**Life** Catherine Michael Chin, 2024-03-26 Life immerses the reader in the cosmic sea of alivenesses that made up the late ancient Mediterranean world It weaves together the philosophical religious sensory and scientific worlds of the later Roman Empire to tell the story of how human lives were lived under different natural laws than those we now know Loosely structured around events in the biography of one early Christian writer and traveller Life gives us a vivid and intimate glimpse of how ancient lifetimes unfolded under the sway of cosmic and spiritual forces that the modern world has forgotten

Danny Birt, 2006-02-01 Air burrowed insidiously into lungs that had collapsed subjective centuries ago only to rush back out through tightened vocal chords in a scream of agony Blood sluggishly drooled through heart chambers made fragile by time's merciless abrasion Involuntarily muscle groups twitched about as the soul returned to the body flailing appendages hither and thither testing their renewed animation To complete the Waking into his brain rushed memories of having no memories Existence is not supposed to be optional in this flat polytheistic world it is the dictate of Etre one of the world's three founding gods But Sanct a man lacking memories skills and purpose possesses or is possessed by an object that seemingly ignores the gods rules with impunity To make matters even more confusing Sanct is purportedly one of the gods servants But when the deities are forced to play by their own convoluted rules even they can make mistakes

Chance in the World Carl Hoefer, 2019-08-13 Probability has fascinated philosophers scientists and mathematicians for hundreds of years Although the mathematics of probability is for most applications clear and uncontroversial the interpretation of probability statements continues to be fraught with controversy and confusion What does it mean to say that the probability of some event X occurring is 31% In the 20th century a consensus emerged that there are at least two legitimate kinds of probability and correspondingly at least two kinds of possible answers to this question of meaning Subjective probability also called credence or degree of belief is a numerical measure of the confidence of some person or some ideal rational agent Objective probability or chance is a fact about how things are in the world It is this second type of probability with which Carl Hoefer is concerned in this volume specifically how we can understand the meaning of statements about objective probability He aims to settle the question of what objective chances are once and for all with an account that can meet the demands of philosophers and scientists alike For Hoefer chances are constituted by patterns that can be discerned in the events that happen in our world These patterns are ideally appropriate guides to what credences limited rational agents such as ourselves should have in situations of imperfect knowledge By showing this Hoefer bridges the gap between subjective probability and chance In a field where few scholars have given adequate treatment to interpreting statements of chance Hoefer develops a philosophically rich theory which draws on the disciplines of

metaphysics ontology and philosophy of science      **The Worldmakers** Ayesha Ramachandran,2015-10-13 In this beautifully conceived book Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists philosophers and writers to make sense of something that we take for granted the world imagined as a whole Once a new exciting and frightening concept the world was transformed in the sixteenth and seventeenth centuries But how could one envision something that no one had ever seen in its totality The Worldmakers moves beyond histories of globalization to explore how the world itself variously understood as an object of inquiry a comprehensive category and a system of order was self consciously shaped by human agents Gathering an international cast of characters from Dutch cartographers and French philosophers to Portuguese and English poets Ramachandran describes a history of firsts the first world atlas the first global epic the first modern attempt to develop a systematic natural philosophy all part of an effort by early modern thinkers to capture the world on the page      **Mobility and Migration in Film and Moving Image Art** Nilgun Bayraktar,2015-12-07
