**Chapter 1 How to Find the Guardian** There is magic in the area around Iron Web Falls where The Guardian's Discovery takes place It's not just any place the air is so wonderful that you can almost see it glow and the water dances and sings songs that have been around since the beginning of time The Guardian lives in this magical forest It is a brave and curious creature He is different from everyone else because he is always looking for new things to do and has the heart of a traveler The Guardian notices something strange on a sunny day When he gets to the waterfall he sees what looks like a small star that has dropped to Earth a shimmering light in the water This light was more than just beautiful it seemed to be calling to him like an invisible thread was wrapped around his heart and pulling him forward People who weren't paying close attention would miss the cave behind the waterfall The entry was hidden by thick green vines that made it look like nature was trying to hide something Small thoughts kept going through the Guardian's mind that he should keep quiet because some secrets should stay private How could he say no He felt both excited and scared like he was about to open a treasure chest and didn't know what was inside He calmed down moved the plants out of the way and went into the cave Inside the cave it felt like another universe The crystals on the walls shone lighting the way

and making the dark area look like a sky full of stars The Guardian felt like he was walking through the night sky because of the light from these stars that were buried With each step he felt more and more amazed and excited Where did it happen Why did they keep it a secret Who the heck left it here As he went deeper underground the cave got bigger and in the middle of this large underground room stood something very strange It was bigger than any crystal he had ever seen and the way it sparkled and pulsed with light made him think of the heartbeat of the forest The Guardian walked up to the crystal and felt it His mind immediately went to the past secrets and future of the forest This find was more than just a hidden treasure It was the heart of the Iron Web Falls and where all of its strength came from The Guardian knew he was supposed to find this spot and learn something special about the forest When he learned this he felt brave and smart enough to protect the magical forest and all the people who lived there The Guardian left the cave feeling proud and responsible He made sure that the opening stayed hidden between him and the forest When he got back to the sun his heart felt lighter and more connected to the magic around him It wasn't just a name he was now the real guardian of Iron Web Falls secrets and wonders The story The Guardian's Discovery shows how exciting and fun it is to find something new But it's also a lesson that knowing something means being responsible for it and that it's important to protect and enjoy the magic around us especially the natural things that surprise and delight us Chapter 2 The Magical Cave The Guardian goes to The Enchanted Cavern a magical world hidden in a mysterious cave As he goes deeper inside his eyes get used to the bright light inside after being used to the dim light of the forest When the Guardian goes past the magical forest's busy life and the watchful eyes of its creatures they enter a world that is unlike any other When the cave door opens a beautiful magical area with crystals that shine like stars in the night sky appears These crystals which come in every shade of blue and green you can think of make a bright show that seems to tell stories from the past as they dance and cast soft lights on the walls Sparkling pools of water under his feet add to the beauty of the tunnel making for an amazing show The pools are so calm and clean that the Guardian feels for a moment like he is on the edge of two worlds one above and one below He is in a calm shimmering place where light dances on the ceiling and walls of the tunnel and bounces off the water Even though everything is so beautiful there is still a sense of being careful The cavern looks like it's living because its heart is beating with the Guardian's It's a strong but subtle feeling of dread like a gentle warning that beauty often keeps its secrets well hidden The Guardian thinks that the cavern has puzzles that should not be taken easily even though it looks interesting Its unwritten rules make it possible to enjoy its wonders while also respecting its unknown depths He knows this isn't a normal place it's a place of ancient magic where each gem and water pool holds a memory or story from the forest's past The Guardian knows it's fun to walk here but they are telling them to be careful and respectful The beautiful woman can't take his attention away from the soft warnings that echo through the tunnel As the Guardian continues his journey he feels an unseen force in the air that seems to be in tune with the natural beauty around him It reminds us that magic isn't just in the beautiful scenery but also in the air we

breathe and the ground beneath our feet This magical grotto is full of wonder power and mystery It s hard to tell the difference between the amazing and the normal The Enchanted Cavern teaches us about how nature can be magical and mysterious It s a reminder to see more than what s clear and to be careful and respectful when enjoying nature s beauty The Guardian s journey inside the cave teaches us to be curious brave and respectful of nature s secrets Protecting the magic in our local surroundings is important for keeping the world s wonders around for future generations along with the need for adventure and discovery Chapter 3 The Ancient Glyphs As the Guardian went deeper into The Enchanted Cavern he saw something strange The walls of the cavern were already shining with the light of many crystals but beyond them was another prize that an untrained eye would miss The Guardian looked more closely at the stone walls and saw that they were covered with old writing and symbols that were put there hundreds of years ago These writings were more than just markers they held the words of the ancestors a lost past ready to be found Magic was as common as the stars in the sky and the trees in the forest and the symbols showed that time Each line and curve was carefully carved to tell a story The Guardian had a strong link to these symbols because he was brave and interested He thought the stones were talking to him and mumbling old ideas that people had forgotten He understood that these signs were not just for looks they had a meaning that would help him learn about the history and maybe even the future of the enchanted forest

