

SECRETS of Successful and Effective STUDYING

Try to study at the same times each day.

Studying at the same times each day will establish a routine that will become a regular part of your life. Like sleeping and eating. The world starts working early and college is your business. So get up and open for business – same time every day.

2 ATTEND EVERY CLASS

Never miss a class for any reason. Don't be sick. Don't sleep in. Don't take a traffic jam. Don't do anything that causes you to miss a class. Your parents are paying a bucket of money for you to go to these. Do not let them down.

3 SIT FRONT AND CENTER IN EVERY CLASS

Always sit down in the front row, directly in front of the lecturer. It will focus your attention and set you free from fiddling, daydreaming, doodling and browsing on facebook.

Use laptops and smartphones wisely

Laptops and phones can bring down your grade. Seriously. Send emails, surf the web and post facebook updates after your classes or during the breaks.

5 TAKE A PROPER CARE OF YOUR BODY AND HEALTHY MEALS

Avoid eating a heavy meal before studying. It will make you sleepy. Try to eat small and frequent meals. Do sports at your free time till the end of your life.

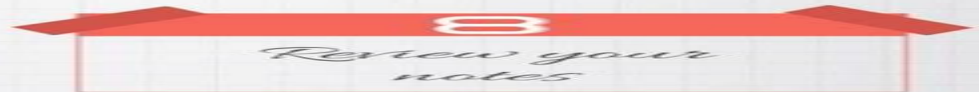

6 ASK QUESTIONS

Talk to the professor. Face to face. Always try to ask an interesting question for a small word! Professors like initiative and proactive students.

7 GET ENOUGH SLEEP

Sleep is important. When you properly rest, your brain stores the information. You have learned during the day by assimilating information. So the better you sleep, the better you learn.

Review your notes

Immediately after class review your notes. You've got lots of abbreviations and shorthand. While they are still in your mind, take a scan through it. Mark a point and skipped some space, don't forget to take the information later from the prof or a classmate.

9 START WITH THE MOST DIFFICULT SUBJECT FIRST

Always start your homework with the most difficult, mental or subject that requires the most effort and mental energy from you. Never procrastinate your study session. Procrastination leads to rushing, rushing to errors.

10 DO NOT STUDY IN A DORM

Your friends, time wasters and strangers will be passing by. You need a quiet place and home. Not work. For studying go to a quiet place where your friends are going to come in and chat it up.

The over 600 tips in this book will show you how to pick good courses and avoid bad professors, how to develop college-level skills and habits that'll put you ahead of the pack, how to get through the freshman comp, math, language, and lab science requirements in one try, how to figure out what's going to be on the tests and what professors are looking for in papers and presentations, how to pick a major you'll really like and be good at, how to get the edge for graduate school or the inside track to a really good job, and much more. The tips are quick and easy to use, and the advice is friendly and supportive. It's as if you had your own personal professor guiding you on the path to college success. *The Seven Secrets of Highly Successful Students* Ann Rodier Ph.D., 2020-12-14 If you can be admitted to a post-high school training program, a vocational training program, or a college or university, you have the potential for academic success. But to reach your full potential in higher education, you need to develop advanced academic skills. The Seven Secrets outlined in this workbook by Ann Rodier, Ph.D., will help you do so. Dr. Rodier is a private educational consultant who spent decades as an administrator and academic adviser at colleges and universities. You were taught many subjects in high school, but you might not have learned the strategies in this workbook, such as the best way to study, how to manage time, educational planning, organizational skills, and test-taking skills. The workbook includes a time management worksheet, quizzes, self-assessments, information on financing your education, methods for evaluating current study habits, and much more. By following the Secrets revealed in this workbook, you can move your academic performance to a higher level and achieve what once seemed impossible. **How To Study Effectively** Maple Vanier, 2021-05-17 In fact, numerous research studies have proven that students who spend more than 3 hours a day studying or revising retain less information than students who study less than 3 hours a day and they run the risk of complete burnout. Never a good thing. In this present time, this book will make students no longer afraid of failing the exam or getting low grades. Often the only reason why we think something is difficult is that we aren't equipped with the right strategies, tools, and techniques needed to achieve success. Chances are you're more than capable of achieving the grades you desire. You just need to make some minor adjustments to how you study. Getting top grades is much easier than you think. Let this book show you how to study less and get better grades. *The Secret of Successful Speaking and Reading* Robert L.
