Moving Leadership Standards Into Everyday Work, 2015 *Moving Leadership Standards Into Everyday Work* WestEd, 2003 Moving Leadership Standards Into Everyday Work Descriptions of Practice fleshes out the most widely used leadership standards by identifying underlying goals and providing a detailed narrative of specific administrator actions attitudes and understanding necessary to attain each goal These descriptions of practice also depict what each standard looks like across a continuum of development as an administrator moves from being a tactical manager to a strategic instructional leader whose efforts result in improved student learning Nine Lessons of Successful School Leadership Teams Bill McKeever, California School Leadership Academy, 2003 Why do some school leadership teams succeed while others stagnate snipe or disintegrate Are there key lessons that apply no matter what your school situation *Nine Lessons of Successful School Leadership Teams* distills a decade of on the ground innovation and research pointing to what school leadership teams can do to focus on and increase student achievement Case studies from schools and districts anchor the discussion of strategies that have evolved over a decade of work with more than 23 000 school leaders Tools that have contributed to school leadership teams successes are included **Inside High School Reform** Jordan E. Horowitz, California Academic Partnership Program, 2005 What happens when some of the lowest performing high schools in the state of California make a commitment to reform themselves This book goes inside the reform efforts of 28 high schools where educators collaborated to fundamentally change expectations for students in effect to prepare all students for postsecondary education By challenging the status quo teachers and administrators set out to strengthen their delivery of services so that all students especially those traditionally denied access to college would leave their care with more options for college and for life Reported here are the conclusions from formal evaluations over the past ten years of high school reform shepherded by the California Academic Partnership Program CAPP CAPP schools are each funded for three to five years with grants of about 100 000 a year to make fundamental changes for their students As these schools discovered not all changes are equally valuable but some are simply essential In the words of the educators themselves and through the perspectives of CAPP advisors who monitored the programs *Inside High School Reform* lays out some of the apparently universal lessons of making the reform changes that matter Central Office Inquiry Kim Agullard, Dolores S.