Too bad for her, because the books are wrong. The truth is, London was built on magical rivers and all the major events in its past have been about people trying to control the magic. And her family is somehow tied to it. In the chase to get her mom back, Hyacinth encounters a giant intelligent pig in a bathing suit, a boy with amnesia, an adorable tosher, whatever that is, a sarcastic old lady, and a very sketchy unicorn. The Secret Knowledge of Water Craig Childs, 2008-12-14. Naturalist Craig Childs's utterly memorable and fantastic study of the desert's dangerous beauty is based on years of adventures in the deserts of the American West. Washington Post. Like the highest mountain peaks, deserts are environments that can be inhospitable even to the most seasoned explorers. Craig Childs, who has spent years in the deserts of the American West as an adventurer, a river guide, and a field instructor in natural history, has developed a keen appreciation for these forbidding landscapes: their beauty, their wonder, and especially their paradoxes. His extraordinary treks through arid lands in search of water are an astonishing revelation of the natural world at its most extreme. Utterly memorable and fantastic. Certainly, no reader will ever see the desert in the same way again. Suzannah Lessard, Washington Post. Effects of Explosions in Shallow Water Waterways Experiment Station (U.S.), 1955.

Over twenty years in the writing the three books in The Legend of The Secret Saga series evolved to be an fascinating magical story unlike any other as they poetically weave together a strange epic tale. THE AUTHOR Estee Shoesmyth is a tangible figment of her own unbridled paradoxical imagination and the fantasy fiction pseudonym of eclectic American artist Suzanne T Dietz. The Legend Of The Secret Saga is the complete epic trilogy in one colorful volume. There is no other story like it in The Real World. The fantastical epic tale opens in Book One which is When Begin Began. Celestial Scribe Angel Daria pens the following words To Whom It May Concern: When this immense historical accounting commenced I surely did not anticipate that the nature of this story would ever veer off the straight and narrow path. Instead it proceeded to travel along the strangest winding ways. And so I followed it most dutifully with my pen in hand. Once upon a time an anonymous philosopher on The Ultimate Earth aptly intellectualized: There are always three sides to every story: your side, the other side, and the truth. The story presented to you here may seem like nothing more than a collection of my own fantastical delusions. Surely it could not be that which I myself have ever witnessed. In that case it would certainly not make it to be truth. However it is by my best accounting the strange but true enough telling of a deliberately long lost story from somewhere far out on the other side of Who Knows Where. That's just the beginning. In Book Two The Murky Middle the story dims to very very dark with the introduction of a terribly wicked magician's sorcery. Through magic he enters into a spirit world and adamantly decided to stay there. From that secret domain he meets another and the two in cahoots do some deliberately evil damage that stretches out from that invisible place right into the unsuspecting folks who live day to day in The Real World. Those folks do not stand a chance to escape being affected by the magician's insidious determination to capture them all. Eventually Adam and Eve are reincarnated into The Real World on a specific mission years beyond the peak of that magician's vicious reign. By then the worse had evidently devolved into the worst that ultimately leads through to Book Three The End Of The End. This story is utterly fascinating. Its twisting and turning through that which may be somewhat recognizable is more tangled up into the fantastical that is addictive to read onward to find out what happens next. All throughout there is mystery, magic, love, hate, obsessiveness, rejection, maliciousness, brilliance, stupidity, sickness, healing, forgiveness, revenge, romance, weirdness, wonderment, heavy heartedness, humor, life, death, and reincarnation. All along there is that concept of eternity being a time lasting for Forever. Which according to all reports in The Real World Forever is a long long time. The Legend Of The Secret Saga is the complete epic trilogy in one colorful volume. There is no other story like it in The Real World. Not from When Begin Began throughout The Murky Middle and all the way to The End Of The End. It is a story that is a Fairytale and a

Shipwright's Secrets is an illustrated history of Restoration shipbuilding focused on the Tyger one of the smaller but powerful two deck warships of the period. It examines the proceedings of King Charles II in deciding the types of ship he wanted and his relationship with his master shipwrights. This fascinating book reveals the many secrets of Charles II's shipwrights through an analysis of John Shish's plans for the Tyger revealing innovative practical calculations which differ significantly from the few contemporary treatises on the subject and the complicated process of constructing the moulds necessary to make the ship's frame. All the other duties performed by the master shipwrights such as repairing ships, controlling their men and keeping up with the latest inventions are also discussed in detail. The Master Shipwright's Secrets is replete with beautiful and detailed illustrations of the construction of the Tyger and explores both its complicated history and its complex rebuilding complete with deck plans, internal sections and large scale external shaded drawings. The title also explores associated ships including another fourth rate ship the Mordaunt which was purchased into the Navy at the time and underwent a dimensional survey by John Shish. A rare contemporary section drawing of another fourth rate English ship and constructional drawings of Shish's later fourth rate ship St Albans are also included.
