Portuondo,2013-04-18 The discovery of the New World raised many questions for early modern scientists What did these lands contain Where did they lie in relation to Europe Who lived there and what were their inhabitants like Imperial expansion necessitated changes in the way scientific knowledge was gathered and Spanish cosmographers in particular were charged with turning their observations of the New World into a body of knowledge that could be used for governing the largest empire the world had ever known As Mar a M Portuondo here shows this cosmographic knowledge had considerable strategic defensive and monetary value that royal scientists were charged with safeguarding from foreign and internal enemies Cosmography was thus a secret science but despite the limited dissemination of this body of knowledge royal cosmographers applied alternative epistemologies and new methodologies that changed the discipline and in the process how Europeans understood the natural world Secret Science Ulf Schmidt,2015 Charting the ethical trajectory and culture of military science from its development in 1915 in response to Germany s first use of chemical weapons in WW1 to the ongoing attempts by the international community to ban these weapons Secret Science offers a comprehensive history of chemical and biological weapons research by former Allied powers **Cool Spy Supplies: Fun Top Secret Science Projects** Esther Beck,2007-09-01 This book contains kid tested cool top secret spy projects using biology chemistry and physics and will inspire young science buffs to experiment with their own ideas Kids will learn how to Observe Hypothesize Test and draw a Conclusion by using The Scientific Method Included with the experiments are detailed step by step instructions with original photography material lists an explanation of the science behind the fun real world applications of the principles behind the project tips and project variations and suggestions of what to keep track of in a science journal A glossary and index is also included *The Secret Doctrine (Complete 3 Volumes)* Helena Blavatsky,2022-11-13 In The Secret Doctrine Helena Blavatsky presents a profound exploration of the universal truths underlying religion philosophy and science encapsulated in her meticulously woven narrative across three comprehensive volumes This work employs a distinctive blend of esoteric language and analytical reasoning drawing upon an eclectic range of sources including Eastern spirituality Western mysticism and the natural sciences Written during the late 19th century the book aims to reveal the metaphysical framework

of existence introducing concepts such as cosmic evolution and the unity of all life while challenging the prevailing materialistic worldview of her time Helena Blavatsky a co founder of the Theosophical Society was deeply influenced by her studies in Eastern philosophies and occult traditions Her travels in India and encounters with yogic practices and spiritual teachings profoundly shaped her worldview Blavatsky s intent in writing The Secret Doctrine arose from her mission to disseminate these esoteric teachings bridging the gap between science and spirituality and appealing to an increasingly skeptical society This essential text is recommended for those seeking an intellectual awakening or a deeper understanding of spiritual philosophies Blavatsky s intricate ideas encourage readers to contemplate the interconnectedness of all life and prompt an exploration of their own spiritual paths making The Secret Doctrine a hallmark of esoteric literature that remains relevant and thought provoking today

The Secret Science of Baby Michael Banks,2022-12-06 What stops pregnant women from falling over all the time What makes infant cries so captivating How do sperm swim The Secret Science of Baby answers these questions and many more revealing the fascinating physics behind conception birth and babyhood Parents and parents to be are bombarded with information from what to expect to what to do and not to do when it happens But what they may not realize is that from the chemistry of pregnancy tests to the vacuum physics of breastfeeding there is fascinating science at the heart of every aspect of creating and raising a new human Written by science journalist Michael Banks The Secret Science of Baby won t tell you how to raise a perfect violin playing mandarin speaking toddler but it will shed a new light on how and why things happen as they do from conception and pregnancy to cooing and pooing Exploring the hidden physics behind uterine contractions the fluid dynamics of diapers and more both parents and curious non parents who after all were once babies themselves will gain a fresh perspective on the infant universe and the thrilling science that makes it possible In these pages readers will discover The physics of the playground and common toys from the swing to the Slinky What it really means to sleep like a baby The surprising shared vocal cord features of lions and human infants The miracle of a baby s first breath and how surface tension provided the key to helping preemies breathe Banks draws from his own experience interviews with scientists and the latest research including some involving conception inside an MRI machine to offer a book that focuses on how rather than how to The result is an illuminating and hilarious journey through the everyday science of making baking and bringing up baby

