining troop morale This bond significantly contributed to the development and maintenance of social

capital in Britain which in turn strongly supported the war effort This work draws on previously unused primary sources notably those regarding the developing role of the UK's Director General of Voluntary Organizations and the regulatory legislation of the period

Place and Practice in Canadian Nursing History Jayne Elliott, Meryn Stuart, Cynthia Toman, 2009-05-01 The close association between nurses and hospitals obscures the diversity and complexity of nursing work in other contexts This collection looks at nurses and nursing in a wide range of settings from the mid 1800s to the 1970s including indigenous women on the Canadian prairies First World War nurses posted overseas outpost nurses in rural and remote areas of Saskatchewan Ontario and Quebec public health nurses in Winnipeg and religious congregations in nursing education in New Brunswick The contributors use feminist and historical perspectives to illustrate how place understood as both social context and geographic setting shaped nursing identities and practices Many nurses found place both liberating and constraining often simultaneously Paying attention to place also situates these nurses and their work within larger historical themes of nation building war and political change

Women's Writing of the First World War Emma Liggins, Elizabeth Nolan, 2019-04-10 The First World War was a transformative experience for women facilitating their entry into new spaces and alternative spheres of activity both on the home front and on the edges of danger zones in Europe and beyond The centenary of the conflict is an appropriate moment to reassess what we choose to remember about women's roles and responsibilities in this period and how women recorded their experiences It is timely to reconsider the narratives of women's involvement not only as nurses VADs and mourning mothers but as pacifist campaigners poets war correspondents and contributors to developing genres of war writing This interdisciplinary volume examines women's representations of wartime experience across a wide range of genres including modernist fiction ghost stories utopia poetry life writing and journalism Contributors provide fresh perspectives on women's written responses to the conflict exploring women's war work constructions of femininity and the maternal in wartime and the relationship between feminism suffrage and pacifism The volume reinforces the importance of the retrieval of women's wartime experience urging us to rethink what we choose to commemorate and widening the presence of women in the expanding canon of war writing This book was originally published as a special issue of *Women's Writing*

Commemorative Modernisms Kelly Alice Kelly, 2020-07-06 Reconsiders the relationship between the Great War and modernism through women's literary representations of death Provides the first sustained study of death and commemoration in women's literature in the wartime and postwar period Offers a reconsideration of the relationship between the First World War and literary modernism through the lens of women's writing Considers the literary impact of the vast mortality of the First World War and the culture of war commemoration on British and American women's writing One of the key questions of modern literature was the problem of what to do with the war dead Through a series of case studies focusing on nurse narratives Edith Wharton Katherine Mansfield H D and Virginia Woolf as well as visual and material culture this book provides the first sustained study of women

s literary representations of death and the culture of war commemoration that underlie British and American literary modernism Considering previously neglected writing by women in the war zones and at home as well as the marginalised writings of well known modernist authors and drawing on international archival research this book demonstrates the intertwining of modernist war and memorial culture and broadens the canon of war writing Irony and the Poetry of the First World War S. Puissant,2009-03-19 How does irony affect the evaluation and perception of the First World War both then and now Irony and the Poetry of the First World War traces one of the major features of war poetry from the author's application as a means of disguise criticism or psychological therapy to its perception and interpretation by the reader

Landscapes and Voices of the Great War Angela K. Smith,Krista Cowman,2017-02-03 This volume aims to provide a wider view of First World War experience through focusing on landscapes less commonly considered in historiography and on voices that have remained on the margins of popular understanding of the war The landscape of the western front was captured during the conflict in many different ways in photographs paintings and print The most commonly replicated voicing of contemporary attitudes towards the war is that of initial enthusiasm giving way to disillusionment and a sense of overwhelming futility Investigations of the many components of war experience drawn from social and cultural history have looked to landscapes and voices beyond the frontline as a means of foregrounding different perspectives on the war Not all of the voices presented here opposed the war and not all of the landscapes were comprised of trenches or flanked by barbed wire Collectively they combine to offer further fresh insights into the multiplicity of war experience an alternate space to the familiar tropes of mud and mayhem Literature and the Great War 1914-1918 Randall Stevenson,2013-05-02 Oxford Textual Perspectives is a new series of informative and provocative studies focused upon literary texts conceived of in the broadest sense of that term and the technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works The Great War shaped the modern world and much of its literary imagination Literature and the Great War insightfully reassesses this impact analysing a wide range of authors both established and less well known and re-examining critical judgements popular assumptions even myths about war writing that have developed in the century or so that has followed By looking at all genres of Great War writing in a single volume the study allows reconsideration of the relative merits of the period's much praised poetry and its generally less celebrated narrative texts Randall Stevenson looks far beyond the work of soldier authors considering also the role of an older generation of writers ones whose reputations were established before the war began as well as the impact of war on the modernist imagination developing afterwards in the 1920s Literature and the Great War examines the context in which this

literature was produced Taking into consideration military life the role of newspapers war correspondents politicians and propagandists The unintelligible violence of the Great War placed a huge amount of pressure on the language imagination and textual practice of all who attempted to describe it Incisively reconsidering these fundamental issues Literature and the Great War challenges and rejuvenates approaches to its subject redefining the interconnections of history culture and literary imagination in the early decades of the twentieth century

Nurse Writers of the Great War Christine Hallett, 2016-02-15 This electronic version has been made available under a Creative Commons BY NC ND open access license The First World War was the first total war Its industrial weaponry damaged millions of men and drove whole armies underground into dangerously unhealthy trenches Many were killed Many more suffered terrible life threatening injuries wound infections such as gas gangrene and tetanus exposure to extremes of temperature emotional trauma and systemic disease In an effort to alleviate this suffering tens of thousands of women

volunteered to serve as nurses Of these some were experienced professionals while others had undergone only minimal training But regardless of their preparation they would all gain a unique understanding of the conditions of industrial warfare Until recently their contributions both to the saving of lives and to our understanding of warfare have remained largely hidden from view By combining biographical research with textual analysis Nurse writers of the great war opens a window onto their insights into the nature of nursing and the impact of warfare **Annie Chartres Vivanti** Sharon Wood, Erica Moretti, 2016-10-12 This book explores the work of a writer Annie Chartres Vivanti 1866 1942 who brought a transnational dimension to the marked provincialism of the Italian novel by addressing issues of gender ethnicity and sexuality on personal and international levels and by creating work that distanced itself from much of the female penned literature of the day scorning both decorum and social respectability Chapters in this book examine Vivanti s output from multiple perspectives taking into account her politics and her career as a journalist writer and singer as well as her literary work
