Secret Agents Handbook Of Special Devices:

Secret Agent's Handbook of Special Devices ,2000 This is a reproduction of the original catalogue used by SOE agents to select weapons gadgets and disguises for their secret missions Following Churchill s directive to set Europe ablaze government scientists and inventors created a remarkable array of devices designed for sabotage missions **Secret Agent's Handbook** ,2009-10 Facsimile reprint of pages from two volumes of a catalogue compiled for the Special Operations Executive SOE issued in 1944 and 1945 *Secret Agent's Handbook* Mark Seaman,1985-01-01 This is the original catalog used by British secret agents to select weapons gadgets and disguises for their missions during World War II Includes wild devices such as exploding rats shoes that leave barefoot prints incendiary briefcases and the deadliest of weapons Photos *How to be a Spy* Denis Rigden,2004-04-01 In the early years of World War II top secret training schools taught prospective agents the skills of a spy from disguise to assassination **How to Be a Spy** ,2004-04 During World War II training in the black arts of covert operation was vital preparation for the ungentlemanly warfare waged by the Special Operations Executive SOE against Hitler s Germany and Tojo s Japan Reproduced here is the most comprehensive training syllabus used at SOE s Special Training Schools STSs showing how agents learnt to wreak maximum destruction in occupied Europe and beyond The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada An array of unconventional skills are covered from burglary close combat and silent killing through to propaganda surveillance and disguise giving insight into the workings of one of World War II s most intriguing organizations Denis Rigden s introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions Station 12 Des Turner,2011-09-30 The full story of Aston House in the Second World War has never been told before Its activities were top secret and as important to the Allied war effort as those of Bletchley Park but in a different way Situated near Stevenage Aston House was one of many British country houses requisitioned during the Second World War by the Special Operations Executive SOE Born out of Bletchley Park where it began life as SIS Section D for Destruction Station 12 s scientific and military personnel invented made and supplied toys for the Commandos Special Boat Service SAS and resistance groups Included in their deadly arsenal of weapons were plastic explosives limpet mines pressure switches tree spigots incendiary bombs incendiary liquids and arrows and a variety of time fuses They worked on the tools for famous operations such as the St Nazaire and Dieppe Raids and the assassination of Himmler s deputy in Prague Also revealed are the human stories of personnel stationed in this extremely remote village and the explosive pranks they played on each other and certain visitors which add some light relief to their destructive purpose SOE: The Scientific Secrets Fredric Boyce,2011-11-08 The history of Special Operations Executive SOE seems to spring a never ending run of surprises and here are some more This book explores the mysterious world of the tools SOE used for their missions of subversion and sabotage An often grim reality is confronted that is more akin with the world of

James Bond and Q's workshop than previously believed. Written by two scientists, one of whom served in the SOE and one who was tasked with clearing up after it was disbanded, their insider knowledge presents a clear account of the way in which SOE's inventors worked. From high explosive technology to chemical and biological devices, from the techniques of air supply to incendiaryism, from camouflage to underwater warfare and from radio communications to weaponry, SOE: The Scientific Secrets is a revelation about the tools that allowed the murky world of spying and spies to operate during wartime. *SOE's Ultimate Deception* Fredric Boyce, 2009-03-12

In the closing months of the Second World War, General Eisenhower exhorted the Western Allied forces to redouble their efforts to break the German will to resist. In considering this appeal, General Gubbins, whose Special Operations Executive was making a significant contribution to the liberation of occupied territory, was faced with a fundamental difficulty: in the case of Germany, although opposition to Nazism was present in some areas, it was neither organised nor pro-Allied. Then someone had the idea of creating an entirely fictional German resistance movement and selling it to the Nazi security authorities. From January until April 1945, SOE rained propaganda leaflets on the hapless population fleeing the ruins of their cities, and the oncoming Allied ground forces; they broadcast messages to the resistance; they planted the most scandalous lies about eminent Nazis; and at the end, they even dropped four agents on fictitious missions. This imaginative response to Ike's exhortation and the sheer audacity of the operation itself demand to be told to a wider audience. *The Means to Kill* Gerrit Dworok, Frank Jacob, 2015-12-03

Throughout human history, technological innovation has functioned as a driver of civilization and inspired many people's belief in progress. When it comes to warfare, where technology is applied with a cruel and deadly logic, a nuanced view is needed. From siege engines to drones, innovation has often served a less enlightened aim: elimination of the enemy. This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives. *Undercover Agent* Mark Seaman, 2018-11-01

