M.C. Escher's Legacy Michele Emmer, Doris Schattschneider, 2007-05-08 From the reviews of the hardcover edition This conference to celebrate the centennial of the birth of Escher resulted in an immensely interesting collection of articles Although Escher himself is no longer among us M C Escher's Legacy like a garden of continually blooming flowers allows us to appreciate his heritage anew Notices of the AMS April 2003 It is a handsome volume and contains articles from 41 people which cover a wide range of artistic and analytical endeavour A quick dip into each section produces small gems there is enough here to provide rich pickings for any interested party no matter what their particular discipline is Embedded in the various articles are even snippets which illuminate Escher's intentions and his relationships with his mathematician friends Even though short these are rewarding to read the CD ROM is an excellent addition to the book and contains much more material including video excerpts from some of the lectures Australian Math Soc GAZETTE May 2003 **M.C. Escher** Doris

Time After Time David Wood, 2007-07-09 In *Time After Time* David Wood accepts without pessimism the broad postmodern idea of the end of time Wood exposes the rich stratified and non linear textures of temporal complexity that characterize our world Time includes breakdowns repetitions memories and narratives that confuse a clear and open understanding of what it means to occupy time and space In these thoughtful and powerful essays Wood engages Kierkegaard Nietzsche Heidegger and Derrida to demonstrate how repetition can preserve sameness and how creativity can interrupt time Wood's original thinking about time charts a course through the breakdown in our trust in history and progress and poses a daring and productive way of doing phenomenology and deconstruction

Life-Changing Magic of Numbers Bobby Seagull, 2018-10-25 If you found maths lessons at school irrelevant and boring that's because you didn't have a teacher like Bobby Seagull. As seen on Monkman Seagull's Genius Guide to Britain. Long before his rise to cult fandom on University Challenge Bobby Seagull was obsessed with numbers. They were the keys that unlocked the randomness of football results, the beauty of art and the best way to get things done. In his absorbing book Bobby tells the story of his life through numbers and shows the incredible ways maths can make sense of the world around us. From magic shows to rap lyrics, from hobbies to outer space, from fitness to food, Bobby's infectious enthusiasm for numbers will change how you think about almost everything. Told through fascinating stories and insights from Bobby's life and with head-scratching puzzles in every chapter, you'll never look at numbers the same way again. **The publishers weekly**, 1992

Nine Coins/Nueve monedas Carlos Pintado, 2025-07-01 The winner of the Paz Prize for Poetry presented by the National Poetry Series published in both English and Spanish. The winner of the Paz Prize for Poetry presented by the National Poetry Series published in both English and Spanish. Carlos Pintado is a finalist for the 2015-2016 CINTAS Foundation Fellowship in Creative Writing. Named a Notable Translation of 2015 by World Literature Today. The Moon has been selected as one of Vancouver Poetry House's 10 Best Poems of 2015. Translated by Hilary Vaughn Dobel. *Nine Coins Nueve monedas* is a palimpsest of love, fears, dreams, and the intimate landscapes where the author seeks refuge. These poems appear like small islands of salvation covered with the brief splendor of the coins people sometimes grab hold of, taking the form of a very personal and often devastating map. Each poem is a song at the edge of an abyss, an illusory gold coin obtained as a revelation, a song of hope and understanding. The volume's dreamlike geography prompts the reader to revisit the thread, the labyrinth, and the Minotaur's legends. The night streets of South Beach, Alexandria, and many other cities lit by the fading torches seem to guide us in conversation with characters who are long dead. The Paz Prize for Poetry is presented by the National Poetry Series and The Center at Miami Dade College. This annual award, named in the spirit of the late Nobel Prize-winning poet Octavio Paz, honors a previously unpublished book of poetry written originally in Spanish by an American resident. An open competition is held each May when an esteemed Spanish-speaking poet selects a winning manuscript. The book will be published in a bilingual edition by Akashic Books. The winning poet will also receive a 2,000 cash prize. **Impossible Worlds** Bruno Ernst, 2006
