W. Chau, 2013-12-31 dfg      *The Pastor in a Changing Society* Zawadi Job Kinyamagoha, 2014-10-07 This book examines how social change affects the role of the pastor in an African context Through field study in African churches author Zawadi Job Kinyamagoha explores how pastors work amid the tensions of rapid social change and suggests how pastors can constructively respond to social change by using it as an opportunity in their pastoral ministry Contemporary society is characterized by three cultural spheres the economic sphere the public sphere and the democratic or self governance rule the realities of which many pastors seem to overlook Church authorities seem to adhere rigidly to strict principles and rules without accommodating the realities of society Conversely a changing society demands that pastors work with the reality at

hand leaving pastors caught between two conflicting tensions the pressure from church authorities and from a changing social reality The Pastor in a Changing Society seeks to help Tanzanian and African pastors rethink existing doctrines and practices in order to better respond to the reality of a changing society      The Caribbean in a Changing World Stephanie Fullerton-Cooper, Erica Gordon, Livingston Smith, 2017-06-23 This collection is a critical reflection of the evolution of Caribbean countries since the demise of the West Indies Federation in 1962 At this historical juncture some territories opted for independence while others remained dependent territories The volume examines Caribbean societies in comparative and general ways covering aspects of their ongoing development and challenges It covers such areas as Caribbean integration the state of human capital and social policy in the region the education sector Caribbean economic sustainability and significantly the physical environment of the Caribbean A central question has always been should these territories have gone independent or stayed under some British tutelage The book addresses this question illustrating that these island states have made considerable progress especially in the maintenance and deepening of democratic practices      The Future of Vocational Education and Training in a Changing World Matthias Pilz, 2012-04-25 Across the globe vocational education and training is characterised by a number of overarching trends including the increasing use of technology the growing importance of information and communications systems and changes to national demographics At the interface between the education and training system and the world of work VET faces the challenge of tackling these changes of making a constructive contribution to solving the problems posed by the transition from education to employment and of ensuring that the next generation has the skills it and the economy needs This volume comprises thirty individual contributions that together add up to a comprehensive overview of the current situation in vocational education and training its strengths and weaknesses and its prospects VET experts from Canada the USA India China Japan and Korea as well as from a number of European countries focus on their national context and how it fits in to the bigger picture The contributions combine theoretical discussions from various strands of VET research with evidence from country case studies and examples from current practice      *Teaching for Global Competence in a Rapidly Changing World* Asia Society, OECD, 2018-01-23 This new publication sets forward the PISA framework for global competence developed by the OECD which aligns closely with the definition developed by the Center for Global Education at Asia Society      **Resources in Education** ,1997      *Education and Social Change* John L.