Tony Brooks was unique. He was barely out of school when recruited in 1941 by the Special Operations Executive, SOE, the wartime secret service established by Churchill to set Europe ablaze. After extensive training, he was parachuted into France in July 1942, being among the first and youngest British agents sent to support the nascent French Resistance. Brooks's success was primarily due to his exceptional qualities as a secret agent, although he was aided by large and frequent slices of luck. Among much else, he survived brushes with a British traitor and a notorious double agent, the Gestapo's capture of his wireless operator, and subsequent attempts to trap Brooks. Brief incarceration in a Spanish concentration camp, injuries resulting from a parachute jump into France, and even capture and interrogation by the Gestapo, although his cover story held, and he was released. In an age when we so often take our heroes from the worlds of sport, film, television, music, fashion, or just celebrity, it is perhaps salutary to be reminded of a young man who ended the war in command of a disparate force of some 10,000 armed resistance fighters and decorated with two of this country's highest awards for gallantry, the DSO and MC. At the time, he was just twenty-three years old. This remarkable, detailed and intimate

account of a clandestine agent's dangerous wartime career combines the historian's expert eye with the narrative colour of remembered events. As a study in courage it has few if any equals. *World War II Allied Sabotage Devices and Booby Traps* Gordon L. Rottman, 2013-02-20. An enthralling insight into the technical side of the secret war behind enemy lines as SOE and OSS operatives attempted to sabotage the Axis war effort. Following Churchill's directive to set occupied Europe ablaze the SOE and later its American sister organization the OSS were deployed across the continent. Outnumbered, surrounded and in great peril these brave agents were armed with a wide variety of devices to help them achieve their objectives including numerous pieces of sabotage equipment and cunning booby traps. This book examines these different pieces of equipment and the technicalities involved in deploying them effectively as well as discussing the specialist equipment developed by Special Forces units including the SAS. Lewes Bomb Touching on some of the stranger developments such as explosives disguised as lumps of coal the author goes on to describe the German clearance techniques that were developed to avoid these dangers. Complete with specially commissioned artwork and period diagrams together with detailed descriptions of the dangerous missions of Allied agents this book is a fascinating insight into the secret war behind enemy lines. **Special Operations Executive** Mark Seaman, 2013-01-11. This unique book presents an accurate and reliable assessment of the Special Operations Executive (SOE). It brings together leading authors to examine the organization from a range of key angles. This study shows how historians have built on the first international conference on the SOE at the Imperial War Museum in 1998. The release of many records then allowed historians to develop the first authoritative analyses of the organization's activities and several of its agents and staff officers were able to participate. Since this groundbreaking conference fresh research has continued and its original papers are here amended to take account of the full range of SOE documents that have been released to the National Archives. The fascinating stories they tell range from overviews of work in a single country to particular operations and the impact of key personalities. SOE was a remarkably innovative organization. It played a significant part in the Allied victory while its theories of clandestine warfare and specialised equipment had a major impact upon the post-war world. SOE proved that war need not be fought by conventional methods and by soldiers in uniform. The organization laid much of the groundwork for the development of irregular warfare that characterized the second half of the twentieth century and that is still here more potent than ever at the beginning of the twenty-first. This book will be of great interest to students of World War II history, intelligence studies and special operations as well as general readers with an interest in SOE and World War II. SOE in France M.R.D. Foot, 2004-04-22. SOE in France was first published in 1966 followed by a second impression with amendments in 1968. Since these editions were published other material on SOE has become available. It was therefore agreed in 2000 that Professor Foot should produce a revised version. In so doing in addition to the material in the first edition the author has had **SOE Syllabus** Denis Rigden, 2001. This book tells how in the early years of World War II SOE set up top secret Special Training Schools (STSs) to instruct prospective agents in the arts

of camouflage sabotage and subterfuge The training materials are reproduced here in full book jacket

The Jedburghs Will Irwin, 2009-04-29 The story of the Special Forces in World War II has never fully been told before Information about them began to be declassified only in the 1980s Known as the Jedburghs these Special Forces were selected from members of the British American and Free French armies to be dropped in teams of three deep behind German lines There in preparation for D Day they carried out what we now know as unconventional warfare supporting the French Resistance in guerrilla attacks supply route disruption and the harassment and obstruction of German reinforcements Always they operated against extraordinary odds They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces They were in short heroes *The Jedburghs* finally tells their story and offers a new perspective on D Day itself Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed Jed veterans

and family members in order to present this portrait of their crucial role a role recognized by Churchill and Eisenhower in the struggle to liberate Europe in 1944 45 This is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines

Kill the Fuhrer Denis Rigden, 2011-11-08 During the Second World War Britain s top secret Special Operations Executive plotted to assassinate Hitler A small department of SOE known as Section X had the tantalisingly complex task of investigating how when and where their plan could be executed The section also plotted the killing of Goebbels Himmler and other selected members of Hitler s inner circle Only Section X and a handful of other SOE staff had any knowledge of these projects codenamed Operation Foxley and Operation Little Foxleys As history has shown these schemes turned out to be pipe dreams Even so Section X renamed the German Directorate in 1944 made a huge contribution to the Allied war effort through their organised sabotage and clandestine distribution of black propaganda Denis Rigden describes Section X s efforts to discover as much as possible about the intended assassination targets and questions whether a successful Operation Foxley would have helped or hindered the Allied cause Based on top secret documents and private sources and illustrated with archive photographs *Kill the Fuhrer* is an intriguing insight into the shadowy world of Britain s wartime secret services