The Secret Science of Superheroes Mark Lorch,Andy Miah,2017-09-14 Ever wondered what a superhero eats for breakfast Do they need a special diet to feed their superpowers The odd metabolisms of superheroes must mean they have strange dietary needs from the high calorie diets to fuel flaming bodies and super speeds to not so obvious requirements for vitamins and minerals The Secret Science of Superheroes looks at the underpinning chemistry physics and biology needed for their superpowers Individual chapters look at synthesising elements on demand genetic evolution and what superhero suits could be made of By exploring these topics the book introduces a wide range of scientific concepts from protein

chemistry to particle physics for a general scientifically interested audience With contributions from leading science communicators the book hopes to answer some of these important questions rather than debunk or pick holes in the science of superheroes

Science and the Secrets of Nature William Eamon, 2020-06-30 By explaining how to sire multicolored horses produce nuts without shells and create an egg the size of a human head Giambattista Della Porta's *Natural Magic* 1559 conveys a fascination with tricks and illusions that makes it a work difficult for historians of science to take seriously Yet according to William Eamon it is in the how to books written by medieval alchemists magicians and artisans that modern science has its roots These compilations of recipes on everything from parlor tricks through medical remedies to wool dyeing fascinated medieval intellectuals because they promised access to esoteric secrets of nature In closely examining this rich but little known source of literature Eamon reveals that printing technology and popular culture had as great if not stronger an impact on early modern science as did the traditional academic disciplines

The Ultra Secret Frederick William Winterbotham CBE, 2025-10-30 In April 1940 when British cryptographers at Bletchley Park decrypted some German air force messages Group Captain Frederick Winterbotham recognized the potential of such intelligence and established a secure system to handle it He created Special Liaison Units small teams of RAF officers and enlisted men to receive and securely distribute decrypted Ultra messages to relevant commanders These messages transmitted through encrypted radio signals were kept highly classified with recipients unaware of their origins Winterbotham's units played a critical role in key moments during the war His selected intercepts provided early insights into the French collapse during the Battle of France and proved crucial in the Battle of Britain North Africa El Alamein and the D Day invasion The Ultra intelligence was vital for informing Allied military decisions with Winston Churchill receiving urgent messages directly via a secure phone line By 1944 the system was highly efficient delivering time sensitive information such as the rapid intelligence on the German evacuation of the Casino line in Italy Winterbotham also analyzed the surprise of the 1944-45 Ardennes Offensive noting that the absence of German signals should have raised alarms Winterbotham's first hand account of the Enigma program offers an unmatched perspective on its strategic importance

Spirituality & Occult Helena Blavatsky, 2023-12-09 In *The Secrets of Spirituality Occult* Helena Blavatsky intricately weaves a rich tapestry of esoteric knowledge and spiritual exploration unveiling the hidden dimensions of human existence. The book is characterized by its philosophical depth and mystical prose drawing from a diverse range of traditions including Eastern religions, Gnosticism, and the Western esoteric traditions. Blavatsky employs a metaphorical and often poetic style, inviting readers to ponder the intricacies of nature, existence, and the soul's journey toward enlightenment, all while positioning her work within the burgeoning context of 19th-century occultism and spiritual movements. Helena Blavatsky, a prominent figure in the Theosophical Society, was a revolutionary thinker whose travels across various cultures and in-depth studies of ancient texts profoundly influenced her worldview. Her early experiences in Russia and her later explorations in the East imbued her with a unique perspective on spirituality, which she passionately sought to communicate through her writings. Blavatsky's dedication to uncovering the universal truths underlying diverse belief systems led her to synthesize complex philosophical ideas into accessible narratives. This book is highly recommended for seekers of knowledge, scholars of spirituality, and those curious about the intersection of mystical thought and practical wisdom. It serves not only as a guide to understanding the deeper aspects of existence but also as an invitation to engage with the transformative power of occult studies that remain relevant today.
