Medieval Iberia Olivia Remie Constable,Damian Zurro,2012 For some historians medieval Iberian society was one marked by peaceful coexistence and cross cultural fertilization others have sketched a harsher picture of Muslims and Christians engaged in an ongoing contest for political religious and economic advantage culminating in the fall of Muslim Granada and the expulsion of the Jews in the late fifteenth century The reality that emerges in Medieval Iberia is more nuanced than either of these scenarios can comprehend Now in an expanded second edition this monumental collection offers unparalleled access to the multicultural complexity of the lands that would become modern Portugal and Spain The documents collected in Medieval Iberia date mostly from the eighth through the fifteenth centuries and have been translated from Latin Arabic Hebrew Judeo Arabic Castilian Catalan and Portuguese by many of the most eminent scholars in the field of Iberian studies Nearly one quarter of this edition is new including visual materials and increased coverage of Jewish and Muslim affairs as well as more sources pertaining to women social and economic history and domestic life This primary source material ranges widely across historical chronicles poetry and legal and religious sources and each is accompanied by a brief introduction placing the text in its historical and cultural setting Arranged chronologically the documents are also keyed so as to be accessible to readers interested in specific topics such as urban life the politics of the royal courts interfaith relations or women marriage and the family

Self and Secrecy in Early Islam Ruqayya Yasmine Khan,2008 An original inquiry

into the meanings of concealment and revelation in early Arabo Islamic texts In this comparative analysis of the significance of keeping and revealing secrets in early Islamic culture Ruqayya Yasmine Khan draws from a broad range of Arabo Islamic texts to map interconnections between concepts of secrecy and identity In early Islamic discourse Khan maintains individual identity is integrally linked to a psychology of secrecy and revelation a connection of even greater importance than what is being concealed or displayed Khan further maintains that secrecy and identity demarcate boundaries for interpersonal relations when governed by the cultural norms of discretion espoused in these texts As evidence for her study Khan explores religious and literary representations of secrecy in classical texts as diverse as the Qur'an the Book of Concealing the Secret and Holding the Tongue by al Jahiz and courtly love poems including the story of Majnun and Layla These works represent divergent approaches to spiritual ethical and romantic life in early Islam yet Khan extrapolates from each a shared construction of secrecy and revelation In advancing our understanding of the dynamic tensions between secrecy and revelation as depicted in these early Arabo Islamic discourses Khan illustrates that the creation of individual identity and subjectivity was inherently tied to these same tensions The resulting analysis opens new vistas for understanding the meanings of secrecy in Islamic studies Qur'anic studies Islamic philosophy and mysticism Arabic literary studies as well as European intellectual history

The Works of the Most Reverend Dr. John Tillotson, Late Lord Archbishop of

Canterbury John Tillotson, 1712 Forging Ideal Muslim Subjects Faraz Masood Sheikh, 2020-07-22 What forms can a religiously informed ethical Muslim life take This book presents two important accounts of ideal Muslim subjectivity one by 9th century moral pedagogue al Harith al Muhasibi d 857 and the other by 20th century Kurdish Quran scholar Said Nursi d 1960 It reconstructs Muhasibi's and Nursi's accounts of ideal Muslim consciousness and analyzes the discursive practices implicated in its formation and expression The book discusses the range of psychic states and ethical relations that Muhasibi and Nursi consider critical for living an authentically Muslim life It highlights the importance of discursive practices in Muslim religious and moral self production The author draws on Foucault's insights about ethics and practices of self care to examine familiar Muslim discourses in ways that enrich contemporary conversations about identity individuality community authority moral agency and virtue in the fields of religious studies Islamic studies and Muslim ethics The book deepens our understanding of the fluidity and fragility of both the more familiar obligation centered ethics in Islamic thought and the less familiar belief centered modes of religio moral being *The Works of the Most Reverend Dr. John Tillotson ...* John Tillotson, 1717 When Tengu Talk Wilburn N. Hansen, 2008-09-30 Hirata Atsutane 1776 1843 has been the subject of numerous studies that focus on his importance to nationalist politics and Japanese intellectual and social history Although well known as an ideologue of Japanese National Learning Kokugaku Atsutane's significance as a religious thinker has been largely overlooked His prolific writings on supernatural subjects have never been thoroughly analyzed in English until now In *When Tengu Talk* Wilburn Hansen focuses on Senkyoibun 1822 a voluminous work centering on Atsutane's interviews with a fourteen year old Edo street urchin named Kozo Torakichi who claimed to be an apprentice tengu a supernatural creature of Japanese folklore Hansen uncovers in detail how Atsutane employed a deliberate method of ethnographic inquiry that worked to manipulate and stimulate Torakichi's surreal descriptions of everyday existence in a supernatural realm what Atsutane termed the Other World Hansen's investigation and analysis of the process begins with the hypothesis that Atsutane's project was an early attempt at ethnographic research a new methodological approach in nineteenth century Japan Hansen posits that this scientific analysis was tainted by Atsutane's desire to establish a discourse on Japan not limited by what he considered to be the unsatisfactory results of established Japanese philological methods A rough sketch of the milieu of 1820s Edo Japan and Atsutane's position within it provides the backdrop against which the drama of Senkyoibun unfolds There follow chapters explaining the relationship between the implied author and the outside narrator the Other World that Atsutane helped Torakichi describe and Atsutane's nativist discourse concerning Torakichi's fantastic claims of a newly discovered Shinto holy man called the sanjin Sanjin were partly defined by supernatural abilities similar but ultimately more effective and thus superior to those of the Buddhist bodhisattva and the Daoist immortal They were seen as holders of secret and powerful technologies previously thought to have come from or been perfected in the West such as geography astronomy and military technology Atsutane sought to deemphasize the impact of Western technology by claiming these powers had

come from Japan's Other World. In doing so he creates a new Shinto hero and by association asserts the superiority of native Japanese tradition. In the final portion of his book Hansen addresses Atsutane's contribution to the construction of modern Japanese identity. By the late Tokugawa many intellectuals had grown uncomfortable with continued cultural dependence on Neo Confucianism and the Buddhist establishment was under fire from positivist historiographers who had begun to question the many contradictions found in Buddhist texts. With these traditional discourses in disarray and Western rationalism and materialism gaining public acceptance Hansen depicts Atsutane's creation of a new spiritual identity for the Japanese people as one creative response to the pressures of modernity. When Tengu Talk adds to the small body of work in English on National Learning it moreover fills a void in the area of historical religious studies which is dominated by studies of Buddhist monks and priests by offering a glimpse of a Shinto religious figure. Finally it counters the image of Atsutane as a forerunner of the ultra nationalism that ultimately was deployed in the service of empire. Lucid and accessible it will find an appreciative audience among scholars of Shinto and Japanese and world religion. In addition to religion specialists it will be of considerable interest to anthropologists and historians of Japan.
