Mapping The Silk Road:

Mapping the Silk Road and Beyond Kenneth Nebenzahl, 2011-08-21 Today the world is focusing unprecedented attention on Asia and the Middle East rediscovering a cultural political and geographical landscape that has fascinated and frustrated Westerners since the time of Alexander the Great Mapping the Silk Road and Beyond traces the history of the European age of exploration and its lasting effects on these regions through an extensive series of beautifully rendered and imaginative maps drawn by explorers merchants and colonial administrators of the time The book focuses on both maritime exploration and overland discovery via the ancient Silk Road a network of trading posts that encompassed China Tibet Pakistan India Kurdistan Iraq Ethiopia Eritrea and dozens of other places known in ancient times by fabled names including Abyssinia Malacca Macassar Siam and Cathay The maps provide detailed visual keys to the fascinating history of Asia and the Middle East altogether they illuminate a cast of historical figures ranging from great leaders the Queen of Sheba Mohammed the prophet King Charles V to legendary explorers Marco Polo Columbus Magellan Sir Francis Drake Capt James Cook and influential cartographers Mapping the Silk Road and Beyond depicts over eighty maps organized in clear chronology from Alexander the Great's map of the world first created in 323 BC and reproduced in a sixteenth century atlas to maps from the nineteenth century by French and Dutch explorers that detail the growing interaction between Europeans and Eastern cultures These maps represent the finest examples in existence in museums libraries and archives around the world chosen because they depict the most important milestones in the mapping of Asia

The Silk Road Janey Levy, 2010-01-01 This book explains that the scale on a map is an indicator of the relationship between distances on the map and the corresponding actual distances and that maps can show the distance of the Silk Road which stretched from eastern China to the Middle East

Mapping the Silk Road Kenneth Nebenzahl, 2004-11 Nebenzahl documents the mapping and discovery of West Asia and the trade routes of the Silk Road The book includes rare maps spanning 2 000 years of cartographic history

The Journey of Maps and Images on the Silk Road Philippe Forêt, Andreas Kaplony, 2008 This book covers new ground on the diffusion and transmission of geographical knowledge that occurred at critical junctures in the long history of the Silk Road Much of twentieth century scholarship on the Silk Road examined the ancient archaeological objects and medieval historical records found within each cultural area while the consequences of long distance interaction across Eurasia remained poorly studied Here ample attention is given to the journeys that notions and objects undertook to transmit spatial values to other civilizations In retracing the steps of four major circuits right across the many civilizations that shared the Silk Road The Journey of Maps and Images on the Silk Road traces the ways in which maps and images surmounted spatial historical and cultural divisions

Silk Roads Susan Whitfield,2019 As world powers realign their cultural economic and political outlooks there is no better time to consider how Afro Eurasia s complex network of ancient trade routes which spanned the vastness of the steppe vertiginous mountain ranges fertile river plains and forbidding deserts across the continents and on to the seas beyond fostered economic activity and cultural political and technological communication From silk to slaves fashion to music religion to science the movement of interaction of goods people and ideas was crucial to the flourishing of peoples and their cultures across this vast region Edited by Susan Whitfield an established authority on the subject with contributions from over 80 leading scholars from across the globe Silk Roads situates the ancient routes against the landscapes that defined them to reveal the raw materials that they produced the means of travel that were employed to traverse them and the communities that were shaped by them Organized by terrain from steppe to desert to ocean each section includes detailed maps a historical overview thematic essays and features showcasing art buildings and archaeological discoveries A wealth of photographs reveals the breathtaking and often forbidding landscapes encountered by travellers and traders through the millennia With one section inscribed as a World Heritage Corridor by UNESCO in 2014 and others to follow and China claiming the Silk Roads as the precursor of its Belt Road Initiative this network of ancient trade routes and the interaction along them has never been of greater interest or importance than today This beautiful publication honours the astonishing diversity in the way cultures advance and flourish not in spite of their differences but because of them

The Silk Roads Paul Wilson,2010 The Silk Road was never a single thread but an intricate web of trade routes linking Asia and Europe Includes Turkey Syria Iran Turkmenistan Uzbekistan Kyrgyzstan Pakistan and China

