Characters of Blood Celeste-Marie

Bernier, 2012-12-06 Across the centuries the acts and arts of black heroism have inspired a provocative experimental and self reflexive intellectual political and aesthetic tradition In Characters of Blood Celeste Marie Bernier illuminates the ways in which six iconic men and women Toussaint Louverture Nathaniel Turner Sengbe Pieh Sojourner Truth Frederick Douglass and Harriet Tubman challenged the dominant conceptualizations of their histories and played a key role in the construction of an alternative visual and textual archive While these figures have survived as symbolic touchstones Bernier contends that scholars have yet to do justice to their complex bodies of work or their multifaceted lives Adopting a comparative and transatlantic approach to her subjects remarkable life stories the author analyzes a wealth of creative work from literature drama and art to public monuments religious tracts and historical narratives to show how it represents enslaved heroism throughout the United States Africa and the Caribbean In mapping this black diasporic tradition of resistance Bernier intends not only to reveal the limitations and distortions on record but also to complicate the definitions of black heroism that have been restricted by ideological boundaries between heroic and anti heroic sites and sights of struggle

Education for Freedom, Student Achievement, and Personal Emancipation Greg Wiggan, Lakia Scott, Marcia Watson, Richard Reynolds, 2014-04-03 Harnessing conceptual inspiration through the work of Harriet Tubman and Queen Nanny the Maroon of Jamaica this book explores the historical and contemporary role that education has and can continually play as an instrument of personal and group liberation The book discusses the early formations of the Transatlantic Slave Trade the enslavement of native populations and the subsequent development of the Underground Railroad and Maroon societies in the Caribbean and Americas as systems of liberation It investigates the development and maintenance of racial gendered and class stratification and provides a personal path to freedom as a context for a broader discussion on using education as a mechanism for dismantling the effects of colonization miseducation and social psychological domination in schools and society As a contemporary issue it presents an in depth analysis of the Tucson Unified School District in Arizona and the controversy surrounding its ethnic studies program as an example of one of the contested sites of curriculum development and student liberation Additionally it discusses high performing charter schools as an alternative model of

education which may help to provide a systematic way of unshackling institutional barriers and oppression Ultimately this book acknowledges that today the road to freedom is still one we must all travel as miseducation school failure school dropout unemployment underemployment poverty neighborhood violence incarceration and a growing prison industrial complex are all reminders of the work that still must be accomplished Like those who historically sacrificed their lives to gain freedom and an education today with the lingering effects of institutionalized systems of domination education must continue to be an instrument of social mobility and liberation if indeed we are to make schools and society more humane and inclusive towards those who are still waiting to be unshackled The book presents implications regarding the treaties on education for freedom as a school reform and public policy topic

Ebony Magazine and Lerone Bennett Jr. E. James West, 2020-02-24 From its launch in 1945 Ebony magazine was politically and socially influential However the magazine also played an important role in educating millions of African Americans about their past Guided by the pen of Lerone Bennett Jr the magazine's senior editor and in house historian Ebony

became a key voice in the popular black history revival that flourished after World War II. Its content helped push representations of the African American past from the margins to the center of the nation's cultural and political imagination. E. James West's fresh and fascinating exploration of Ebony's political, social, and historical content illuminates the intellectual role of the iconic magazine and its contribution to African American scholarship. He also uncovers a paradox. Though Ebony provided Bennett with space to promote a militant reading of black history and protest the magazine's status as a consumer publication, helped to mediate its representation of African American identity in both past and present. Mixing biography, cultural history, and popular memory, West restores Ebony and Bennett to their rightful place in African American intellectual, commercial, and political history. Dunbar, 2001-11-06 **In Search of a Canon** Greg Wiggan, 2015-02-03 Harnessing Paulo Freire's critical analysis of education and society, *In Search of a Canon* explores Africa and Asia and their relationship to Europe and Europe's connection to the rest of the western world. As such, this book is situated in the tradition of critical scholars as it explores the relationship between historical processes and the development of a canon or literature that is considered as sacred or accepted. In doing so, it intricately explores the intersection of history, religion, sacred text, race relations, and education. The book uncovers the origins of the human family tree and the historical context related to the emergence of sacred literature and institutionalized systems of thought and educational processes. It presents critical dates, timelines, and perspectives that are aimed at raising awareness in order to make schools and society more humane and democratic. Greg Wiggan is Associate Professor of Urban Education, Adjunct Associate Professor of Sociology, and Affiliate Faculty Member of Africana Studies at the University of North Carolina at Charlotte. His research addresses urban education and urban sociology in the context of school processes that promote high achievement among African American students and other underserved minority student populations. In doing so, his research also examines the broader connections between the history of urbanization, globalization, processes, and the internationalization of education in urban schools. His books include *Global Issues in Education: Pedagogy, Policy, Practice* and *the Minority Experience: Education in a Strange Land*. Globalization, Urbanization, and Urban Schools: The Social and Educational Implications of the Geopolitical Economy. Curriculum Violence: America's New Civil Rights Issue. Education for the New Frontier: Race, Education, and Triumph in Jim Crow America, 1867-1945. Following the Northern Star: Caribbean Identities and Education in North American Schools. and *Unshackled: Education for Freedom, Student Achievement, and Personal Emancipation*. *Autobiography of a People* Herb Boyd, 2000-12-26 *Autobiography of a People* is an insightfully assembled anthology of eyewitness accounts that traces the history of the African American experience. Tomlins,2022-06-14 A bold new interpretation of Nat Turner and the slave rebellion that stunned the American South In 1831 Virginia Nat Turner led a band of Southampton County slaves in a rebellion that killed fifty five whites mostly women and children After more than two months in hiding Turner was captured and quickly convicted and executed In the Matter of Nat Turner penetrates the historical caricature of Turner as befuddled mystic and self styled Baptist preacher to recover the haunting persona of this legendary American slave rebel telling of his self discovery and the dawning of his Christian faith of an impossible task given to him by God and of redemptive violence and profane retribution Much about Turner remains unknown His extraordinary account of his life and rebellion given in chains as he awaited trial in jail was written down by an opportunistic white attorney and sold as a pamphlet to cash in on Turner s notoriety But the enigmatic rebel leader had an immediate and broad impact on the American South and his rebellion remains one of the most momentous episodes in American history Christopher Tomlins provides a luminous account of Turner s intellectual development religious cosmology and motivations and offers an original and incisive analysis of the Turner Rebellion itself and its impact on Virginia politics Tomlins also undertakes a deeply critical examination of William Styron s 1967 novel The Confessions of Nat Turner which restored Turner to the American consciousness in the era of civil rights black power and urban riots A speculative history that recovers Turner from the few shards of evidence we have about his life In the Matter of Nat Turner is also a unique speculation about the meaning and uses of history itself
