juice the joy and worst of all our confidence is gone The reasons are clear We have fewer children later in life so we ve had more time to ponder We ve grown up just as research on infant and child development has come of age so there s no shortage of material to think about As a generation we ve prided ourselves on self improvement and we bring the same zeal to child improvement We re less likely to live close to our families and so are more likely to seek out expert solutions To counter this thinking Cassidy will suggest keeping the big picture in mind what kind of people do you really want your kids to be Honest kind cooperative empathetic It may mean losing sight of whether enough play dates are scheduled for the week and if you ve positively reinforced the latest creative endeavor but it will bring back your instincts about what is important to your family as a whole and to your kids to become decent people *The Infant & Toddler Handbook* Kathryn Castle, Ed.D.,1987-10 Developmentally sequenced by age group this versatile book can be used as a materials guide in both formal and informal settings Each activity is introduced by detailing the emerging ability and care giver role while giving individual invitations to care for and instruct these special developmental stages Tips are included on how to introduce toys store materials develop basic care routines create activity centers and avoid trouble spots *The Creative Writer's Companion* Stanley J.
