American Man Lawrence Jones, 2023-10-10 Fox Friends cohost Lawrence Jones delivers the common sense book *America*

needs more than ever in this definitive takedown of the left's never ending attacks on masculinity. A generation ago it was understood that men and women were unique yet interdependent and designed by God to be that way. Today the woke crowd wants you to believe masculinity is toxic. In his first book, Lawrence embarks on a thorough examination of who is doing the attacking and why. Informed by his travels across the country for Fox News, Lawrence explains how confused progressives are about manhood and how powerful the need is to set the record straight. Men, he argues, are indispensable to thriving families and prosperous societies, and the sooner men start acting like men, the better off we all will be. Packed with stories from his own life and work, Lawrence makes a persuasive case for the virtues of manliness: courage, resilience, godliness, and self-reliance. Among others, Lawrence challenges his fellow men to live up to their responsibilities as men and to fill the cultural void. Woke ideologues have been happy to exploit. In confronting the chaos of contemporary culture, Lawrence is forced to reexamine his own beliefs as he spurs an honest discussion about what it means to be a man in America. The book also includes candid, never before shared interviews conducted by Lawrence of his Fox News colleagues like Sean Hannity, Mark Levin, Pete Hegseth, Will Cain, as well as other prominent voices like NFL great Ben Watson and actor Dean Cain. This insightful and uncompromising book from one of the country's fastest rising stars will enlighten and inspire readers as it proves, once and for all, the crucial role men can and must play in American life today.

### **Architecture and Movement**

Peter Blundell Jones, Mark Meagher, 2014-12-17. The experience of movement of moving through buildings, cities, landscapes, and in everyday life is the only involvement most individuals have with the built environment on a daily basis. User experience is so often neglected in architectural study and practice. *Architecture and Movement* tackles this complex subject for the first time, providing the wide range of perspectives needed to tackle this multi-disciplinary topic. Organised in four parts, it documents the architect's, planner's, or designer's approach, looking at how they have sought to deploy buildings as a promenade and how they have thought or written about it; concentrates on the individual's experience and particularly on the primacy of walking, which engages other senses besides the visual; engages with society and social rituals and how mutually we define the spaces through which we move, both by laying out routes and boundaries and by celebrating thresholds; analyses how we deal with promenades, which are not experienced directly but via other mediums such as computer models, drawings, film, and television. The wide selection of contributors includes academics and practitioners and discusses cases from across the US, UK, Europe, and Asia. By mingling such disparate voices in a carefully curated selection of chapters, the book enlarges the understanding of architects, architectural students, designers, and planners, alerting them to the many and complex issues involved in the experience of movement.

*Intensely Family* Carol Holly, 1995. Examines the heritage of failure and shame in the lives of Henry James (1843-1916) and his father, his strategies for self-protection and vocational success in his *A Small Boy and Others*, the biographical consequences of his autobiography, and the divided messages he transmits in his subsequent book about his brother. Portland OR     The Uncoiling Python Harold Scheub, 2010-08-10 The oral and written traditions of the Africans of South Africa have provided an understanding of their past and the way the past relates to the present These traditions continue to shape the past by the present and vice versa From the time colonial forces first came to the region in 1487 oral and written traditions have been a bulwark against what became 350 years of colonial rule characterized by the racist policies of apartheid The Uncoiling Python South African Storytellers and Resistance is the first in depth study of how Africans used oral traditions as a means of survival against European domination Africans resisted colonial rule from the beginning They participated in open insurrections and other subversive activities in order to withstand the daily humiliations of colonial rule Perhaps the most effective and least apparent expression of subversion was through indigenous storytelling and poetic traditions Harold Scheub has collected the stories and poetry of the Xhosa Zulu Swati and Ndebele peoples to present a fascinating analysis of how the apparently harmless tellers of tales and creators of poetry acted as front line soldiers