Teaching the Silk Road Jacqueline M. Moore,Rebecca Woodward Wendelken,2010-06-01 Advocating a global as opposed to a Eurocentric perspective in the college classroom discusses why and how to teach about China s Silk Road The romance of the Silk Road journey with its exotic locales and luxury goods still excites the popular imagination But study of the trade routes between China and central Asia that flourished from about 200 BCE to the 1500s can also greatly enhance contemporary higher education curricula Indeed with people plants animals ideas and beliefs traversing it the Silk Road is both a metaphor of globalization and an early example of it Teaching the Silk Road highlights the reasons to incorporate this material into a variety of courses and shares resources to facilitate that process It is intended for those who are not Silk Road or Asian specialists but who wish to embrace a global history and civilizations perspective in teaching as opposed to the more traditional approach that focuses on cultures in isolation The book explores both classroom and

experiential learning and is intentionally interdisciplinary Each essay focuses on pedagogical strategies or themes that teachers can use to bring the Silk Road into the classroom Based on years of experience the authors of Teaching the Silk Road offer sound strategies for both stand alone courses on aspects of the route and mainstreaming what has been uncovered in three decades of research into existing courses in a variety of disciplines H Net Reviews H Asia This collection of essays and personal reflections allows the reader to listen in on a relaxed conversation on teaching the topic of the Silk Road It offers a nice blueprint for integrating the Silk Road into new or existing curricula J Michael Farmer author of The Talent of Shu Qiao Zhou and the Intellectual World of Early Medieval Sichuan **Mapping an Atlantic World, circa 1500** Alida C. Metcalf, 2020-10-13 How did intricately detailed sixteenth century maps reveal the start of the Atlantic World Beginning around 1500 in the decades following Columbus's voyages the Atlantic Ocean moved from the periphery to the center on European world maps This brief but highly significant moment in early modern European history marks not only a paradigm shift in how the world was mapped but also the opening of what historians call the Atlantic World But how did sixteenth century chartmakers and mapmakers begin to conceptualize and present to the public an interconnected Atlantic World that was open and navigable in comparison to the mysterious ocean that had blocked off the Western hemisphere before Columbus's exploration In Mapping an Atlantic World circa 1500 Alida C Metcalf argues that the earliest surviving maps from this era which depict trade colonization evangelism and the movement of peoples reveal powerful and persuasive arguments about the possibility of an interconnected Atlantic World Blending scholarship from two fields historical cartography and Atlantic history Metcalf explains why Renaissance cosmographers first incorporated sailing charts into their maps and began to reject classical models for mapping the world Combined with the new placement of the Atlantic the visual imagery on Atlantic maps which featured decorative compass roses animals landscapes and native peoples communicated the accessibility of distant places with valuable commodities Even though individual maps became outdated quickly Metcalf reveals new mapmakers copied their imagery which then repeated on map after map Individual maps might fall out of date be lost discarded or forgotten but their geographic and visual design promoted a new way of seeing the world with an interconnected Atlantic World at its center Describing the negotiation that took place between a small cadre of explorers and a wider class of cartographers chartmakers cosmographers and artists Metcalf shows how exploration informed mapmaking and vice versa Recognizing early modern cartographers as significant agents in the intellectual history of the Atlantic Mapping an Atlantic World circa 1500 includes around 50 beautiful and illuminating historical maps Maps & Civilization Norman J. W. Thrower, 2024-05-31 In this concise introduction to the history of cartography Norman J W Thrower charts the intimate links between maps and history from antiquity to the present day A wealth of illustrations including the oldest known map and contemporary examples made using Geographical Information Systems GIS illuminate the many ways in which various human cultures have interpreted spatial relationships The third edition of Maps and Civilization incorporates

numerous revisions features new material throughout the book and includes a new alphabetized bibliography Praise for previous editions of Maps and Civilization A marvelous compendium of map lore Anyone truly interested in the development of cartography will want to have his or her own copy to annotate underline and index for handy referencing L M Seibert Geomatica

Mapping Antarctica Robert Clancy, John Manning, Henk Broksma, 2013-12-02 Everyone likes maps and maps are always used to illustrate the many books on the Antarctic Here the focus is reversed with contemporary maps telling the story one that should be attractive to the widest audience as it is a unique approach complimenting what has gone before and providing something different for all interested in Antarctica

Mapping the Chinese and Islamic Worlds Hyunhee Park, 2012-08-27 This book documents the relationship and wisdom of Asian cartographers in the Islamic and Chinese worlds before the Europeans arrived
