Official Gazette of the United States Patent and Trademark Office ,2002 *Lowry, Rawlings and Merkin's Insurance Law* Rob Merkin KC,2022-09-22 The 4th edition of this leading introductory text now under the sole authorship of Rob Merkin KC provides a detailed examination of the developing law of insurance combining exposition of the law with critical analysis The book is designed primarily for undergraduate and postgraduate students but is also a useful resource for

those in the insurance industry studying for professional examinations and legal practitioners who need a concise guide to the legal principles. The text is enhanced by extensive citations to case law and academic commentaries and a new companion website delivers annual case law updates. This new edition has been substantially rewritten in light of the transformation of insurance law in recent years. The text has been revised to include new legislation and coverage of the effects of Brexit. However, the approach and where possible the analysis of John Lowry and Philip Rawlings have been retained. The first part of the book considers the regulation of insurance business and the general principles underlying the law of insurance contracts. The second part examines the way those principles are shaped by the context in which they operate. A new chapter with case studies on COVID 19 earthquakes and mesothelioma applies the principles to the problems and uncertainties for insurance law revealed by catastrophic losses. This authoritative text offers a sound grasp of the current realities of insurance practice.
