**The Secret Life of Puppets** Victoria Nelson, 2003-11-01 In one of those rare books that allows us to see the world not as we ve never seen it before but as we see it daily without knowing Victoria Nelson illuminates the deep but hidden attraction the supernatural still holds for a secular mainstream culture that forced the transcendental underground and firmly displaced wonder and awe with the forces of reason materialism and science In a backward look at an era now drawing to a close The Secret Life of Puppets describes a curious reversal in the roles of art and religion where art and literature once took their content from religion we came increasingly to seek religion covertly through art and entertainment In a tour of Western culture that is at once exhilarating and alarming Nelson shows us the distorted forms in which the spiritual resurfaced in high art but also strikingly in the mass culture of puppets horror fantasy literature and cyborgs from the works of Kleist Poe Musil and Lovecraft to Philip K Dick and virtual reality simulations At the end of the millennium discarding a convention of the demonized grotesque that endured three hundred years a Demiurgic consciousness shaped in Late Antiquity is emerging anew to re divinize the human as artists like Lars von Trier and Will Self reinvent Expressionism in forms familiar to our pre Reformation ancestors Here as never before we see how pervasively but unwittingly consuming art forms of the fantastic we allow ourselves to believe

**Necroclimatism in a Spectral World (Dis)order?** Nhemaehena, Artwell, Mawere, Munyaradzi, 2019-06-25 Highlighting the problematiquess of working with a narrow version of greenhouse effects or global warming this book posits the theory of necroclimatism that encompasses broader versions of greenhouse effects and global warming Conceiving cultures societies moral sensibilities epistemologies politics economies legal systems and religions of the formerly colonised peoples as greenhoused and entrapped in the heat of global apartheid and neo colonialism the book refuses to be confined to the pufferies of physical conceptualisations of greenhousing and global warming Underlining the supposed disposability and dispensability of

colonised peoples the notion of necroclimatism explicates ways in which some people suffer various forms of death which have increasingly become a feature of global apartheid and neo colonialism that are cast in spectral sacrificial logics Deemed to constitute disposable bodies disposable cultures disposable polities disposable societies disposable epistemologies disposable religions disposable laws and disposable economies the sacrificed are in the age of climate catastrophism once again reminded that they have duties to die to become extinct in order to save the global spaceship that is sinking due to climate change and global warming This book therefore argues that in a sacrificial world dis order binaries between humans and animals good and evil moral and immoral the dead and the living necessarily vanish in the nefarious logic of what marks the era of climate catastrophism and the attendant necroclimatism The book further argues that a sacrificial world dis order is necessarily a posthumanist and postanthropocentric world dis order which should be never granted space in African worlds and even beyond The book thus raises fundamental questions for African anticipatory regimes and for this reason it is handy for scholars in political science sociology social anthropology development studies environmental studies agricultural studies legal studies food science geography religious studies and decolonial fields of studies

**The Philosophers' Secret Fire** Patrick Harpur, 2007 Is there any place for the ancient myths of our ancestors in modern times Could their shadowy presence in our common imagination be more influential than we realise Across the globe many societies still believe in an Otherworld of spirits gods and daimons which the West has banished to the unconscious mind and now only visits in dreams Yet this visionary tradition continues to subvert the rational universe erupting out of the shadows in times of intense religious and philosophical transition In his dazzling history of the imagination Patrick Harpur links together fields as far apart as Greek philosophy and depth psychology Renaissance magic and tribal ritual Romantic poetry and the ecstasy of the shaman to trace how myths have been used to make sense of the world He uncovers that tradition which alchemists imagined as a Golden Chain of initiates who passed their mysterious secret fire down through the ages As this inspiring book shows the secret of this perennial wisdom is of an imaginative insight a simple way of seeing that re enchants our existence and restores us to our own true selves

**The Only Mind Worth Having** Gardner Fiona, 2016-11-24 In The Only Mind Worth Having Fiona Gardner takes Thomas Merton's belief that the child mind is the only mind worth having and explores it in the context of Jesus challenging paradoxical and enigmatic command to become like small children Shedemonstrates how Merton's belief and Jesus command can be understood as part of contemporary spirituality and spiritual practice To follow Christ's command requires a great leap of the imagination Gardner examines what it might mean to make this leap when one is an adult without it becoming sentimental and mawkish or regressive and pathological Using both psychological and spiritual insights and drawing on the experiences of Thomas Merton and others Gardner suggests that in some mysterious and paradoxical way recovering a sense of childhood spirituality is the path towards spiritual maturity The move from childhood spirituality to adulthood and on to a spiritual maturity through the child mind is a move from innocence to

experienceto organised innocence or from dependence to independence to a state of being in dependence with God **On Dreams and the East** C. G.
