communist utopia from Plato onwards paying particular attention to debates about universalist ideology versus the possibility for socialism in one country The book argues that although the prevailing view is that socialism in one country was a sharp break from a long tradition that tended to view socialism as only possible if universal in fact the territorially confined socialist project had long roots including in the writings of Marx and Engels

NATO and Western Perceptions of the Soviet Bloc Evanthis Hatzivassiliou, 2014-05-30 This book examines the NATO reports on the Soviet bloc's political and economic system from 1951 to the aftermath of the Soviet invasion of Czechoslovakia and the beginning of detente As part of the wider history of Cold War Alliances the detailed assessments of the NATO experts regarding the non military aspects of Soviet power are a crucial indicator of Western allied perceptions of the adversary Their study allows us to widen the discussion on the Western alliance the accuracy of its information or perceptions and the nature of the Cold War Hatzivassiliou argues that the Cold War was not only a strategic dilemma although it certainly was that as well but also the latest stage of the crisis of legitimization which had been raging since the dawn of modernity NATO Western analysis is examined in this context At the same time the book discusses the relative influence of the major NATO members US and British influence was strong while French West German and Italian influence was also significant in the drafting of the reports and thus in shaping the alliance's perceptions during the Cold War This book will be of much interest to students of NATO Cold War Studies international history foreign policy and IR in general
