- 
- A detailed view of the central portion of Michelangelo's famous fresco, 'The Creation of Adam'. It focuses on the two hands reaching toward each other: the hand of God on the right, extended from a reclining position, and the hand of Adam on the left, reaching out from a similar reclining pose. The fingers are just inches apart, creating a sense of tension and divine spark. The background is the cracked and aged texture of the original plaster.
- Genesis 2: 4-25.
 - Genesis 2 – 3 are believed to be derived from the “J – Source” or the “Yahwistic writer.”
 - It begins with the words, “This is the account of the heavens and the earth when they were created, when the Lord God made the earth and the heavens.” (v. 4)

Second Creation:

The Second Creation Jonathan Gienapp,2018-10-09 Americans widely believe that the U S Constitution was almost wholly created when it was drafted in 1787 and ratified in 1788 Jonathan Gienapp recovers the unknown story of the Constitution s second creation in the decade after its adoption a story with explosive implications for current debates over constitutional originalism and interpretation

Christ of the Creation Days Gregory J. Girard,2017-08-02 Christ of the Creation Days by Greg Girard I have long been fascinated by the great types of Scripture not clever connections invented by over ingenious preachers but the patterns that underlie the way God repeatedly works both in the people and the events of the Bible Some of them are quite explicit Others you dont see till they are pointed out to you and then you wonder how you could have missed them The more we see one part of Scripture underlining another in what I think of as the repeat of patterns the greater its integrity is seen to be and the clearer its message Greg Girard opens our eyes to a set of correspondences that could not be more basic to the biblical revelation of God Should it surprise us that the sequence of his creative action in the making of the world should be the same shape as the sequence of his redemptive action in revealing himself to his people Yet I for one had never made the connection The creation of light the separation of land and sea the stars of heaven the man appointed to rule all that lives of course these images reappear elsewhere but had you noticed where and at what crucial points in the Bible story The author deserves our thanks for this illuminating and inspiring study Michael Wilcock author of five titles in the Bible Speaks Today series InterVarsity Press and other books of Bible exposition

God, Creation, and Revelation

Paul King Jewett, Marguerite Shuster, 1991. A theology that is real, readable and relevant such as Paul Jewett's *God, Creation and Revelation*. Writing from a distinctively evangelical and Reformed viewpoint, Jewett offers a general systematic introduction to these doctrines of the Christian church: how we know God, revelation and Scripture, who God is, the divine nature, what God is like, the divine attributes and what God has done: creation. While upholding the historic Christian faith, Jewett's approach to Christian teaching is uniquely neo-evangelical in that he seeks to expound and clarify orthodox Christianity for twentieth-century Christians. Jewett purposely sets forth his systematic theology in light of scientific and social issues that confront the church in the contemporary world. Throughout the book, Jewett also refers to literary masterpieces and to the church's hymns, giving the reader a greater appreciation for the theological treasures in our literature and our hymnody. The culmination of nearly forty years of study and teaching, this book adeptly balances the philosophical efforts needed in systematic theology with the biblical material in which Christian doctrines are rooted and it covers well the range of theologies from the early fathers to the Scholastics, from the Reformers to liberation and feminist theologians. Interspersed throughout the text are useful addenda and excurses which provide further detailed treatment of specific topics. An unusual feature of *God, Creation and Revelation* is Jewett's inclusion of eight sermons by Dr. Marguerite Shuster, a former student of his. Believing that theology and preaching must go together, Jewett has strategically placed these sermons throughout the book as creative examples of how to preach Christian doctrines.

Creation, Sin and Reconciliation

Robert Ignatius Letellier, 2016-02-08. This volume considers aspects of the Book of Genesis as the first book of the Torah and hence of the Bible; its position is unique especially in its provision of the foundational stories of Creation, the emergence of mankind and the beginning of human society. Through close reading of chapters 1, 11, 32, 33 and 37-50, the beginning, middle and end of Genesis, with consideration of the language, style and possible implications of the text, this approach explores the fundamental themes of *Bereshit* and the enduring relevance of its powerful message for humanity and our place in the world. The method is both synchronic: a literary exegetical analysis of the received text and diachronic: a more historical consideration of other forms of interpretation, whether archaeological, theological, philosophical, generic or comparative. The mystery of creation and the origins of the world and humankind are enduringly important and with the rise of interest in cosmology and ever-growing ecological concerns for the earth and its sustainability, nothing could be more topical. Where do we come from? What is our place in the world? What is our responsibility for it? Intimately related to Creation are the nature of human origins.

and the mystery of the beautiful yet disturbing imperfection of human nature and society Why are we as we are What does this mean for concepts of family community and nation The Patriarchal Narratives of the forebears of Ancient Israel Abraham Isaac Jacob and Joseph provide some of the most enduring stories of election mission endeavour and interaction in the annals of world literature The power and unwavering truthfulness of these stories hold a mirror to human behaviour with seemingly fathomless implications They provide a dynamic a positive way forward in reflecting on the intractable hostility that perennially blights the history of humankind The recurrence of universal themes and symbols generated in Genesis and found throughout the Bible and in wider folk literature emphasizes the conceptual unity of a Great Code of meaning and is pertinent to a canonical reading of Scripture for example Joseph s story prefigures that of Jesus and posits reconciliation as the very harbinger of salvation

Creation and Contingency in Early Patristic Thought Joseph Torchia, OP, 2019-04-10 *Creation and Contingency in Early Patristic Thought* The Beginning of All Things explores the interface between philosophy and theology in the development of the seminal Christian doctrine of creation ex nihilo While its main focus lies in an analysis of first to third century patristic accounts of creation it is likewise attuned to their parallelism with Middle Platonic commentaries on Plato s theory of cosmological origins in the Timaeus Just as Christian thinkers sounded out the theological implications of Gn 1 1 2 the successors to Plato s Academy debated the significance of his teaching Tim 28b that the world came to be The fact that both Genesis and the Timaeus address the beginning of all things served as a means of bridging the conceptual gap between the Greek philosophical tradition and a Christian perspective rooted in scriptural teaching Plato s Timaeus and the doxographies it inspired thus provided early Fathers of the Church with the dialectical resources for explicating their distinctive understanding of creation as a bringing into being from nothing

The Rigveda: 3-Volume Set, 2014-04-23 The Rigveda is the oldest Sanskrit text consisting of over one thousand hymns dedicated to various divinities of the Vedic tradition Orally composed and orally transmitted for several millennia the hymns display remarkable poetic complexity and religious sophistication As the culmination of the long tradition of Indo Iranian oral formulaic praise poetry and the first monument of specifically Indian religiosity and literature the Rigveda is crucial to the understanding both of Indo European and Indo Iranian cultural prehistory and of later Indian religious history and high literature This new translation represents the first complete scholarly translation into English in over a century and utilizes the results of the intense research of the last century on the language and the ritual system of the text The focus of this translation is on the poetic techniques and structures utilized by the bards and on the ways that the poetry intersects with and dynamically expresses the ritual underpinnings of the text
