*Mozart and Masonry* Paul Nettl, 2023-07-11 A noted musicologist looks at the eighteenth century composer s connection to Freemasonry and its profound influence on his music Speculative masonry was a pervasive intellectual force in eighteenth century European society Like many of his colleagues as well as his father before him Wolfgang Amadeus Mozart joined a Masonic lodge in 1784 The philosophy and symbolism of the Masons would be a major source of inspiration for his compositions from then on This book provides an overview of Mozart s relationship to the fraternity and a detailed account of the numerous pieces he wrote specifically for Lodge events or ritual as well as the many pieces adapted by others for Lodge use It also includes an in depth explanation of Mozart s opera The Magic Flute and its Masonic themes and imagery

The Royal Musical Association Leanne Langley, 2024-12-10 Charting the history of the

Royal Musical Association over 150 years from scientific roots and the long resistance of British universities to music study to bringing UK musicology to worldwide recognition This book is the first comprehensive history of the Royal Musical Association Drawing on extensive archival material and exploring a host of colourful people it paints an absorbing picture of scholarly achievement in Britain across 150 years Founded in London in 1874 as a learned society for musical research the Association emulated the venerable Royal Society in welcoming diverse backgrounds but went further by including women Charting its scientific roots and the long resistance of British universities to music study the narrative shows how the Association published a strong body of research independently blossoming from 170 members in the 1870s to more than 1400 today Early joiners included the scientists William Pole and John Tyndall a founder of climate science the art historian Elizabeth Eastlake and musicians from John Stainer to Agnes Zimmermann Their goal was to investigate and discuss music rather than perform it or give concerts Because no member was yet trained in what would later be called musicology the papers covered an eclectic range of scientific ethnographic and historical questions broad in scope and responsive to heard music Whether measuring acoustic phenomena studying popular music or deciphering manuscripts of early polyphony the Association promoted wide engagement as well as the establishment of academic musicology Meanwhile members including W B Squire Edward J Dent Thurston Dart and Stanley Sadie transformed public understanding Their work in music library development opera Musica Britannica early music criticism and music lexicography helped gain global recognition for British scholarship With arts study under pressure in the current uncertain climate the Association s recent concern for real world issues in diversity practice based research and the vital role of music in schools remains true to its founding spirit

his first work for the theatre until twenty four when he received the commission for Idomeneo Mozart composed a German Singspiel and part of a second one two Italian opere buffe five Italian opere serie a comedy in Latin an act of a sacred drama in German and the incidental music for a German play It is these twelve works and the musical and social setting in which they were created which Carolyn Gianturco examines in this study Dr Gianturco approaches each piece from the several points of view significant to its understanding biographical so far as the young Mozart himself was concerned patronage without which there could have been no such works the libretti the individual singers and the musicians through whom the music was realised and the music itself which Dr Gianturco analyses in detail with the help of numerous musical examples For many years Mozart s early theatrical compositions were thought interesting only as a prelude to the five masterpieces of his maturity More recently Bastien und Bastienne Lucio Silla La finta giardiniera Il re pastore and Zaide for instance have come to be valued for their own sake Carolyn Gianturco s book has the great merit of showing how Mozart s early experiments in harmony form rhythm instrumentation and counterpart were to give him the technical means to create true dramma in musica Together with Mozart s participation in it her study also sheds new light on the world of eighteenth century opera in general In order to write this book Carolyn Gianturco worked from original sources in the Deutsche Staatsbibliothek East Berlin the Staatsbibliothek Preussische Kulturbesitz West Berlin the British Library the Santa Cecilia Library in Rome the G ttingen University Library and the Windsor Castle Library Dust jacket *Painting the Cannon's Roar* Thomas Tolley, 2017-07-05 From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences The publication of Newton s Opticks at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the visual arts to be defined more closely in relation to one another This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts **The Musical**

**Times** ,1906      **New York Magazine** ,1991-07-22 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
